- 1\* 9.26-inch Carplay Display
- 1\* Extension Cable + 4\* Cable Ties
- 1\* 3M Mount + 1\* 3M Mount Adhesive Tape
- 1\* Car Charger + 1\* AUX Cable + 1\* Plastic Pry Tool + 1\* Screwdriver
- 1\* Extension Adhesive Tape + 2\* Extension Mount Screws

## Contenuto della confezione

Image: All components included in the Avylet 9.26" Wireless Carplay & Android Auto Display package.

## SETUP AND INSTALLATION

The Avylet 9.26" display is designed for easy installation without modifying your vehicle's original radio system. It can be mounted on the dashboard or windshield.

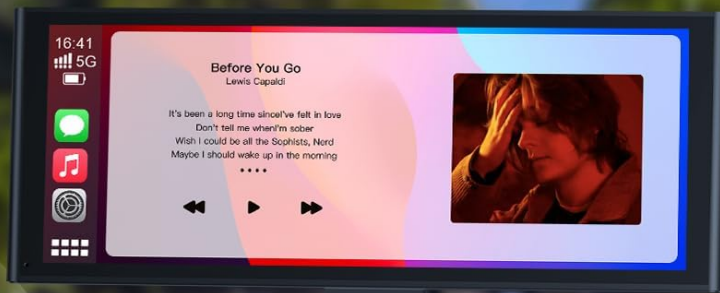

### Mounting Options

Two primary mounting options are available:

1. **Adhesive Mount:** For dashboard installation.
2. **Suction Cup Mount:** For windshield or dashboard installation.

# Quattro Modalità di Uscita Audio

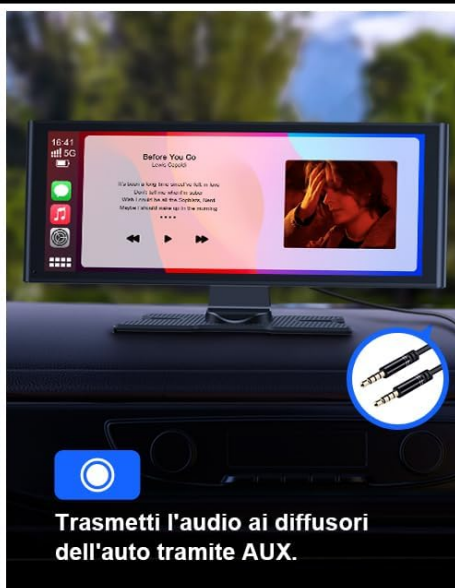

Goditi un viaggio musicale.

Trasmetti l'audio ai diffusori dell'auto tramite Bluetooth per un suono più forte.  
(Assicurati che la tua auto abbia la funzionalità Bluetooth).

Altoparlante Incorporato.

Trasmetti l'audio ai diffusori dell'auto tramite AUX.

Trasmetti l'audio ai diffusori dell'auto tramite FM.

Image: Different installation methods for the Avylet display, including adhesive and suction cup mounts.

## Power Connection

Connect the device to your vehicle's cigarette lighter socket (12-32V) using the provided car charger cable. No complex wiring is required.

## Rear Camera Installation (Optional)

The device includes a 1080p waterproof (IP67) rear camera for parking assistance. To enable automatic display of the rear view when reversing:

- Connect the red wire of the rear camera to the reverse light's positive lead.
- The display will automatically show the rear camera feed when the vehicle is in reverse.

# Telecamera posteriore

Resta informato sulla situazione posteriore del tuo veicolo in tempo reale, aiutandoti a retrocedere in modo più sicuro.

Angolo Ampio di 170°

Impermeabile IP67

Linea di retromarcia regolabile

Cavo della telecamera posteriore da 6m

## OPERATING INSTRUCTIONS

### Wireless CarPlay and Android Auto

Connect your smartphone wirelessly to the 9.26-inch display to access phone functions like navigation, music, and calls. After the initial connection, the device will automatically reconnect.

- **For Apple CarPlay:** Ensure Wi-Fi and Bluetooth are enabled on your iPhone (iOS 9 or later). Select the device in Bluetooth settings and confirm pairing.
- **For Android Auto:** Ensure Wi-Fi and Bluetooth are enabled on your Android phone (Android 11 or later, or Google/Samsung phones with Android 10 or later). Install the Android Auto app. Select the device in Bluetooth settings and connect.

# CarPlay senza fili e Android Auto

Accedi facilmente alle varie funzioni del tuo telefono cellulare, inclusa la navigazione, la musica e le chiamate.

Nota: Alcune app potrebbero non essere compatibili con CarPlay e Android Auto.

## Voice Control and GPS Navigation

Utilize Siri or Google Assistant for hands-free control of navigation, calls, messages, and multimedia. The display integrates with Apple Maps, Google Maps, and Waze.

# Controllo Vocale e Navigazione GPS

Libera le tue mani e ti offre un'esperienza di guida più sicura e confortevole.

## Audio Output Modes

The Avylet display offers multiple audio output options:

- **Built-in Speaker:** For direct audio output from the unit.
- **Bluetooth 5.0:** Transmit audio to your car's speakers via Bluetooth (ensure your car has Bluetooth functionality).
- **AUX Output:** Connect via the provided AUX cable to your car's AUX input.
- **FM Transmitter:** Transmit audio to your car's FM radio by tuning to a specific frequency.

# Metodi di Installazione Multipli

Il supporto regolabile ti permette di installare più liberamente.

Image: Visual representation of the four audio output methods available on the Avylet display.

## Display and Split-Screen

The 9.26-inch IPS touchscreen with 1600x600 resolution provides clear visuals. The split-screen function allows simultaneous use of multiple applications, such as navigation and music playback.

## Customizable Boot Screen

You can personalize the boot screen with your preferred image (car brand, family, pets, landscapes) by contacting [service@avylet.com](mailto:service@avylet.com).

## MAINTENANCE

To ensure the longevity and optimal performance of your Avylet display, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to clean the screen. Do not use abrasive cleaners or solvents.
- **Temperature:** Avoid exposing the device to extreme temperatures, both hot and cold.

- **Storage:** If storing the device for an extended period, disconnect it from power and store it in a cool, dry place.
- **Cable Management:** Ensure all cables are securely connected and not pinched or strained.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	No power from cigarette lighter; loose connection.	Check the cigarette lighter socket for power. Ensure the power cable is securely plugged into both the device and the socket.
Wireless CarPlay/Android Auto not connecting.	Bluetooth/Wi-Fi off on phone; incorrect pairing; app not installed (Android Auto).	Ensure Bluetooth and Wi-Fi are enabled on your phone. Forget the device in your phone's Bluetooth settings and re-pair. For Android Auto, ensure the app is installed and updated.
No audio output.	Incorrect audio output mode selected; low volume; loose AUX cable.	Check the selected audio output mode (built-in speaker, Bluetooth, AUX, FM). Increase volume on both the device and your car stereo. Ensure AUX cable is fully inserted. For FM, verify the frequency matches.
Rear camera image not appearing.	Red wire not connected to reverse light; camera cable loose.	Verify the red wire from the camera is correctly connected to the vehicle's reverse light positive lead. Check all camera cable connections.
