Maintenance and Care

Proper care will extend the life and maintain the appearance of your VilroCaz Platform Bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the painted finish.
- **Spills:** Blot spills immediately with a clean, dry cloth.
- **Hardware:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain structural integrity.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration of the wood finish.
- **Humidity:** Maintain a consistent humidity level in the room to prevent wood from warping or cracking.

Troubleshooting

If you encounter any issues with your platform bed, refer to the following common solutions.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware connections.	Check and tighten all bolts and screws. Ensure all components are correctly aligned.
Trundle or drawers do not slide smoothly.	Obstruction in the tracks; misaligned rails; overloaded drawer.	Clear any debris from tracks. Verify rails are properly installed and aligned. Reduce weight in drawers.
Missing parts during assembly.	Packaging error or lost during unpacking.	Carefully re-check all packaging materials. Contact customer support with your product model and a list of missing parts.
Visible screws/bolts are aesthetically unpleasing.	This is part of the product's design.	While some hardware is intentionally visible, ensure all are fully tightened. For aesthetic concerns, consider decorative caps (not included).
