3.1 Physical Features

- **Display:** 6.56-inch HD+ IPS display with a waterdrop notch and 90 Hz smart refresh rate.

- **Cameras:** 8 MP front camera and 13 MP Samsung ISOCELL 4H7 rear camera.
- **Speaker:** Smart-K Box speaker for enhanced audio.
- **Ports:** USB Type-C for charging and data transfer.
- **Card Slots:** Two slots supporting either two SIM cards (SIM1 + SIM2) or one SIM card and one TF (microSD) card for expandable storage.

Image 3.2: Detail of the Smart-K speaker and charging port on the Blackview Wave 8.

4. SETUP

4.1 Inserting SIM and TF Cards

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM ejector tool (not included, use a thin pin if necessary) into the small hole next to the tray to open it.
3. Carefully pull out the tray.
4. Place your Nano-SIM card(s) and/or TF card into the designated slots on the tray. Ensure the gold contacts face downwards.
5. Gently push the tray back into the phone until it clicks into place.

4.2 Charging the Battery

Before first use, fully charge the device battery. Use the provided USB cable and charger. Connect the USB cable to the phone's Type-C port and the charger to a power outlet.

4.3 Powering On/Off

- **To Power On:** Press and hold the Power button until the Blackview logo appears.
- **To Power Off:** Press and hold the Power button, then select 'Power off' from the options on the screen.

5. OPERATING INSTRUCTIONS

5.1 Basic Functions

- **Calls:** Tap the Phone icon, enter the number, and tap the call button.
- **Messages:** Tap the Messages icon to compose and send text messages.
- **Internet:** Connect to Wi-Fi or use mobile data. Open a browser app to access the internet.
- **Facial Unlock:** Configure facial recognition in Security settings for convenient unlocking.

5.2 Display Settings

The 6.56-inch HD+ IPS display offers clear visuals. Adjust brightness, font size, and display mode in the Settings menu under 'Display'.

- **Eye Comfort Mode:** Reduces blue light to prevent eye strain, especially in low light. Activate this feature in Display settings.
- **Night Light:** Similar to Eye Comfort Mode, it adjusts screen colors to warmer tones for comfortable viewing at night.

6.56-inch HD+ Bigger Screen
Crystal-Clear Views on a Larger Screen

Experience captivating visuals on the 6.56-inch display of WAVE 8. With an 81% screen-to-body ratio and 450 nits brightness, the HD+ IPS display makes streaming videos and browsing more immersive, with vibrant colors and sharp details.

6. MAINTENANCE

6.1 Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of the phone. Avoid using harsh chemicals or abrasive materials that could damage the device.

6.2 Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. Navigate to Settings > System > System update.

6.3 Battery Care

- Avoid exposing the battery to extreme temperatures.
- Do not fully discharge the battery frequently.
- Use only the original or certified charger and cable.

7. TROUBLESHOOTING

If you encounter issues with your Blackview Wave 8, refer to the following common solutions:

Problem	Possible Solution
Device does not turn on	Ensure the battery is charged. Press and hold the Power button for at least 10-15 seconds to force a restart.
Apps are slow or crashing	Close unnecessary background apps. Clear app cache (Settings > Apps > [App Name] > Storage > Clear cache). Restart the device.

Problem	Possible Solution
Poor battery life	Reduce screen brightness. Disable Wi-Fi, Bluetooth, and GPS when not in use. Check for power-intensive apps.
Cannot connect to network	Check if SIM card is properly inserted. Ensure mobile data is enabled. Try restarting the device or resetting network settings.
