YOLOPARK YPAMKEVA01

YOLOPARK Evangelion EVA-01 Test Type Figure Instruction Manual

Model: YPAMKEVA01

1. PRODUCT OVERVIEW

The YOLOPARK AMK Series EVA-01 Test Type is a highly articulated action figure designed to faithfully recreate the humanoid decisive weapon from the Neon Genesis Evangelion series. This pre-assembled model kit stands at approximately 20cm (7.87 inches) tall and is crafted from durable materials including ABS, PA66, PVC, and POM. It features intricate designs and a realistic paint job, making it an excellent addition for collectors and fans.

2. PACKAGE CONTENTS

Before beginning assembly or posing, please ensure all components are present in the package:

- 1 × EVA-01 TEST TYPE figure (main body)
- 1 × Pallet Rifle
- 2 × Progressive Knife
- 3 × Pairs of Interchangeable Hands (various poses)
- 1 × Display Base (designed to store model accessories)

Image 2.1: All included components of the EVA-01 Test Type figure, including the main figure, weapons, interchangeable hands, and display base.

3. SETUP AND ASSEMBLY

While the figure is largely pre-assembled, some minor assembly is required for accessories and the display base. Handle all parts with care to avoid damage.

3.1 Attaching Accessories

- **Interchangeable Hands:** Gently pull off the existing hands from the wrist joints. Align the desired interchangeable hand with the wrist joint and push firmly until it clicks into place. Do not force.
- **Weapons:** The Pallet Rifle and Progressive Knives can be held by the figure's designated weapon-holding hands. Ensure a secure fit.

3.2 Assembling the Display Base

The display base is designed for stability and accessory storage. Connect the base components as indicated in the packaging. Some small tab pieces on the stand may need to be carefully snipped for proper assembly, as noted by user feedback. Ensure all parts are securely connected before placing the figure on it.

4. OPERATING AND POSING

The EVA-01 figure boasts high articulation, allowing for a wide range of dynamic poses. Exercise caution and gentle force when adjusting joints to prevent damage.

4.1 Articulation Points

- **Head:** Can turn approximately 60 degrees.
- **Shoulders:** Rotate 360 degrees.
- **Arms:** Bend up to 150 degrees at the elbow.
- **Legs:** Can perform front kicking up to 90 degrees and curl up to 180 degrees at the knee.
- **Ankles and Feet:** Turn around 45 degrees, allowing for stable ground contact in various stances.

4.2 Posing Examples

Experiment with different poses to recreate iconic scenes or create new dynamic displays. The figure's robust articulation supports a variety of action-oriented stances.

5. MAINTENANCE AND CARE

To ensure the longevity and appearance of your YOLOPARK Evangelion figure, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For stubborn dirt, a slightly damp cloth with mild soap can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the figure away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or material degradation. Keep it in a stable environment to avoid accidental falls.
- **Handling:** Always handle the figure by its main body parts. Avoid gripping small, delicate components or forcing joints beyond their intended range of motion.

6. TROUBLESHOOTING

If you encounter any issues with your figure, consider the following common solutions:

- **Stiff Joints:** If a joint feels too stiff, gently work it back and forth a few times. Applying a very small amount of silicone shock oil (specifically designed for plastic models) to the joint can help, but use sparingly and wipe away any excess.
- **Loose Joints:** For excessively loose joints, a thin layer of clear nail polish or a specialized joint-tightening fluid can be applied to the ball joint or peg, allowed to dry, and then reassembled. This adds friction.
- **Detaching Parts (e.g., armor panels):** Ensure parts are correctly aligned and fully pushed into their respective slots. If a part repeatedly detaches, a tiny dot of non-permanent adhesive (like a removable putty or a very small amount of clear-drying craft glue) can be used, but be cautious to avoid restricting articulation.
- **Accessory Fit:** If hands or weapons do not fit securely, ensure you are using the correct interchangeable hand for the accessory. Do not force connections.

7. SPECIFICATIONS

Feature	Detail
Brand Name	YOLOPARK
Model Name	YPAMKEVA01
Toy Figure Type	Action Figure
Character	EVA-01
Item Dimensions (L x W x H)	1.97"L x 1.77"W x 7.87"H (5cm x 4.5cm x 20cm)
Item Weight	0.48 Kilograms
Material Type	ABS, PA66, PVC, POM
Assembly Required	Yes (minor)
Recommended Age	Over 15 years old
Batteries Required	No

8. WARRANTY INFORMATION

Specific warranty details are not provided with this product. Please refer to the retailer's return policy or contact YOLOPARK directly for information regarding product warranties or guarantees.

9. CUSTOMER SUPPORT

For further assistance, questions, or to report any issues not covered in this manual, please contact YOLOPARK customer support through their official website or the retailer from whom the product was purchased.
