2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or personal injury, please follow these guidelines:

- Read all instructions carefully before beginning installation.
- Installation must be performed by a qualified electrician in accordance with all local and national electrical codes.
- Disconnect power at the main circuit breaker before installation or servicing.
- Ensure the mounting structure can support the weight of the fan (approximately 26.4 pounds or 12 kg).
- Do not operate the fan with damaged wiring or if it is not functioning properly.
- Keep hands, clothing, and other objects clear of the fan blades when the fan is in operation.
- This fan is suitable for damp locations but should not be directly exposed to water.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning installation. If any parts are missing or damaged, please contact Ohniyou customer support.

Video 4.1: 84 inch Ceiling Fan with Light Installation Guide.

This video provides step-by-step instructions for installing your Ohniyou 84-inch ceiling fan, covering blade assembly, motor connection, downrod installation, wiring, and final canopy placement.

Installation Steps Overview:

1. **Install the Fan Blade Edge Cover:** Attach the edge covers to the ends of each fan blade using the provided screws.
2. **Install the Fan Blades:** Secure each of the 8 fan blades to the motor body.
3. **Install LED Light Panel:** Connect the LED light panel to the motor and secure it.
4. **Install the Downrod:** Select the appropriate downrod length (8" or 16"), thread the canopy and splice closure, and pass the wires through. Secure the downrod to the motor port.
5. **Connect the Receiver Wires:** Connect the receiver wires to the corresponding wires from the fan motor.
6. **Fix the Mounting Bracket:** Securely attach the mounting bracket to the ceiling joist or outlet box using appropriate screws.
7. **Hang the Downrod and Connect Wires:** Hang the fan assembly onto the mounting bracket. Complete the receiver and ceiling wire connections, ensuring proper grounding.
8. **Cover with Canopy:** Slide the canopy up to cover the mounting bracket and receiver, then tighten the screws to secure it.
9. **Cover the Lampshade:** Attach the lampshade to the light fixture.

5. OPERATING INSTRUCTIONS

Your Ohniyou ceiling fan is operated via the included remote control. Ensure the remote has working batteries.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** To avoid scratching the finish, clean the fan with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Cleaning:** Dust the blades regularly to prevent dust buildup, which can cause wobbling and reduce airflow.
- **Tighten Screws:** Periodically check all screws on the fan and mounting bracket to ensure they are secure.
- **Light Source:** The LED light source is integrated and designed for long life. Do not attempt to replace individual LEDs.

7. TROUBLESHOOTING

If you experience issues with your fan, consult the common problems and solutions below. If the problem persists, contact customer support.

Common Issues:

- **Fan does not start:** Check power supply, circuit breaker, and ensure all wire connections are secure. Verify remote control batteries.
- **Light does not work:** Check light wire connections. Ensure the light function is activated on the remote.
- **Excessive wobbling:** Ensure all blade screws are tight. Check that the mounting bracket is securely fastened to the ceiling.
- **Noisy operation:** Verify all screws are tight. Ensure the fan is properly balanced.

If you are missing parts or require replacements, please contact Ohniyou customer support. We are committed to reissuing parts to ensure your product functions correctly.
