Bell+Howell 4L Top Fill Humidifier User Manual

Model: air humidifier,cool mist humidifier,top

Brand: Bell+Howell

INTRODUCTION

This user manual provides detailed instructions for the safe and effective operation, maintenance, and troubleshooting of your Bell+Howell 4L Top Fill Humidifier. Designed for large rooms, bedrooms, and baby rooms, this cool mist humidifier also functions as an oil diffuser and features color-changing lights and an auto-shutoff function for enhanced comfort and safety.

SETUP

1. **Unpacking:** Carefully remove the humidifier from its packaging. Retain all packaging materials for future storage or transport.
2. **Placement:** Place the humidifier on a flat, stable, water-resistant surface at least 6 inches (15 cm) away from walls and furniture. Ensure the mist outlet is not directed at walls or furniture.
3. **Filling the Water Tank:**

The Bell+Howell humidifier features a convenient top-fill design. Simply pour clean, cool tap water directly into the top opening of the unit. Do not exceed the maximum fill line indicated inside the tank. For best results and to prevent mineral buildup, consider using distilled or demineralized water.

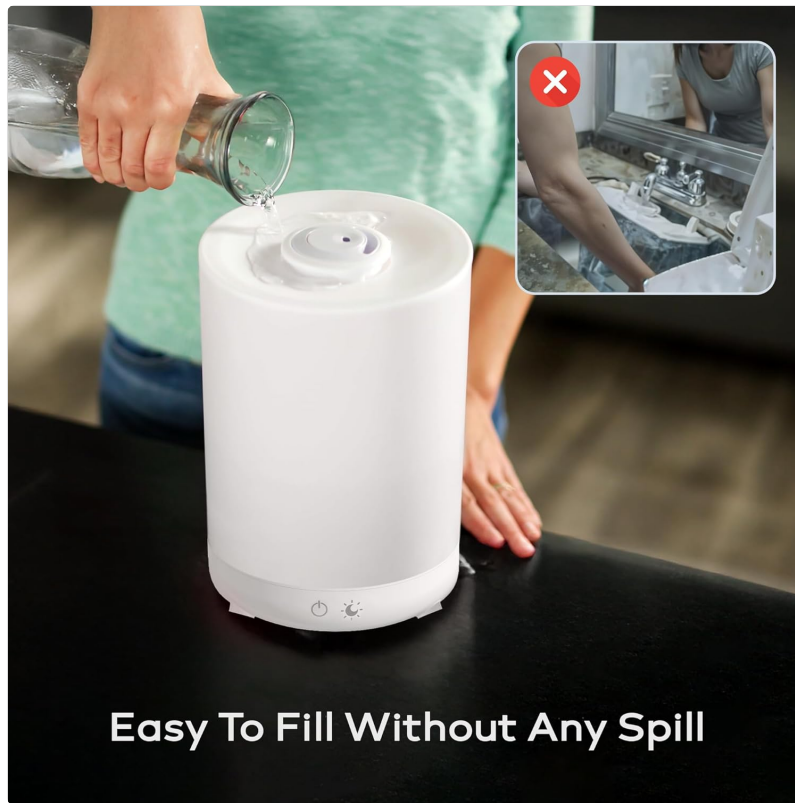

Image: A hand pouring water directly into the top opening of the humidifier, illustrating the effortless top-fill method. An accompanying small image shows an incorrect filling method, emphasizing the ease of the top-fill design.

4. **Power Connection:** Plug the power cord into a standard electrical outlet.

OPERATING INSTRUCTIONS

Your Bell+Howell humidifier offers multiple features for customized comfort.

Power On/Off and Mist Control

- **Power On:** Press the power button (usually indicated by a circle with a vertical line) on the front panel to turn the unit on. The humidifier will start operating on the lowest mist setting.
- **Adjusting Mist Output:** Press the mist control button (often represented by mist icons or lines) repeatedly to cycle through the three mist output levels: Low, Medium, and High.
- **Power Off:** Press the power button again to turn the unit off.

Color Changing Lights

The humidifier features an integrated color-changing design with 12 different colors. This provides a gentle and soothing light, perfect for creating a relaxing ambiance.

- **Activating Lights:** Press the light control button (often represented by a light bulb or sun icon) to turn on the color-changing feature.
- **Changing Colors:** Continue pressing the light control button to cycle through the available colors.
- **Turning Lights Off:** Press the light control button until the lights turn off. The product is designed to allow the white style to fade into the background when the light is off.

Essential Oil Diffuser Function

This humidifier can also be used as an essential oil diffuser. Simply add a few drops of your preferred essential oil directly into the water tank. The cool mist will disperse the aroma throughout your room.

Note: Use only 100% pure essential oils. Do not use corrosive or synthetic oils, as they may damage the unit.

Automatic Shut-off

For your safety and convenience, the humidifier is equipped with an automatic shut-off feature. The unit will automatically turn off when the water level is too low or the tank is empty. This prevents damage to the unit and conserves energy.

MAINTENANCE

Regular cleaning is essential to maintain optimal performance and hygiene of your humidifier.

Daily Maintenance

- Empty the water tank and wipe it dry with a clean cloth.
- Refill with fresh, cool water before each use.

Weekly Cleaning

- **Unplug the Unit:** Always unplug the humidifier from the power outlet before cleaning.
- **Empty Water:** Empty any remaining water from the tank and base.
- **Clean Water Tank:** Fill the water tank halfway with water and add 2 tablespoons of white vinegar. Swish the solution

around and let it sit for 30 minutes.

- **Clean Base:** Dip a soft brush or cloth in the vinegar solution and gently scrub the inside of the base, including the ultrasonic nebulizer (the small disc).
- **Rinse Thoroughly:** Rinse both the tank and base thoroughly with clean water until the smell of vinegar is gone. Ensure no water enters the air outlet or control panel.
- **Dry:** Wipe all surfaces dry with a clean, soft cloth. Allow all parts to air dry completely before reassembling or storing.

***Important:** Do not immerse the base unit in water. Do not use harsh chemicals, abrasive cleaners, or scouring pads, as these can damage the humidifier's surfaces and internal components.*

TROUBLESHOOTING
