DBDD dogtracker-V4-B

DBDD Dog GPS Tracker User Manual

Model: dogtracker-V4-B

1. PRODUCT OVERVIEW

The DBDD Dog GPS Tracker is a smart, waterproof device designed to help you monitor your dog's location and activity in real-time. It offers features such as live tracking, virtual fence alerts, and an activity monitor, ensuring the safety and well-being of your pet. This tracker is suitable for dogs weighing 40 lbs or more.

2. GETTING STARTED

2.1. Package Contents

Please verify that all items are present in your package:

- GPS Tracker
- 2 Tracker Buckles
- Pet Collar
- User Manual

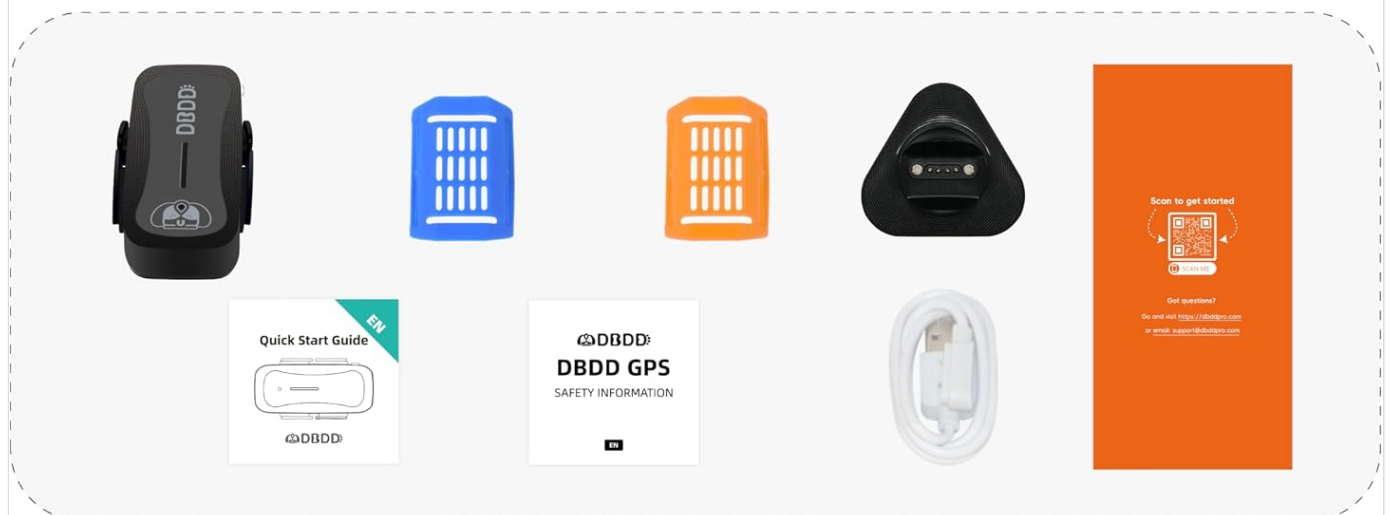

Image: An unboxed view of the DBDD Dog GPS Tracker, displaying the tracker unit, two different colored buckles, a pet collar, a charging cable, and the user manual.

2.2. Charging the Device

Before first use, fully charge your DBDD GPS Tracker. The device requires 1 Lithium Polymer battery, which is integrated. Connect the tracker to the charging base and plug the base into a power source using the provided cable.

2.3. App Installation and Account Setup

The DBDD GPS Tracker operates with a dedicated mobile application. Download the "DBDD GPS" app from your device's app store (compatible with Apple iOS and Android systems). Follow the in-app instructions to create an account and pair your tracker.

Live GPS Tracking

Get real-time location and history.

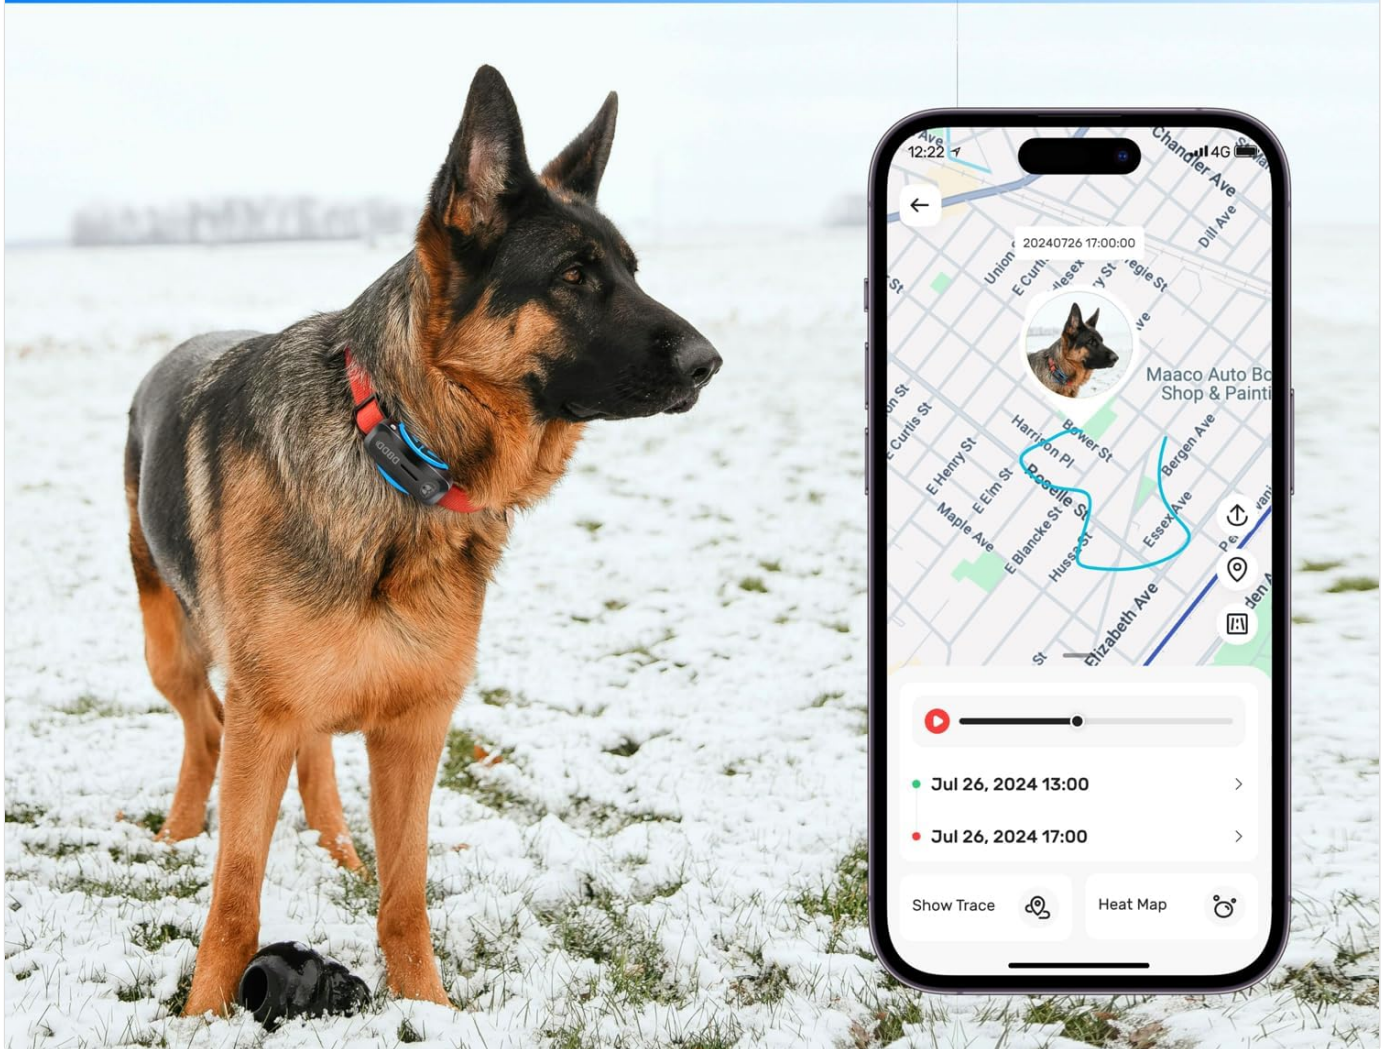

Image: Side-by-side comparison of the DBDD GPS application running on both an Apple iOS device and an Android device, demonstrating cross-platform compatibility.

2.4. Attaching to Collar

Securely attach the GPS tracker to your dog's collar using one of the provided buckles. Ensure the tracker is snug but comfortable for your pet, allowing for free movement.

All-Day Activity Monitoring

Track active time and distance, keep your dog in a healthy state.

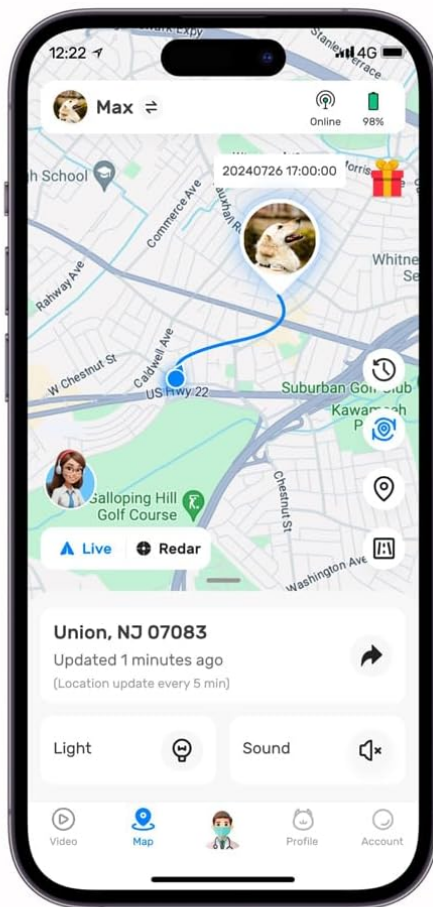

Image: A golden retriever wearing the DBDD GPS Tracker on its collar while playing in water, highlighting the device's lightweight and waterproof design.

3. OPERATING THE TRACKER

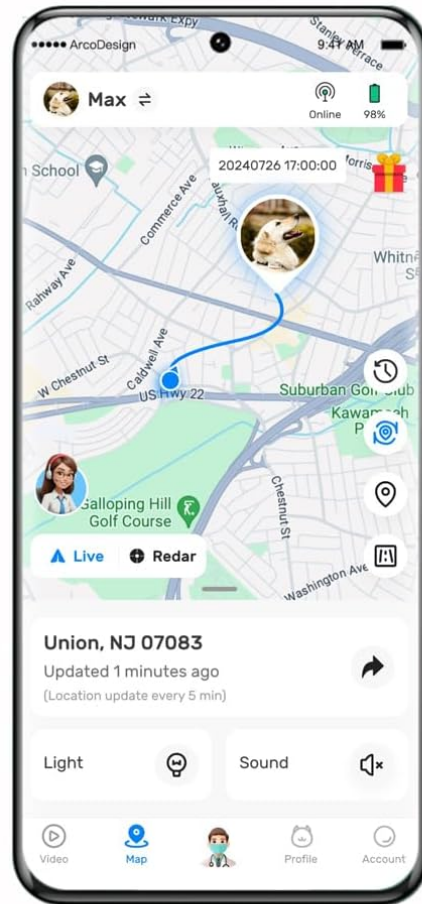

3.1. Live Tracking & Location History

The DBDD GPS Tracker provides live, real-time location updates of your pet with no distance limit. You can view your dog's current position on a map within the app. Additionally, the app stores location history, allowing you to review your dog's past movements throughout the day.

Compatible with **Apple** and **Android** Systems

 **iOS**

 **Android**

Image: A German Shepherd in a snowy landscape, with a smartphone displaying the DBDD app's live GPS tracking feature, showing the dog's current location and historical trace on a map.

3.2. Virtual Fence

Set up safe zones, such as your garden or yard, within the app. If your dog leaves this designated safe area, the tracker will send an immediate alert to your smartphone, providing peace of mind.

Virtual Fence

Set a safe zone, and you'll receive a notification on your phone if your dog leaves this area.

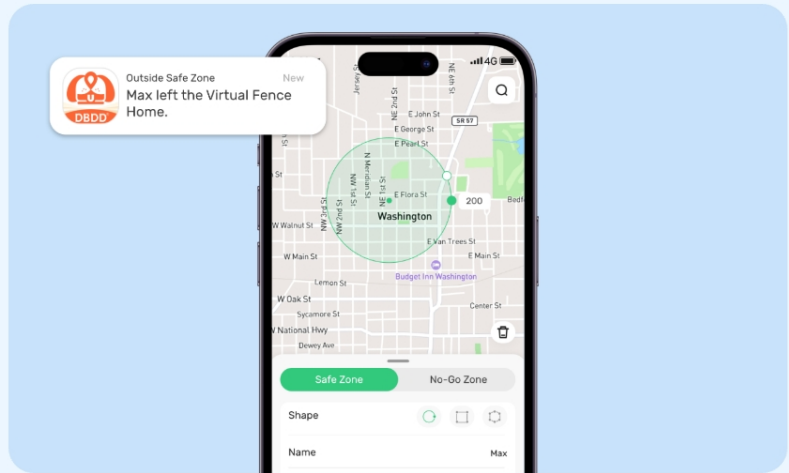

Image: A screenshot of the DBDD app showing the virtual fence feature, where a safe zone is marked on a map, and a notification indicates a pet has left the area.

3.3. Activity Monitoring

Monitor your dog's daily activity, including active time and distance covered. Set exercise goals to ensure your pet receives adequate physical activity and maintains a healthy state. The app provides a wellness score and detailed activity and sleep data.

Exclusive AI Vet

Worry-Free Dog Ownership.

Image: Two images showing a golden retriever in different states (active and sleeping), with corresponding screenshots of the DBDD app displaying "Activity State" and "Sleep State" metrics.

3.4. AI Vet Function

The DBDD GPS Tracker APP includes an exclusive AI veterinarian function. This feature can assist in solving common pet-related problems and provides an additional resource for pet care information.

Lightweight and waterproof

The GPS tracker for dog is IP67 waterproof.

3.5. Subscription Plan

A subscription plan is required for full functionality, including real-time location and range by connecting to the cellular network and GPS. Various subscription packages are available (monthly, 1-year, 5-year) with transparent pricing.

Subscription required

Why do I need a subscription?
We hear that a lot. The answer?
The subscription supports the
cost of the built-in SIM card,
enabling global GPS tracking for
your pet.

1 Year

\$7.5 /month
\$89.99 billed every year

Monthly

\$12.99 /month
\$12.99 billed monthly

5 Years

\$4.5/month
\$269.99 billed every 5 years

4. CARE AND MAINTENANCE

4.1. Waterproof Design

The GPS tracker for dogs is IP67 waterproof, meaning it is protected from dust and can withstand immersion in water up to 1 meter for up to 30 minutes. This makes it suitable for use in various weather conditions, including rain, mist, and snow, and during water play.

4.2. Cleaning

To clean the tracker, wipe it with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners, as these may damage the device.

4.3. Battery Life

The tracker is designed for long-lasting battery performance. To maximize battery life, ensure the device is fully charged before each use and avoid extreme temperatures.

5. TROUBLESHOOTING COMMON ISSUES

If you encounter any issues with your DBDD Dog GPS Tracker, please refer to the following common problems and solutions:

- **No GPS Signal:** Ensure the tracker has a clear view of the sky and is not obstructed by buildings or dense foliage. Check your subscription status.
- **App Connectivity Issues:** Verify your smartphone's internet connection. Restart the app or your phone. Ensure the tracker is powered on and within cellular network range.
- **Inaccurate Location:** This can occur in areas with poor cellular coverage or dense urban environments. Move to an open area for better accuracy.
- **Battery Draining Fast:** Check app settings for frequent location updates, which consume more power. Ensure the tracker is fully charged.

For more detailed troubleshooting or persistent issues, please contact customer support.

6. PRODUCT SPECIFICATIONS

Specification	Detail
