## ILIFE T20s Pro

# ILIFE T20s Pro Robot Vacuum Cleaner Instruction Manual

Model: T20s Pro | Brand: ILIFE

---

## INTRODUCTION

---

The ILIFE T20s Pro Robot Vacuum Cleaner is designed to provide an efficient and comprehensive cleaning solution for your home. Featuring advanced LiDAR navigation, powerful suction, and simultaneous vacuuming and mopping capabilities, this device simplifies your cleaning routine. This manual provides essential information for setting up, operating, and maintaining your robot vacuum cleaner to ensure optimal performance and longevity.

Figure 1: The ILIFE T20s Pro Robot Vacuum Cleaner with its self-emptying station.

## WHAT'S IN THE BOX

---

Please check the contents of your package against the list below:

- 1x T20s Pro Robot Vacuum
- 1x Self-empty Station
- 2x Side Brushes
- 2x Mop Cloths
- 1x 2-in-1 Water Tank
- 1x Mop Stand
- 1x Cleaning Tool
- 1x Filter
- 2x Dust Bags
- 1x User Manual

# SETUP

---

## 1. Unpacking and Placement

- Remove all packaging materials and protective films from the robot and the self-empty station.
- Place the self-empty station against a wall on a hard, level surface. Ensure there is at least 0.5 meters of clear space on both sides and 1.5 meters in front of the station for optimal robot navigation.
- Plug the self-empty station into a power outlet.

## 2. Initial Charging

- Place the robot onto the charging pins of the self-empty station. Ensure the charging contacts on the robot align with those on the station.
- Allow the robot to fully charge before its first use. The indicator light on the robot will change to solid green when fully charged.

## 3. App Connection (ILIFE Clean App)

To unlock smart control features, download the ILIFE Clean App from your smartphone's app store.

1. Open the ILIFE Clean App and create an account or log in.
2. Tap 'Add Device' and select the T20s Pro model.
3. Follow the in-app instructions to connect your robot to your 2.4GHz Wi-Fi network. This typically involves pressing and holding the Power and Home buttons on the robot simultaneously for 3 seconds until you hear an AP mode voice prompt and see the Wi-Fi indicator light flash.
4. Once connected, you can manage cleaning tasks, set schedules, and customize maps.

## 4. Voice Assistant Integration

The T20s Pro is compatible with Amazon Alexa and Google Home for hands-free operation.

- In the ILIFE Clean App, go to the 'Me' option, then 'Third-Party Services'.
- Select either Alexa or Google Assistant and follow the instructions to link your ILIFE account.
- You can now use voice commands like "Alexa, turn on ILIFE robot" to start cleaning.

# OPERATING INSTRUCTIONS

---

## 1. Powering On/Off

- **Power On:** Long press the power button on the robot until the indicator light turns on.
- **Power Off:** Long press the power button until the indicator light turns off.

## 2. Cleaning Modes

The robot offers various cleaning modes to suit different needs, accessible via the ILIFE Clean App:

- **Smart Mode:** Cleans the entire home automatically.
- **Pose Mode:** Allows you to pick an exact spot on the map for targeted cleaning.
- **Room Mode:** Select one or multiple rooms for focused cleaning.
- **Zone Mode:** Draw a specific area on the map you want the robot to clean.
- **Area Designation Cleaning:** Mark no-go, to-go, and to-mop areas on the map.

Figure 2: The ILIFE Clean App allows for area designation cleaning, including no-go zones.

### 3. Adjusting Suction and Water Levels

You can customize the suction power and water flow for different floor types and cleaning needs through the ILIFE Clean App. The robot also features an auto-boost function for carpets, increasing suction for deeper cleaning.

Figure 3: The robot automatically boosts suction when detecting carpets for a deeper clean.

### 4. Scheduling Cleaning

Use the ILIFE Clean App to set cleaning schedules for specific times and days. The robot will automatically start and return to its station after cleaning.

## FEATURES OVERVIEW

### 1. Advanced LiDAR Navigation

Equipped with LiDAR technology, the T20s Pro maps your home quickly and accurately, creating efficient cleaning routes. It can store up to 5 multi-floor maps, making it suitable for multi-level homes. Smart sensors prevent collisions, falls, and getting stuck.

Figure 4: LiDAR navigation ensures precise and efficient path cleaning.

## 2. Powerful 6500Pa Suction

The T20s Pro delivers a powerful 6500Pa suction, effectively lifting dust, debris, and pet hair from various floor types including tiles, hardwood, marble, and carpets. The 2-in-1 roller brush adapts to different surfaces for thorough cleaning.

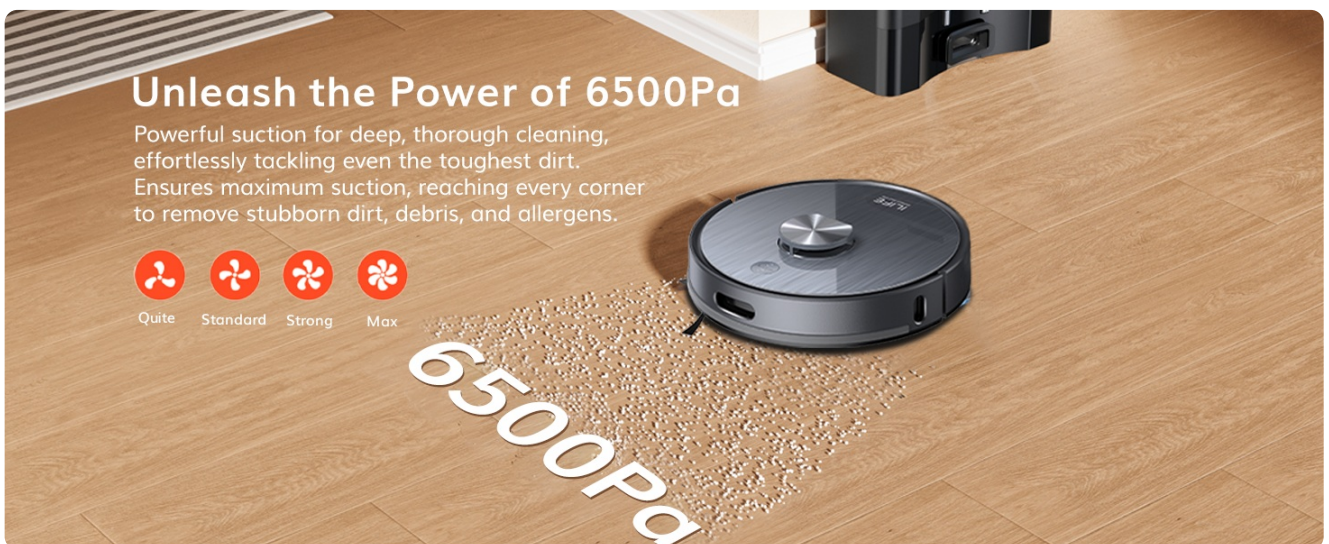

Figure 5: The 6500Pa suction power ensures deep and thorough cleaning.

## 3. Simultaneous Vacuum and Mop

With its hybrid dust and water tank, the robot can vacuum and mop simultaneously. The 'Y'-shaped mopping mimics manual scrubbing for deeper and more efficient cleaning, capturing fine dust particles.

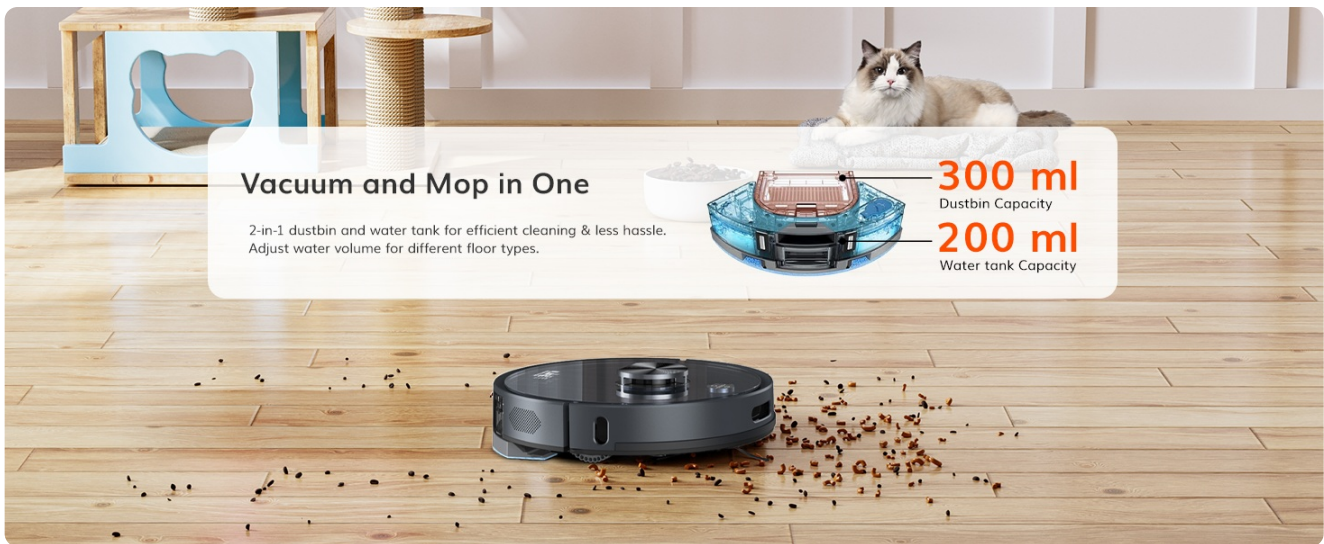

Figure 6: The 2-in-1 dustbin and water tank allow for efficient simultaneous vacuuming and mopping.

#### 4. Self-Emptying Station

The self-emptying station features a 3.5L disposable dust bag and 20,000Pa cyclone power, allowing for up to 10 weeks (70 days) of hands-free cleaning without manual emptying.

Figure 7: The self-emptying station automatically clears the robot's dustbin into a 3.5L bag.

#### 5. Long-Lasting Battery

A high-capacity 5200mAh battery provides up to 260 minutes of runtime in quiet mode, suitable for cleaning large areas up to 4500 sq.ft. The robot automatically returns to its charging dock when the battery is low and resumes cleaning from where it left off once recharged.

### MAINTENANCE

Regular maintenance is crucial for the optimal performance and longevity of your ILIFE T20s Pro. Follow these steps to keep your robot in top condition:

#### 1. Cleaning the Dust Tank and Filters

- Open the 2-in-1 dust and water tank.
- Use the provided cleaning tool to thoroughly clean the dust tank.
- Clean the sponge filter once a week and allow it to dry completely before reuse.

- For the HEPA filter, tap it gently on the floor weekly to remove dust. Replace it every 4 to 5 months.

## 2. Cleaning Brushes and Wheels

- Regularly inspect and clean the side brushes to avoid tangling from hair and debris.
- Keep the nose wheel and roller brush clean and dry for optimal performance.

## 3. Cleaning Sensors and Charging Pins

- Regularly check and clean the cliff sensors for uninterrupted navigation.
- Wipe the charging pins on both the robot and the docking station to prevent dust buildup and ensure proper charging.

## 4. Replacing Dust Bags

- When the 3.5L dust bag in the self-emptying station is full, properly replace it with a new one.

## TROUBLESHOOTING

---

If you encounter any issues with your ILIFE T20s Pro, please refer to the troubleshooting section in the full user manual or contact customer support. Common issues may include:

- Robot not charging.
- Robot getting stuck or lost.
- Reduced cleaning performance.
- App connectivity issues.

## SPECIFICATIONS

---

Feature	Specification
Brand	ILIFE
Model Name	T20s Pro
Maximum Suction	6500 Pa
Navigation Type	Advanced LDS (LiDAR) Navigation
Self-Emptying	Yes, with 3.5L Disposable Dust Bag
Simultaneous Vac & Mop	Yes
Multi Floor Maps	Up to 5 maps
Battery Capacity	5200mAh
Battery Life	Up to 260 Minutes (Quiet Mode)
Control Method	App Control, Amazon Alexa, Google Home
Filter Type	4 Layer Filter, High Efficiency Filter, HEPA, Microfilter
Item Dimensions (L x W x H)	33L x 33W x 9H Centimeters
Item Weight	7000 Grams

## WARRANTY & SUPPORT

---

The ILIFE T20s Pro Robot Vacuum Cleaner comes with a standard manufacturing warranty. For specific warranty terms and conditions, please refer to the warranty card included in your package or visit the official ILIFE website. For customer support, technical assistance, or service requests, please contact ILIFE India:

- **Phone:** 1800-274-5433
- **Importer Contact:** ILIFE Innovations | Shariden Pvt. Ltd. B-37, Devasandra Industrial Estate, Mahadevapura, Bengaluru, Karnataka 560048
