HOMCOM CA831-5510231

HOMCOM CA831-5510231 6-Drawer Chest Instruction Manual

Modern Dresser for Bedroom and Living Room

1. Introduction

This manual provides essential instructions for the safe assembly, operation, and maintenance of your HOMCOM CA831-5510231 6-Drawer Chest. Please read this manual thoroughly before assembly and retain it for future reference. This chest of drawers is designed for organizing clothing, accessories, and other essentials in bedrooms, dressing rooms, or living rooms.

2. Safety Information

- **Anti-Tipping Device:** This product includes an anti-tipping device. It is crucial to install this device securely to a wall to prevent serious injury from tipping furniture. Always follow the installation instructions for the anti-tipping device.
- **Weight Capacity:** Do not exceed the specified weight capacities: 99 lbs (45 kg) total, 33 lbs (15 kg) for the top surface, and 11 lbs (5 kg) per drawer. Overloading can cause instability and damage.
- **Assembly:** Assembly should be performed by at least two adults. Ensure all parts and hardware are present and undamaged before beginning. Do not use power tools for assembly unless specifically instructed, as this may overtighten screws and damage the material.
- **Placement:** Place the chest on a flat, stable, and level surface. Avoid placing it near heat sources or in direct sunlight to prevent material degradation.
- **Children's Safety:** Keep small parts and packaging materials away from children during assembly. Do not allow children to climb on or play with the chest of drawers.

3. Package Contents

Before beginning assembly, verify that all components and hardware listed in the included parts list are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

4. Assembly Instructions

Assembly is required for this product. Please refer to the detailed step-by-step instructions provided in the

separate assembly guide included in your package. Ensure you have adequate space and the necessary tools (typically a screwdriver) before starting.

1. Unpack all components and hardware. Lay them out on a clean, soft surface to prevent scratches.
2. Identify each part using the provided parts list.
3. Follow the numerical sequence of steps in the assembly guide. Pay close attention to diagrams.
4. Securely attach the anti-tipping device to the back of the chest and to a wall stud using appropriate hardware. This step is critical for safety.
5. Once assembled, gently test the stability of the chest before loading it with items.

5. Operating Instructions

The HOMCOM 6-Drawer Chest is designed for convenient storage. Each drawer features smooth-operating gliders for easy access.

- **Opening and Closing Drawers:** Use the zinc alloy pulls to gently open and close the drawers. Avoid forcing drawers, as this can damage the gliders.
- **Loading Drawers:** Distribute weight evenly within each drawer. Do not exceed the 11 lbs (5 kg) weight capacity per drawer. Place heavier items in lower drawers to enhance stability.
- **Top Surface:** The top surface has a weight capacity of 33 lbs (15 kg). Avoid placing excessively heavy or unstable items on top.

6. Maintenance

Proper care will extend the life and appearance of your HOMCOM 6-Drawer Chest.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, which can damage the melamine-faced finish.
- **Spills:** Clean up spills immediately to prevent staining or moisture damage to the engineered wood.
- **Feet:** The 3.1" (8 cm) tall PP plastic feet elevate the unit, simplifying cleaning underneath. Regularly dust or vacuum the area beneath the chest.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary, but do not overtighten.

7. Troubleshooting

- **Drawer not sliding smoothly:** Check if the drawer gliders are properly aligned and free of obstructions. Ensure all screws securing the gliders are tight.
- **Chest feels unstable:** Verify that the chest is on a level surface. Ensure the anti-tipping device is correctly installed and securely fastened to both the chest and the wall. Check all assembly hardware for tightness.
- **Parts missing or damaged:** Do not proceed with assembly. Contact customer support for replacement parts.
