4. OPERATING INSTRUCTIONS

4.1. Basic Operation

After successful connection, your custom fight stick will function as a standard controller for the detected platform. All button and joystick inputs will correspond to their respective functions in games.

4.2. RGB Lighting Customization

The Gen5X Fighting Board supports RGB-LED effects, allowing you to personalize your fight stick's appearance. You can choose from 5 preset lighting effects to match your style or gaming setup. Refer to the official Brook documentation for specific button combinations or software tools to cycle through and select RGB presets.

4.3. Advanced Features

The Gen5X board includes several advanced features to enhance your gameplay:

- **Turbo Function:** Configure buttons for rapid-fire inputs with adjustable hit rates (e.g., 05, 10, 15, 20, 25 hits/sec).
- **Joystick Control Modes:** Switch between Left Stick (LS), D-Pad (DPAD), and Right Stick (RS) input modes for the joystick, offering flexibility for different games.
- **Touchpad Emulation:** Emulate touchpad functionality for compatible games, particularly useful for PlayStation titles.
- **SOCD (Simultaneous Opposing Cardinal Directions) Modes:** The board supports various SOCD cleaning modes to comply with tournament rules and personal preference. These modes determine how simultaneous opposite direction inputs (e.g., Left + Right) are processed.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Brook Gaming Gen5X Fighting Board, follow these maintenance guidelines:

- **Keep Clean:** Regularly clean the board and connections with a soft, dry cloth. Avoid using liquid cleaners or solvents.
- **Avoid Moisture:** Protect the board from moisture and extreme temperatures. Do not expose it to water or high humidity.
- **Secure Connections:** Periodically check all wiring connections to ensure they are secure and free from corrosion.
- **Firmware Updates:** Keep the firmware updated to ensure compatibility with new consoles, games, and to benefit from performance improvements. Visit the official Brook website for the latest firmware and update instructions.

6. TROUBLESHOOTING

If you encounter issues with your Gen5X Fighting Board, try the following troubleshooting steps:

- **No Power/Recognition:**
 - Ensure the USB cable is securely connected to both the board and the console/PC.
 - Try a different USB port or cable.
 - Verify that the console/PC drivers are correctly installed (for PC).
- **Buttons/Joystick Not Responding:**
 - Check all individual button and joystick wiring connections on the board. Ensure they are firmly seated in the screw terminals.
 - Test the buttons/joystick with a different controller or on another device to rule out component failure.
- **Input Lag/Performance Issues:**
 - Ensure you are using a high-quality USB cable.
 - Check for the latest firmware updates for the Gen5X board.
 - Ensure no other background applications are consuming excessive resources on your PC.
- **Platform Detection Issues:**
 - Some platforms may require specific button combinations to enter a particular mode upon connection. Refer to the official Brook website for platform-specific connection guides.

If problems persist after attempting these steps, please contact Brook customer support for further assistance.
