4. INSTALLATION GUIDE

The EseeSmart Smart Cabinet Lock is designed for easy, drill-free installation using strong adhesive. Screws are provided for optional, enhanced security.

4.1. Preparation

1. Clean the surface where the lock will be installed. Ensure it is dry and free of dust or grease.
2. Determine the optimal placement for the front lock body (keypad) and the rear lock body (mechanism) on your cabinet or drawer. Use the provided positioning card for guidance.

4.2. Mounting the Lock Bodies

3. Peel the backing from the adhesive tape for the rear lock body. Align it carefully with your chosen position inside the cabinet/drawer and press firmly for 30 seconds.
4. Similarly, peel the backing from the adhesive tape for the front lock body. Align it on the exterior of the cabinet/drawer, ensuring it corresponds with the rear lock body, and press firmly.

4.3. Mounting the Buckle

5. Attach the buckle to the cabinet frame or adjacent drawer using its adhesive tape, ensuring it aligns perfectly with the locking mechanism of the rear lock body when the cabinet/drawer is closed.

4.4. Optional Screw Installation

For maximum security, you may use the provided screws to permanently attach the lock components. This requires drilling pilot holes through the cabinet material.

6. After positioning with adhesive, mark the screw holes.
7. Carefully drill pilot holes.
8. Secure the lock bodies and buckle with the screws.

Easy to Install

Installation within 5 minutes

OURS:

 **No Drilling**

 **No wiring**

OTHERS:

Drilling may damage the surface

Wiring is troublesome and prone to damage

5. OPERATION INSTRUCTIONS

The EseeSmart Smart Cabinet Lock offers five convenient ways to unlock your cabinet or drawer.

5.1. Fingerprint Unlock

Place your registered finger on the fingerprint sensor on the front lock body. The lock will disengage upon successful recognition.

Image: Demonstrating fingerprint unlock on the smart cabinet lock.

5.2. Passcode Unlock

Enter your registered passcode on the keypad. The lock will disengage upon correct entry.

5.4. Bluetooth App Unlock

Use the eSmartLock mobile application on your smartphone to unlock the cabinet via Bluetooth connection.

Image: Demonstrating unlocking the smart cabinet lock using the mobile application.

5.5. iWatch Unlock

For added convenience, the lock can be integrated with your iWatch for quick unlocking.

5.6. App Management Features

- **User Management:** Register and manage fingerprints, passwords, and RFID cards.
- **One-Time Passwords:** Generate temporary access codes for guests or specific situations.
- **Access Sharing:** Share access permissions with other users.
- **Unlock Records:** View a history of all unlock events.
- **Constant Open Mode:** Set the lock to remain open for extended periods.

Multi-Function Password

6. BATTERY MANAGEMENT

The EseeSmart Smart Cabinet Lock is powered by two AA batteries (not included) and is designed for low power consumption, lasting up to 12 months.

6.1. Battery Installation

Open the battery compartment on the rear lock body and insert two AA batteries, ensuring correct polarity.

6.2. Low Battery Warnings

The lock provides multiple warnings when the battery level is low:

- **Indicator Light:** A dedicated light on the front panel will illuminate.
- **Audio Alert:** A long beep will sound after unlocking.
- **App Notification:** The mobile application will display the battery status and send warnings.

When the battery is critically low, the lock will automatically open to prevent you from being locked out.

6.3. Emergency Charging

In case of a completely drained battery, connect a Type-C cable to the emergency charging port on the

front lock body to temporarily power the device and unlock it.

8. SAFETY AND APPLICATIONS

The Eesemart Smart Cabinet Lock is designed with safety and versatility in mind.

8.1. Child Safety and Baby Proofing

Secure cabinets and drawers containing hazardous materials, sharp objects, or valuable items from curious children. This lock provides an effective baby-proofing solution without visible external hardware.

8.2. Anti-Theft Protection

The robust metal mechanism offers enhanced protection for your possessions and confidential documents, making it suitable for safeguarding weapons or sensitive files.

8.3. Recommended Applications

- Cabinets and Drawers
- Wardrobes and Closets
- Filing Cabinets
- Liquor Cabinets
- Desks and Dressers
- DIY Furniture projects

9. TROUBLESHOOTING

If you encounter issues with your EseeSmart Smart Cabinet Lock, consider the following:

- **Lock Not Responding:** Check battery levels. Use emergency Type-C charging if batteries are completely drained.
- **Fingerprint/Passcode/RFID Not Recognized:** Ensure your registered credentials are correctly entered or presented. Re-register if necessary via the app.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on your device and the lock is within range. Restart the app or your device if needed.
- **Physical Obstruction:** Verify that the lock mechanism and buckle are free from any obstructions preventing proper engagement or disengagement.

10. WARRANTY AND SUPPORT

EseeSmart is committed to providing quality products and customer satisfaction.

- **180-Day Warranty:** The product comes with a 180-day warranty covering manufacturing defects.

- **30-Day Return/Exchange:** Enjoy a 30-day no-reason return and exchange policy, provided the product is in resalable condition.
- **Lifetime Maintenance:** EseeSMART offers lifetime maintenance for worry-free after-sales support.

For further assistance or inquiries, please refer to the contact information provided in your product packaging or visit the official EseeSMART website.
