## 2. SETUP AND INSTALLATION

### 2.1 Package Contents

Before installation, verify that all components are present in the package:

- 15.6 inch Touch Screen Monitor (x2 for 2PCs model)
- Mount Bracket (x2 for 2PCs model)
- DC 12V Adapter (for home use, x2 for 2PCs model)
- HDMI Cable (x1)
- Car Charger Power Cable (x1)
- USB Flash Drive (32GB, x2 for 2PCs model)
- User Manual (x1)

**Headrest Monitor x 2**

**Mount Bracket x 2**

**DC 12V Adapter x 2  
(For home use)**

**HDMI cable x 1**

**Car Charger Power cable x 1  
(1 to 2 Port, Length: 11.5ft)**

**USB flash drive x 2  
(32GB)**

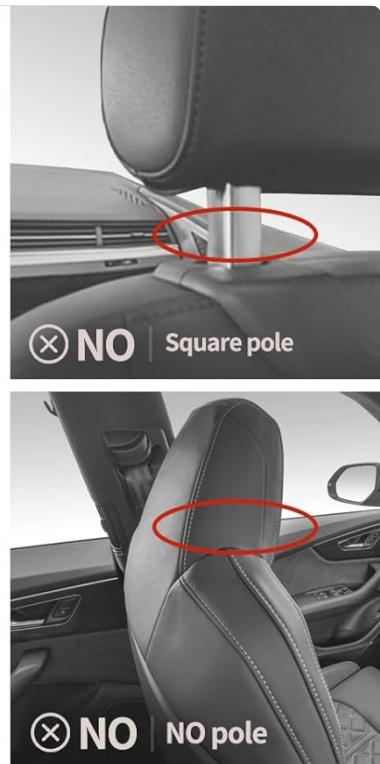

**User Manual x 1**

Image 2.1: Visual representation of the items included in the product package, such as the monitors, mounting brackets, power adapters, and cables.

## 2.2 Mounting the Monitor

The monitor uses a universal metal mounting bracket compatible with over 98% of car models that have round headrest poles. Ensure your vehicle's headrest poles are round for proper installation.

1. Attach the mounting bracket to the headrest poles.
2. Secure the monitor to the bracket.
3. Adjust the viewing angle as needed.

 **Made of Metal, Safe and Solid.**

## Universal Headrest Mount

Compatible with more than:

**98%**  
Car models

Image 2.2: The universal headrest mount is designed for round headrest poles, ensuring a secure and stable installation in most vehicles.

### 2.3 Power Connection

The monitor can be powered in two ways:

- **In-Car Use:** Connect the car charger power cable to your vehicle's 12V power outlet.
- **Home Use:** Use the provided DC 12V adapter to power the monitor from a standard wall outlet.

Image 2.3: The side panel of the monitor features multiple expansion ports, including HDMI input/output, Micro SD card slot, USB 2.0 port, headphone port, and DC 12V power input.

### 3. OPERATING INSTRUCTIONS

#### 3.1 Basic Operation

- **Power On/Off:** Press and hold the power button located on the monitor.
- **Touch Screen:** Navigate the Android 11.0 interface using the responsive touch screen.
- **App Installation:** Download and install applications from APKPure or other compatible sources.

#### 3.2 Wireless Phone Link

The monitor supports screen mirroring from mobile phones:

- **iOS AirPlay:** For Apple devices.

- **Android Miracast:** For Android devices.
- **MyCar Link App:** Use this application for synchronized screen display and mutual control between your mobile phone and the car TV. This feature allows you to control content playback from the driver's seat.

Image 3.1: Key features of the monitor include a 15.6-inch 4K HD IPS touch screen, Android 11.0 operating system, 2GB RAM + 32GB storage, 5G/2.4GHz WiFi hotspot, HDMI input/output, USB 2.0, and wireless phone mirroring via MyCar Link, AirPlay, and Miracast.

### 3.3 Audio Playback Methods

Enjoy audio through various options:

- **Built-in Speakers:** The monitor includes high-quality integrated speakers.
- **Wireless Bluetooth Headset:** Connect Bluetooth headphones for private listening.
- **Wired Headset:** Use the 3.5mm headphone jack for wired headphones.
- **Car Speakers (FM Transmitter):** Tune your car radio and the monitor's FM transmitter to the same channel to output audio through your vehicle's sound system.

### 3.4 External Device Connectivity

The monitor offers multiple expansion ports for connecting external devices:

- **HDMI Input:** Connect devices such as PS4/PS5, Xbox, Fire TV Stick, TV box, or computers to use the monitor as a display.
- **HDMI Output:** Connect two monitors via an HDMI cable for lossless image transfer, allowing both screens to display the same content.
- **USB and Micro SD Card Ports:** Supports USB drives up to 1TB for media playback.

## 4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your headrest monitor.

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for and install system updates to ensure optimal performance and access to the latest features.
- **Temperature:** Avoid exposing the monitor to extreme temperatures, both hot and cold, as this can affect its components.
- **Storage:** If storing the monitor for an extended period, disconnect it from power and store it in a cool, dry place.

## 5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Seventour headrest monitor.

### 5.1 No Power

- Ensure the power cable is securely connected to both the monitor and the power source (car 12V outlet or home adapter).
- Verify that the power source is active. For car use, check the vehicle's ignition or fuse.
- Try a different power outlet or adapter if available.

### 5.2 No Sound

- Check the volume settings on the monitor.
- If using Bluetooth headphones, ensure they are properly paired and connected.
- If using the FM transmitter, verify that the car radio and monitor are tuned to the exact same, clear FM frequency. Static can occur if the frequency is not clear or if there is interference.
- If using wired headphones, ensure they are fully plugged into the headphone jack.

### 5.3 Screen Mirroring Issues

- Ensure both the monitor and your mobile device are connected to the same WiFi network.
- Verify that the screen mirroring function (AirPlay, Miracast, or MyCar Link) is activated on both devices.
- Restart both the monitor and your mobile device.
- For iOS devices, ensure you are using AirPlay. For Android, use Miracast or the MyCar Link app.

### 5.4 App Installation Problems

- Ensure the monitor has a stable internet connection (WiFi).
- Check available storage space on the device.
- Some apps may have compatibility requirements with the Android 11.0 system or specific hardware.

- If downloading from APKPure, ensure the APK file is compatible with Android 11.0 and the device architecture.

## 6. SPECIFICATIONS

Feature	Detail
Screen Size	15.6 Inches
Display Type	LED IPS Touch Screen
Screen Resolution	1920*1080 (4K compatible video playback)
Operating System	Android 11.0
Memory (RAM)	2GB
