

6L 1800W Digital Air Fryer

Generic 6L 1800W Digital Air Fryer Instruction Manual

Model: 6L 1800W Digital Air Fryer | Brand: Generic

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using your new air fryer. Keep this manual for future reference.

- Do not immerse the appliance, cord, or plug in water or other liquids.
- Ensure the voltage indicated on the appliance corresponds to your local mains voltage before connecting.
- Always unplug the appliance when not in use and before cleaning. Allow it to cool down completely before handling.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Keep the appliance and its cord out of reach of children.
- Do not place the appliance against a wall or against other appliances. Leave at least 10 cm free space on the back and sides and 10 cm free space above the appliance.
- Do not cover the air inlet and air outlet openings while the appliance is operating.
- Do not fill the basket with oil, as this may cause a fire hazard.
- The appliance operates at high temperatures. Be careful when removing the basket or handling hot surfaces.

PRODUCT OVERVIEW

The Generic 6L 1800W Digital Air Fryer is designed for healthy cooking with minimal oil. It features a digital display for precise temperature and time control, and a non-stick basket for easy cleaning.

Components:

- Main Unit with Digital Display
- Removable Non-Stick Frying Basket
- Air Inlet and Outlet Vents
- Power Cord

INITIAL SETUP

Follow these steps before using your air fryer for the first time:

1. **Unpack:** Remove all packaging materials and stickers from the appliance.
2. **Clean:** Wipe the exterior of the appliance with a damp cloth. Wash the frying basket and pan thoroughly with hot water, dish soap, and a non-abrasive sponge. Rinse and dry completely.
3. **Placement:** Place the air fryer on a stable, horizontal, and heat-resistant surface. Ensure there is adequate air circulation around the unit.
4. **First Use (Burn-in):** It is recommended to run the air fryer empty for about 10-15 minutes at 180°C (350°F) to eliminate any manufacturing odors. A slight smell or smoke may occur, which is normal. Ensure good ventilation during this process.

OPERATING YOUR AIR FRYER

Control Panel:

The digital display allows you to set and monitor cooking time and temperature. It typically includes buttons for power, temperature adjustment, time adjustment, and pre-set cooking programs.

- **Power Button:** Turns the appliance on/off.
- **Temperature Control:** Adjusts cooking temperature (e.g., 80°C - 200°C).
- **Time Control:** Adjusts cooking time (e.g., 1 - 60 minutes).
- **Pre-set Programs:** Some models include pre-programmed settings for common foods.

Cooking Process:

1. **Prepare Food:** Place your ingredients in the air fryer basket. Do not overfill the basket to ensure even cooking.
2. **Insert Basket:** Slide the basket back into the air fryer until it clicks into place.
3. **Set Temperature and Time:** Use the digital controls to set the desired cooking temperature and time. Refer to a recipe or the general cooking guide below.
4. **Start Cooking:** Press the power/start button to begin the cooking cycle.
5. **Shake/Flip (Optional):** For some foods, shaking or flipping ingredients halfway through cooking can ensure even browning. Carefully remove the basket, shake, and reinsert.
6. **Check Doneness:** Once the timer sounds, carefully pull out the basket and check if the food is cooked to your preference.
7. **Serve:** Remove the food from the basket using tongs. Be cautious of hot oil or juices.

General Cooking Guide:

Food Item	Temperature	Time	Notes
Frozen Fries (thin)	200°C (390°F)	15-20 min	Shake halfway
Chicken Wings	180°C (350°F)	20-25 min	Flip halfway
Vegetables (mixed)	180°C (350°F)	10-15 min	Toss with a little oil
Fish Fillet	160°C (320°F)	10-12 min	

Note: Cooking times and temperatures are approximate and may vary based on food quantity, size, and desired crispness.

Always ensure food is cooked thoroughly.

CARE AND MAINTENANCE

Proper cleaning and maintenance will extend the life of your air fryer.

- Unplug and Cool:** Always unplug the air fryer and allow it to cool completely before cleaning.
- Clean Basket and Pan:** Wash the non-stick frying basket and pan with hot water, dish soap, and a non-abrasive sponge. For stubborn food residue, soak them in hot water for about 10 minutes. They may be dishwasher safe (check product specifications if available).
- Clean Interior:** Wipe the interior of the appliance with a damp cloth. Do not use abrasive cleaners or steel wool.
- Clean Exterior:** Wipe the exterior with a damp cloth.
- Storage:** Ensure all parts are clean and dry before storing the air fryer in a cool, dry place.

TROUBLESHOOTING GUIDE

If you encounter issues with your air fryer, consult this guide before contacting support.

Problem	Possible Cause	Solution
Air fryer does not turn on	Not plugged in; Power outlet malfunction; Appliance fault	Ensure plug is securely in outlet; Test outlet with another appliance; Contact customer support if issue persists.
Food is not cooked evenly	Basket overcrowded; Food not shaken/flipped	Cook in smaller batches; Shake or flip food halfway through cooking.
White smoke coming from appliance	Grease residue from previous use; Fatty ingredients	Clean the basket and pan thoroughly; Remove excess oil from food before air frying.
Food is not crispy	Too much moisture; Not enough oil (for some foods)	Pat food dry before cooking; Lightly brush or spray with oil for crispier results.
