FLEXISPOT MT137

FLEXISPOT Standing Desk Converter (Model MT137, SB) - 28-inch Height Adjustable Sit-Stand Riser Instruction Manual

INTRODUCTION

Thank you for choosing the FLEXISPOT Standing Desk Converter. This manual provides essential information for the safe assembly, proper operation, and effective maintenance of your 28-inch height-adjustable sit-stand riser. Please read these instructions thoroughly before use and retain them for future reference.

FLEXISPOT 28-inch Standing Desk Converter in black, featuring a two-tier design for monitor/laptop and keyboard/mouse placement.

SAFETY GUIDELINES

- Always secure the desk converter to your existing desk to prevent tipping.
- Do not exceed the weight capacity of 33 pounds (15 kg) for the desktop and 6.6 pounds (3 kg) for the keyboard tray.
- Be cautious when adjusting the height, especially when the desk is at its maximum height of 19.6 inches (49.8 cm).
- Keep hands and fingers clear of moving parts during height adjustment.
- Ensure all components are correctly assembled and tightened before use.

PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with assembly.

- Main Desk Converter Unit
- Keyboard Tray
- Instruction Manual

- Necessary Hardware (screws, tools)

ASSEMBLY INSTRUCTIONS

The FLEXISPOT Standing Desk Converter is designed for quick and straightforward assembly. Only the keyboard tray requires attachment.

1. Carefully remove all components from the packaging.
2. Position the main desk converter unit on your existing desk in the desired location.
3. Align the keyboard tray with the designated attachment points on the main unit.
4. Secure the keyboard tray using the provided screws and tools. Ensure it is firmly attached.
5. Once the keyboard tray is attached, your desk converter is ready for use.

OPERATING YOUR DESK CONVERTER

Height Adjustment

The desk converter features a quick-adjust mechanism for seamless transitions between sitting and standing positions. To adjust the height:

1. Clear any obstructions from around the desk converter.
2. Locate the adjustment lever, typically on the side of the upper desktop.
3. To raise: Squeeze the lever and gently lift the desktop to your desired standing height. Release the lever to lock it in place.
4. To lower: Squeeze the lever and apply downward pressure to the desktop. Guide it smoothly to your preferred sitting height. Release the lever to lock it.

The easy-to-use lever allows for smooth height adjustments.

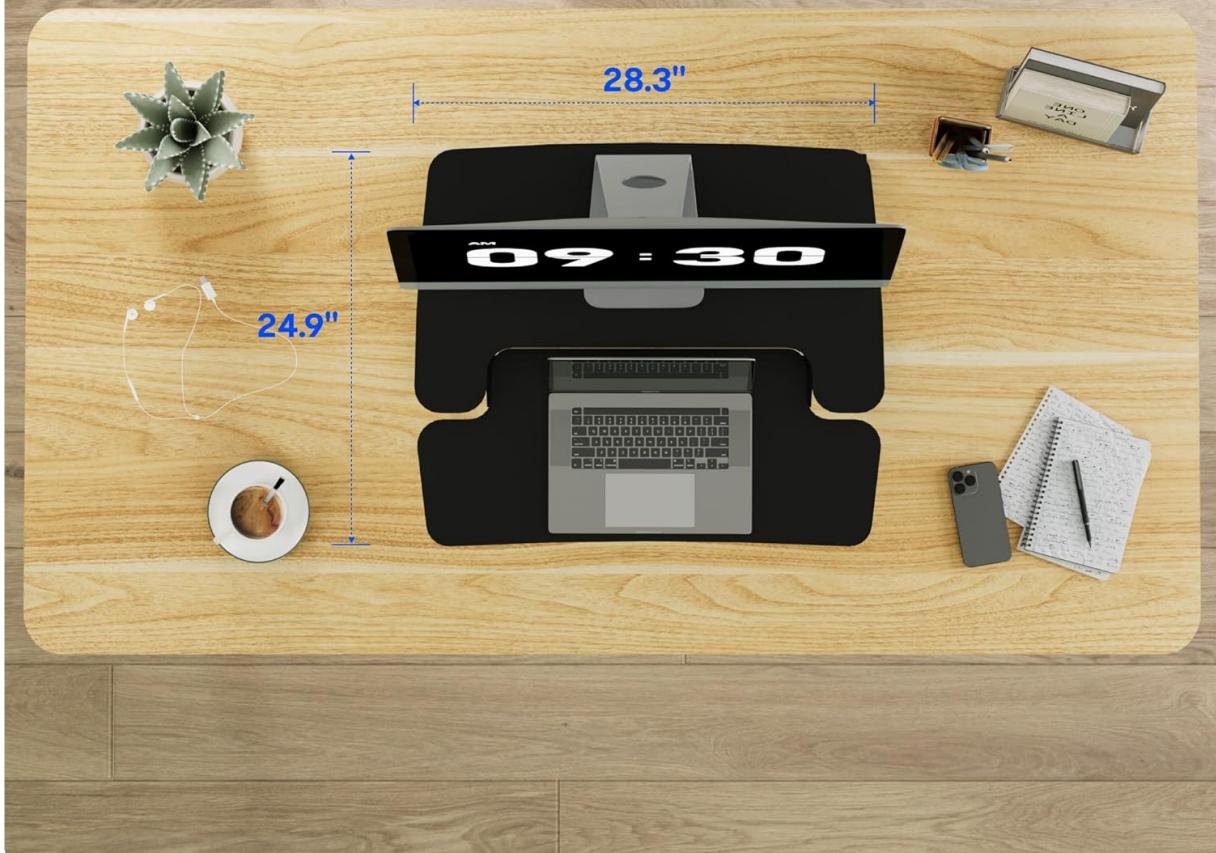

Workspace Optimization

The two-tier design provides ample space for your work essentials:

- The upper desktop comfortably accommodates your monitor(s) or laptop.
- The keyboard tray provides a dedicated area for your keyboard and mouse, promoting ergonomic wrist positioning.
- The unique U-shaped design of the upper deck allows for placing a laptop directly on the tray, optimizing space.

SPACIOUS TWO-TIER DESIGN

Offers large workspace with ergonomic upper tier and low tier

Spacious two-tier design for an organized and efficient workstation.

MAINTENANCE

- Regularly wipe down surfaces with a soft, damp cloth to keep them clean. Avoid abrasive cleaners.
- Check all screws and connections periodically to ensure they remain tight.
- Do not apply excessive force to the desktop or keyboard tray, especially during adjustment.

TROUBLESHOOTING

If you encounter any issues with your FLEXISPOT Standing Desk Converter, please refer to the following common solutions:

- **Difficulty adjusting height:** Ensure the adjustment lever is fully engaged and that the weight on the desk does not exceed the maximum capacity. Distribute weight evenly.
- **Wobbling or instability:** Verify that the desk converter is placed on a flat, stable surface and that all assembly screws are securely tightened. The robust X-frame design provides inherent stability.

STURDY X-FRAME DESIGN

The sturdy X-frame design ensures stability during use.

PRODUCT SPECIFICATIONS
