› Hodozzy 10.1-inch Android Car Stereo User Manual for Renault Master 3, Opel Movano 2, Nissan NV400 (2010-2021)

Hodozzy b885a193-8a57-4fbd-ac0a-02497bfa1006

Hodozzy 10.1-inch Android Car Stereo User Manual

For Renault Master 3, Opel Movano 2, Nissan NV400 (2010-2021)

1. PRODUCT OVERVIEW

The Hodozzy 10.1-inch Android Car Stereo is a multimedia system designed to enhance your driving experience with advanced features like Wireless Carplay, Android Auto, GPS navigation, WiFi connectivity, Bluetooth, FM/RDS radio, and a rear camera. It is specifically compatible with Renault Master 3, Opel Movano 2, and Nissan NV400 models manufactured between 2010 and 2021.

This unit features 2GB of RAM and 64GB of internal storage, providing smooth operation and ample space for applications and media. The 10.1-inch touchscreen offers a clear and responsive interface for all functions.

Figure 1: Main interface of the Android car stereo, featuring a variety of application icons and a navigation display. It highlights the smart car technology with connectivity features.

2. SETUP AND INSTALLATION

2.1. Compatibility Check

Before installation, verify that your vehicle's dashboard center console matches the compatible configuration. Incorrect fitment may require additional accessories or modifications.

Figure 2: Dashboard compatibility. Ensure your vehicle's center console matches configuration 'A' (left side, with a single DIN opening) for proper installation. Configuration 'B' (right side, with a factory radio) is incompatible without modifications.

2.2. Package Contents

Carefully unpack the box and ensure all items are present:

Figure 3: This diagram provides the dimensions of the 10.1-inch display and the main unit. It also lists the included accessories: Canbus, installation tool, user manual, power cables, rear camera, GPS antenna, USB cables, other accessories, antenna adapter, radio antenna, microphone, RCA cable, and reverse line.

2. Canbus Decoder
3. Installation Tool
4. User Manual
5. Power Cables (various types)
6. Rear Camera
7. GPS Antenna
8. USB Cables

9. Antenna Adapter
10. Radio Antenna
11. Microphone
12. RCA Cable
13. Reverse Line

2.3. Wiring Instructions

Follow the wiring diagram carefully to connect the car stereo to your vehicle's electrical system. Incorrect wiring can cause damage to the unit or the vehicle.

Figure 4: This wiring diagram shows connections for power (KEY1, KEY2), ground, auto antenna, and reverse signal. Refer to this diagram carefully during installation to ensure correct electrical connections.

- **Power Connection:** Connect the main power harness. The unit supports original USB harnesses and includes a Canbus decoder for seamless integration.
- **Steering Wheel Control (SWC):** Connect the SWC wires (KEY1, KEY2) to your vehicle's steering wheel control interface. The Canbus decoder assists in retaining original steering wheel functions.
- **GPS Antenna:** Connect the GPS antenna and mount it in a location with a clear view of the sky for optimal signal reception.
- **Radio Antenna:** Connect the radio antenna.
- **Rear Camera:** Connect the rear camera input cable. Ensure the reverse trigger wire is connected to the vehicle's reverse light circuit for automatic camera activation.
- **USB Ports:** Utilize the two USB input ports for media playback, smartphone connection, or other USB devices.
- **RCA Outputs:** Connect external amplifiers or subwoofers using the RCA audio output.

3. OPERATING INSTRUCTIONS

3.1. Basic Functions

- **Power On/Off:** The unit typically powers on with the vehicle's ignition. Press and hold the power button for manual power control.
- **Volume Control:** Adjust volume using the on-screen controls or compatible steering wheel buttons.
- **Home Screen:** Tap the home icon to return to the main application interface.

3.2. Smartphone Integration (CarPlay, Android Auto, Mirror Link)

The stereo supports Wireless Carplay (via Bluetooth and WiFi) and Wired Android Auto (via USB cable). It also features Mirror Link for displaying your smartphone screen on the car stereo.

Figure 5: User interface for Wireless Carplay and Android Auto, showing common applications like Maps, Phone, Music, and Messages. It also illustrates the Mirror Link function, allowing you to display your smartphone screen on the car stereo.

- **Carplay/Android Auto:** Connect your smartphone to access navigation, music, calls, and messages through the stereo's interface.
- **Mirror Link:** Use this function to mirror your phone's display onto the car stereo screen.

3.3. GPS Navigation

The unit has an integrated GPS receiver and comes with 'Here We GO' pre-installed for offline maps. It also supports online navigation.

Figure 6: GPS navigation interface, highlighting both online and offline map capabilities. The system comes with 'Here We GO' pre-installed for offline maps, and supports online navigation via WiFi.

- **Offline Maps:** Access pre-loaded world maps without an internet connection.
- **Online Navigation:** Connect to WiFi or a mobile hotspot to use online mapping services.

3.4. WiFi Connectivity

Connect the stereo to a WiFi network or mobile hotspot to access online features, browse the web, and download

applications.

Figure 7: WiFi connectivity feature, allowing you to browse the web via Google Search and download applications from the app store, expanding the stereo's functionality.

3.5. Bluetooth Functions

Pair your smartphone via Bluetooth for hands-free calling and wireless audio streaming.

Figure 8: Bluetooth interface for hands-free calling and wireless audio streaming. It also highlights the equalizer (EQ) settings, allowing you to customize the audio output for various music styles.

- **Hands-free Calling:** Make and receive calls directly from the stereo.
- **Bluetooth Music:** Stream audio from your phone to the car stereo.

3.6. FM/RDS Radio

Access FM radio stations with high-quality stereo sound and RDS functionality.

Figure 9: FM radio interface with RDS (Radio Data System) support. It allows for automatic channel searching and precise tuning, providing station information where available.

- **Automatic Search:** Scan and save available radio stations.

- **RDS:** Display station information, song titles, and traffic announcements where supported.

3.7. Rear Camera

The included rear camera provides a clear view when reversing, enhancing safety.

Figure 10: Rear camera functionality, providing a clear view behind the vehicle with parking guidelines. The system supports AHD high-definition 720P camera input.

- **Automatic Activation:** The camera view automatically appears when the vehicle is put into reverse.
- **Parking Guidelines:** Adjustable guidelines assist with parking maneuvers.

3.8. Steering Wheel Controls

The stereo is compatible with your vehicle's original steering wheel controls, allowing you to manage functions without taking your hands off the wheel.

Figure 11: Configuration interface for steering wheel controls. The system is compatible with original steering wheel controls, allowing for convenient operation of various functions.

- **Programming:** Access the settings menu to program the steering wheel buttons to control specific stereo functions (e.g., volume, track skip, mode).

3.9. Audio Settings

Customize your audio experience with various sound settings.

- **Equalizer (EQ):** Adjust frequency bands to tailor the sound output to your preference. Pre-set EQ modes are available (e.g., Pop, Rock, Jazz).
- **Hifi Audio:** The unit supports Hifi audio effects for enhanced sound quality.

3.10. Desktop Themes

Personalize the look of your stereo's interface with a selection of desktop themes.

Figure 12: The system offers 28 optional desktop themes, allowing users to personalize the appearance of their car stereo interface.

4. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and unit. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates to ensure optimal performance and access to new features. Updates can typically be downloaded via WiFi.
- **Temperature:** Avoid exposing the unit to extreme temperatures.

5. TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on	Incorrect wiring, blown fuse, vehicle ignition off	Check power connections, inspect vehicle fuses, ensure ignition is on.
No sound	Volume too low, mute activated, incorrect speaker wiring	Increase volume, check mute status, verify speaker connections.
Poor FM radio reception	Antenna not connected, faulty antenna, weak signal area	Ensure antenna is securely connected, try a different antenna, move to an area with better signal.

Problem	Possible Cause	Solution
Steering wheel controls not working	Incorrect wiring, Canbus issue, controls not programmed	Verify SWC wiring, check Canbus connection, program controls via settings menu. Note: Some vehicle models may have compatibility challenges.
GPS signal lost or inaccurate	GPS antenna obstructed, antenna faulty, unit in covered area	Ensure GPS antenna has a clear view of the sky, check antenna connection, move vehicle to an open area.
Touchscreen unresponsive	System frozen, temporary software glitch	Perform a soft reset (refer to manual for specific reset method), power cycle the unit.

6. SPECIFICATIONS

Feature	Specification
Brand	Hodozzy
Model Number	b885a193-8a57-4fbd-ac0a-02497bfa1006
