WLIVE ASNG111WH

WLIVE 6 Drawer Dresser Instruction Manual

Model: ASNG111WH

1. INTRODUCTION

Thank you for choosing the WLIVE 6 Drawer Dresser. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This modern 6-drawer dresser is designed to meet various storage needs, offering a classic and atmospheric addition to your home. It features exquisite metal handles, ample storage space, and a sturdy construction suitable for organizing clothing, toys, blankets, and other household items. It can also function as a TV stand for televisions up to 55 inches.

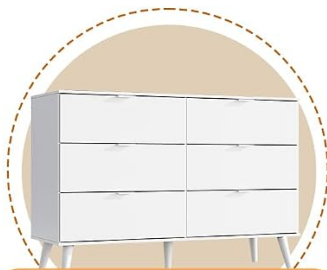

2. GENERAL SAFETY INFORMATION

To ensure the safety of your family and prevent potential injuries, it is crucial to follow all safety guidelines. Furniture tip-over can cause serious or fatal crushing injuries. Always secure the dresser to the wall using the provided anti-tipping device.

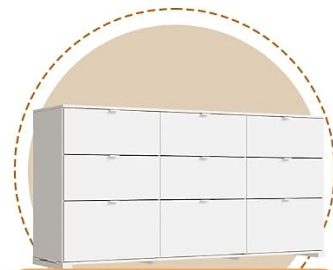

- Always use the anti-tipping device provided.
- Do not allow children to climb or hang on drawers or the dresser.
- Place heaviest items in the lowest drawers.
- Do not open more than one drawer at a time.
- Ensure the dresser is placed on a level and stable surface.

- Assembly Hardware (screws, dowels, cam locks, etc.)
- Instruction Manual

PRODUCT SIZE

Figure 3.1: Product Dimensions and Weight Capacities. The dresser measures 15.75"D x 47.24"W x 31.89"H. Each drawer can hold up to 30 lbs, and the top surface can hold up to 130 lbs.

4. ASSEMBLY INSTRUCTIONS

Assembly typically requires two people. Clear a spacious area for assembly and keep all parts organized. Refer to the detailed installation instructions included in your package for step-by-step guidance, as parts and accessories are coded for accurate and faster assembly.

4.1. Pre-Assembly Tips

- Identify all parts and hardware using the provided list.
- Use a soft cloth or cardboard to protect the furniture surfaces during assembly.
- Do not overtighten screws to avoid damaging the wood.

4.2. Assembly Steps (General Overview)

1. Attach the legs to the bottom panel of the dresser. The 5-leg design provides strong structural support.
2. Assemble the main frame of the dresser by connecting the side panels, top panel, and back panel.

3. Assemble each of the six drawers. Ensure the reinforced laminates are correctly positioned to allow for greater load capacity.
4. Install the smooth metal rails onto both the dresser frame and the drawers.
5. Carefully slide the assembled drawers into the dresser frame.
6. Attach the anti-tipping device to the back of the dresser and secure it to a wall stud following the instructions in Section 2.

5. OPERATING INSTRUCTIONS

5.1. Drawer Usage

The drawers are equipped with smooth metal slides for easy pulling and allow full extension for better access to stored items. Each drawer can hold up to 30 lbs.

- To open a drawer, gently pull the sturdy metal handle.
- To close, push the drawer firmly until it is fully seated.
- Avoid overloading drawers beyond the recommended weight limit to ensure smooth operation and longevity.

6. MAINTENANCE AND CARE

Proper care will help maintain the appearance and longevity of your dresser.

- **Cleaning:** The wooden board surface is easy to clean and water-resistant. Wipe spills immediately with a dry cloth. For general cleaning, use a soft, damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust with a soft, dry cloth.
- **Protection:** Use coasters or mats under hot or wet items placed on the top surface to prevent damage.
- **Inspection:** Periodically check all hardware connections to ensure they remain tight. Retighten if necessary.

7. TROUBLESHOOTING

7.1. Drawers Not Sliding Smoothly

- **Check Alignment:** Ensure the metal slides on both the drawer and the dresser frame are properly aligned and free of obstructions.
- **Lubrication:** Apply a small amount of silicone spray or paraffin wax to the drawer slides if they feel stiff.
- **Overload:** Reduce the weight in the drawer if it is overloaded beyond the 30 lbs capacity.

7.2. Dresser Appears Unstable or Wobbly

- **Level Surface:** Ensure the dresser is placed on a completely level floor. Adjust the legs if necessary.
- **Tighten Hardware:** Check and tighten all assembly screws and connections.
- **Anti-Tip Device:** Confirm the anti-tipping device is securely installed to the wall. This is critical for stability and safety.

7.3. Issues with Handles

The dresser comes with sturdy metal handles. If you find the handles to be sharp or uncomfortable, replacement handles can be purchased and installed to suit your preference.
