PRODUCT FEATURES

Superior Sound Quality

The portable karaoke machine and its two wireless microphones are equipped with a high-performance audio driver and an advanced digital signal processor (DSP). This technology ensures clearer sound, delivering a louder, clearer, and lower-latency singing experience.

LOUDER AND CLEARER SOUND

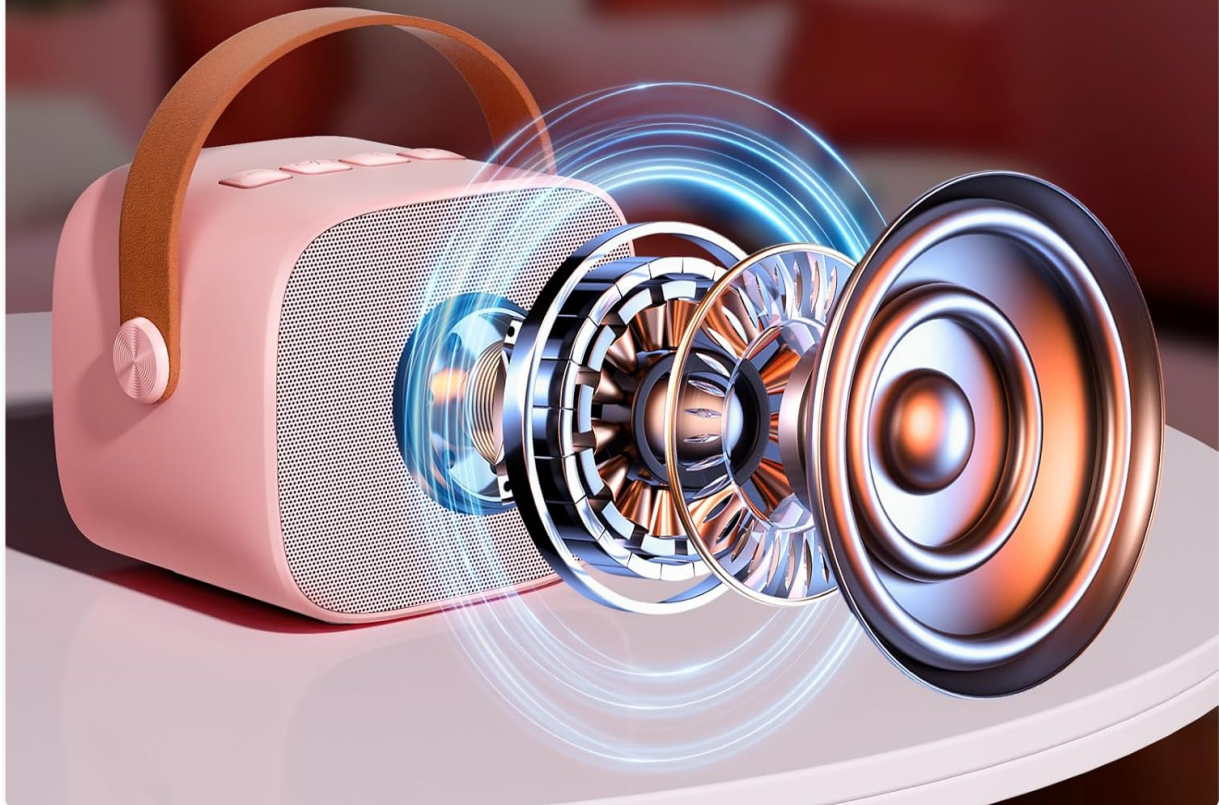

Image: An exploded view diagram of the speaker, highlighting its internal components such as the DSP chip, HiFi sound technology, 3D surround sound, and metallic subwoofer for enhanced audio output.

Wide Compatibility

This device functions as a karaoke machine, Bluetooth speaker, and music player. It features Bluetooth 5.3 technology for instant device pairing, ensuring compatibility with smartphones, iPads, and PCs. It also supports TF cards and includes a headphone output port.

SETUP GUIDE

1. Powering On

1. **Speaker:** Long press the power button on the top of the speaker for 2 seconds until the LED lights illuminate and you hear an audible prompt.
2. **Microphones:** Long press the power button on each microphone for 2 seconds until the blue indicator light turns on.

2. Microphone Pairing

The wireless microphones will automatically pair with the speaker upon powering up. No manual pairing is required for the microphones.

3. Bluetooth Connection

1. Ensure the speaker is powered on.
2. On your smartphone, tablet, or PC, navigate to the Bluetooth settings.
3. Search for available devices and select "Haomuren K1" (or similar name) to connect.

4. A confirmation sound will indicate successful pairing.

OPERATING INSTRUCTIONS

1. Playing Music

- **Via Bluetooth:** Once connected via Bluetooth, play music from your device. The audio will stream through the karaoke machine speaker.
- **Via TF Card:** Insert a TF (Micro SD) card with music files into the designated slot on the back of the speaker. The speaker will automatically detect and play music from the card.
- **Via Headphone Output:** Connect headphones to the 3.5mm headphone jack on the back of the speaker for private listening.

2. Volume Control

- **Speaker Volume:** Use the '+' and '-' buttons on the top of the speaker to adjust the overall music volume.
- **Microphone Volume:** Use the '+' and '-' buttons on each microphone to adjust its individual volume and echo effect.

3. Voice Changing Effects

Each microphone features a dedicated button to cycle through 5 different voice effects. Short press the button to switch between Female Voice, Male Voice, Baby Voice, Monster Voice, and Original Accompaniment.

4. LED Light Modes

The speaker has a button to change the LED lighting modes. Short press this button to cycle through the 6 available lighting patterns.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the speaker and microphones. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, charge the device regularly, even if not in use for extended periods. Avoid fully discharging the battery frequently.

TROUBLESHOOTING

Issue	Possible Solution
Device does not power on.	Ensure the device is fully charged. Connect to a power source using the provided Type-C cable.
Microphones do not connect.	Ensure both the speaker and microphones are powered on. They should pair automatically. If not, power cycle both devices.
No sound from speaker.	Check volume levels on both the speaker and the connected Bluetooth device. Ensure Bluetooth is properly connected.

Issue	Possible Solution
Voice changing effects not working.	Ensure the microphone is powered on and connected. Short press the voice change button on the microphone to cycle through effects.
Poor sound quality.	Ensure the microphone is held at an appropriate distance. Check for interference from other electronic devices.
