

ASWEE KM13

ASWEE Smart Watch User Manual

Model: KM13

1. INTRODUCTION

Thank you for choosing the ASWEE Smart Watch KM13. This device is designed to enhance your daily life by providing comprehensive fitness tracking, health monitoring, and smart communication features. It seamlessly integrates with your Android or iOS smartphone, allowing you to make and receive calls, get intelligent notifications, and manage your health data with ease. Please read this manual carefully to ensure proper use and optimal performance of your new smartwatch.

The ASWEE Smart Watch KM13, featuring a large display and call functionality.

2. SETUP GUIDE

2.1 Connecting Your Watch and Phone

To fully utilize your ASWEE Smart Watch KM13, you need to connect it to your smartphone via the dedicated application. The watch is compatible with both iOS and Android devices.

1. Step 1: Download the App

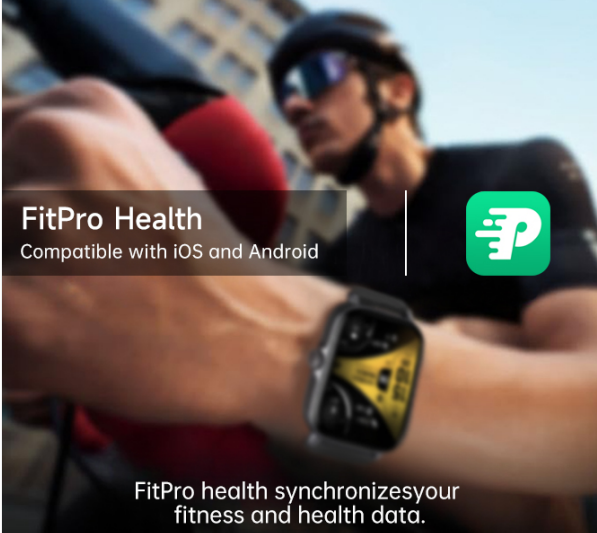

Search for "FitPro" in your phone's app store (Google Play Store for Android or Apple App Store for iOS) and download the application.

2. Step 2: Pair Your Device

Open the FitPro Health App. Navigate to the 'Devices' section and select 'Bind device to experience more features'. Your phone will scan for available devices. Select your ASWEE Smart Watch (KM13) from the list to pair.

3. Step 3: Remove Device (if needed)

If you need to unpair your watch, open the FitPro Health App, go to 'Setting', and select 'Remove' to disconnect the device.

FitPro Health
Compatible with iOS and Android

FitPro health synchronizes your fitness and health data.

KM13 WATCH SERIES

SMARTWATCHES ARE MADE FOR SPORTS

FITPRO HEALTH WATCH KM13 is aesthetically pleasing, fully functional, and performs better than other smartwatches of the same price range

3. OPERATING INSTRUCTIONS

3.1 Calls Function

The ASWEE Smart Watch KM13 is equipped with a microphone and loudspeaker, enabling you to make and receive calls directly from your wrist after connecting it to your mobile phone via the FitPro app. This feature allows for convenient communication without needing to take out your phone.

3.2 Health Monitoring

The KM13 provides comprehensive health monitoring features to help you stay informed about your physical condition.

- **Heart Rate Monitoring:** Supports real-time dynamic monitoring of your heart rate throughout the day.
- **Blood Oxygen (SpO2) Monitoring:** Automatically provides 24-hour SpO2 level detection, crucial for understanding your oxygen supply.
- **Blood Pressure Monitoring:** Helps you better understand your physical condition by tracking blood pressure.
- **Stress Level Monitoring:** The watch can help regulate your breathing and relieve tension.

Easy 24/7 Health Monitoring

Powerful and accurate heart rate monitoring

Blood-oxygen Saturation

Stress Level

*This product is not a medical device and cannot be used for medical purposes.

The ASWEE Smart Watch KM13 offers 24/7 health monitoring, including heart rate, blood oxygen, and stress levels.

Achieving Your Goals

Accurate data

Mant sports modesl

Music control

Synchronize data to APP

Monitor your heart rate, blood pressure, blood oxygen, body temperature and respiration all the time. When you reach the goal, there will be a reminder and your data will be recorded. The data can be kept for 30 days.

Synchronize your health data, including heart rate, blood pressure, and blood oxygen, to the FitPro app for up to 30 days of record keeping.

3.3 Activity Tracking

The KM13 provides 8 daily exercise modes and supports over 100 sports modes, including running, cycling, hiking, swimming, and skiing. It records real-time data such as heart rate, mileage, calories burned, and activity minutes, allowing you to adjust your exercise rhythm effectively.

Your ASWEE Smart Watch KM13 acts as an AI-powered personal coach, tracking your health and fitness progress.

Play Your Favourite

Supporting more than 100 sports modes like running, cycling, hiking, swimming and skiing.

Engage in your favorite activities with over 100 supported sports modes.

3.4 Intelligent Notifications & Controls

The KM13 offers numerous practical functions to keep you connected and in control:

- **Message Notifications:** Receive SMS and app messages (e.g., Twitter, Facebook, Messenger, Viber) directly on your watch.
- **Multimedia Control:** Control music playback on your phone from your watch.
- **Brightness Adjustment:** Adjust the screen brightness for optimal viewing.
- **Weather Display:** Get real-time weather updates.
- **Camera Control:** Remotely control your phone's camera.
- **Reminders:** Includes long-sitting reminders, alarms, and stopwatch functions.
- **Find Phone:** Locate your misplaced phone using your watch.

Bluetooth Phone Calls & Message Reminder

Mant sports modesl

Music control

Feel energized in your fitness

Support Bluetooth control music playback, get rid of the shackles of mobile phones, and make it easier to get happiness in fitness.

Control your music playback directly from your watch, enhancing your fitness experience.

3.5 Sleep Monitoring

The ASWEE Smart Watch KM13 accurately monitors your sleep patterns, providing insights into your sleep quality, including deep sleep and light sleep stages. This helps you form a regular sleep routine and improve your overall rest.

Sleep Tight Every Night

More accurate sleep monitoring

- Sleep Quality & Daytime Naps
- Deep Sleep Stages
- Light Sleep Stages

The watch screen shows:

- Top: Sleep 10:09
- Large display: 08 H 20 M
- Text: Current sleep time
- Bar chart showing sleep quality across the week (M, T, W, T, F, S, S) with values ranging from 05 to 15.

Monitor your sleep quality and patterns for better rest every night.

3.6 SOS Emergency Contact

The KM13 allows you to set up emergency contacts. In case of need, you can directly contact and seek help through your watch, providing an added layer of safety.

4. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your ASWEE Smart Watch KM13, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the watch screen and strap with a soft, dry cloth. If necessary, use a slightly damp cloth and then dry thoroughly. Avoid harsh chemicals or abrasive materials.

- **Charging:** Use the provided charging cable. Ensure the charging contacts on the watch and cable are clean and dry before charging.
- **Battery Life:** The KM13 offers up to 7 days of battery life depending on usage. To maximize battery life, reduce screen brightness, limit continuous heart rate monitoring, and turn off unnecessary notifications.
- **Water Resistance:** While the watch is designed for daily use and can withstand splashes, avoid prolonged immersion in water or wearing it during hot showers or saunas.
- **Storage:** Store the watch in a cool, dry place when not in use.

Enjoy extended usage with up to 7 days of battery life on your ASWEE Smart Watch KM13.

5. TROUBLESHOOTING

If you encounter issues with your ASWEE Smart Watch KM13, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charging cable and a power source for at least 30 minutes.
- **Unable to pair with phone:**

- a. Ensure Bluetooth is enabled on your phone.
- b. Make sure the watch is within Bluetooth range (typically 10 meters).
- c. Restart both your phone and the watch.
- d. Check if the FitPro app is updated to the latest version.
- e. If previously paired, try unpairing the device from your phone's Bluetooth settings and then re-pairing through the FitPro app.

• **Inaccurate health data:**

- a. Ensure the watch is worn snugly on your wrist, not too tight or too loose.
- b. Clean the sensor on the back of the watch.
- c. Note that environmental factors and individual physiology can affect readings. This device is not a medical device and should not be used for medical purposes.

• **Notifications not appearing:**

- a. Ensure the watch is connected to your phone via Bluetooth and the FitPro app.
- b. Check notification permissions for the FitPro app in your phone's settings.
- c. Verify that app notifications are enabled within the FitPro app settings.

• **Short battery life:**

- a. Reduce screen brightness.
- b. Disable continuous heart rate monitoring if not needed.
- c. Limit the number of apps sending notifications to the watch.
- d. Ensure the watch is fully charged each time.

If these steps do not resolve your issue, please contact ASWEE customer support for further assistance.

Q&A

- 1. The watch isn't starting. What to do?**
- First, Press the Power button for more than 6 seconds. Or, the battery may be low. Charge the time.
- 2. Bluetooth is not connected or cannot be connected. How to deal with that?**
- Answer: You can try the following ways:
1) Please try to restart the watch and re-link.
2) Please try to restart Bluetooth and connect again.
3) Don't connect your phone to other Bluetooth devices at the same time.
- 3. Watch is measuring the heart rate, blood pressure, and blood oxygen data abnormally. Possible reasons?**
- Answer: There could be several reasons for that. Here are a few of them:
1) Generally for measurement, the watch sensor and the human body might be in poor contact. Please check and switch on that.
2) Please pay attention to the contact between the sensor and the wrist during measurement.
3) For people with darker skin color and hairy arms, please enable enhanced measurement in App [Device > Enhanced measurement].
- 4. Abnormal sleep data is showing. Possible reasons?**
1) Sleep monitoring (monitoring period) will generate state of falling asleep and waking up, which needs to be worn correctly.
2) If you wear it for too long or when you fall asleep, errors will occur.

may occur.
If Sleep data is not monitored during the day, and the default sleep monitoring is from 5:30 PM to 1:00 noon the next day.
For more frequently asked questions, please check the App [My-HAQ]

Bluetooth data transmission

When connected to a mobile phone, the watch synchronizes some data, including weather, notifications, sports, and health data, with the phone via Bluetooth. When the connection is disconnected or Bluetooth is turned off, the data will not be synchronized.

Note:

- 1) Do not charge in a humid environment.
- 2) Please use a clean facecloth to clean the magnetic suction charging hole on the back of the watch. This will ensure that the magnetic suction charging port and magnetic charger fit well, ensuring normal charging.
- 3) This product is not equipped with a power adapter to ensure the safety of the family and property. While charging, you can use the computer USB interface or choose a power adapter whose output is not more than 5V/3A. Please buy the power adapter through the regular channel, and avoid using the bottom quality and fake power adapter to avoid burning or firing.

Matters Needing Attention

- 1. The measurement results of this product are only for industrial examination and are not used for any medical use or basis. Please follow the doctor's guidance and do not use the measurement results for self-diagnosis and treatment.
- 2. This product's waterproof grade is IP68, so, it cannot be used for deep diving and a long time in the water. In addition, this product does not put hot water, because the steam will affect the watch.
- 3. The Company reserves the right to modify the contents of this manual without prior notice. Some functions are different in the corresponding software version. This is normal.
