Hbada d59cff9c-2716-4371-8084-da0dd048411e

Hbada E2 Ergonomic Office Chair User Manual

Model: d59cff9c-2716-4371-8084-da0dd048411e

INTRODUCTION

Thank you for choosing the Hbada E2 Ergonomic Office Chair. This manual provides detailed instructions for assembly, operation, and maintenance to ensure you get the most comfortable and healthy experience from your new chair. Please read this manual thoroughly before assembly and use.

SAFETY INFORMATION

Always follow the instructions provided with the chair for proper assembly and use. Be cautious when adjusting the chair's position, especially when reclining, to avoid injury. Do not exceed the maximum weight capacity of the chair.

PACKAGE CONTENTS

Before beginning assembly, ensure all parts are present and undamaged. Refer to the included parts list for a complete overview.

- Chair Base with Wheels
- Gas Lift Cylinder
- Seat Assembly
- Backrest Assembly
- Headrest
- Armrests (Left and Right)
- Footrest (if applicable to your model)
- Assembly Hardware (screws, washers, Allen wrench)
- Instruction Manual

ASSEMBLY INSTRUCTIONS

Assembly typically takes about 30 minutes and requires only the provided Allen wrench. Follow these steps carefully:

1. **Assemble the Chair Base:** Insert the wheels into each leg of the chair base. Ensure they are securely fitted.

Image: The chair base with its five legs and wheels, ready for assembly.

2. **Install the Gas Lift Cylinder:** Insert the air pneumatic cylinder into the center hole of the assembled chair base.
3. **Attach the Footrest (if applicable):** If your model includes a footrest, attach it to the underside of the seat assembly as per the specific instructions. The footrest is designed to slide out and fold for use.
4. **Attach the Armrests:** Screw both armrests to the underside of the seat assembly. Ensure they are firmly secured.

• Why choose HBADA?

HBADA is committed to delivering high-quality, comfortable, and stylish office chairs that enhance both work enjoyment and productivity.

• How do we ensure product quality?

Our products undergo stringent quality control and testing to meet high standards. Additionally, we provide reliable after-sales service to ensure customer satisfaction.

5. **Attach the Backrest:** Screw the backrest support to the back of the seat assembly.

Image: The backrest assembly being connected to the seat, showing the screw points.

6. **Connect Seat and Base:** Carefully place the assembled seat and backrest onto the gas lift cylinder, ensuring it is centered and stable.
7. **Install the Headrest:** Slide the headrest onto the top of the backrest. It should click into place or be secured with a screw, depending on the design.

HBADA

HBADA is committed to providing users with more professional and aesthetically pleasing ergonomic office chair. We hope to make your body healthy and comfortable through better products. We have ergonomic design, elegant appearance, comfortable and durable materials, and meticulous service. HBADA is your trustworthy choice!

The Hbada E2 chair offers multiple adjustments for personalized comfort:

1. Seat Height Adjustment

To adjust the seat height, locate the lever on the right side beneath the seat. Pull the lever up while seated to lower the chair, or pull it up while standing to raise the chair. Release the lever to lock the height.

2. 6-Way Adjustable Lumbar Support

The backrest features a dynamic lumbar support system. This support can be adjusted in 6 ways:

- **Forward and Backward Adjustment:** 3 levels of depth adjustment.
- **Vertical Adjustment:** Move the lumbar support up or down to align with your lower back curve.
- **Left-Right Suspension:** The floating structure adapts to your movements, providing continuous support.

Image: A detailed diagram showing the 6-way adjustable lumbar support, highlighting its 2.36" up & down, 1.97" front & back, and 10° left & right movement capabilities.

3. 3D Adjustable Armrests

The armrests provide versatile support and can be adjusted in three dimensions:

- **Height Adjustment:** Up to 7.5 cm (2.95 inches) vertically.
- **Forward and Backward Adjustment:** Up to 5 cm (1.97 inches) horizontally.
- **Rotation:** Rotate 40 degrees left and right.

Image: A visual guide to the 3D ergonomic armrests, detailing 2.95" up & down, 1.97" front & back, and 40° left & right rotation.

4. 3D Adjustable Headrest and Reclining Function

The headrest and reclining function work together to provide full-body support:

- **Headrest Adjustment:** Adjust vertically up to 10 cm (3.93 inches), forward and backward up to 3 cm (1.57 inches), and rotate 60 degrees to support your neck.
- **Reclining Function:** The chair reclines up to 135 degrees with three lockable tilt angles (90°, 115°, 138°). Use the wire-controlled adjustment for one-touch operation without bending down.

MAINTENANCE

Regular maintenance helps prolong the life and appearance of your Hbada E2 chair:

- **Cleaning Mesh Fabric:** The breathable mesh fabric can be cleaned with a damp cloth and mild soap. Avoid harsh chemicals.

- **Frame Cleaning:** Wipe the alloy steel frame and plastic components with a soft, damp cloth.
- **Wheel Maintenance:** Periodically check the wheels for hair or debris and clean as needed to ensure smooth movement.
- **Tighten Fasteners:** Every few months, check all screws and bolts to ensure they are tight. Retighten if necessary to maintain stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Chair does not adjust height	Gas lift cylinder malfunction or lever not engaged.	Ensure the height adjustment lever is fully engaged. If the issue persists, the gas lift cylinder may need replacement. Contact customer support.
Chair wobbles or feels unstable	Loose screws or uneven floor.	Check and tighten all assembly screws. Ensure the chair is on a flat, even surface.
Armrests are loose	Mounting screws are loose.	Tighten the screws securing the armrests to the seat.
Backrest does not recline or lock	Recline mechanism is jammed or not engaged.	Ensure the recline lock lever is disengaged to recline. If it doesn't lock, check for obstructions or contact support.
