Eonon P5

EONON Wireless Apple Carplay Screen P5 User Manual

Model: P5 | Brand: Eonon

PRODUCT OVERVIEW

The EONON P5 is a versatile portable car stereo system designed to enhance your in-car entertainment and navigation experience. It features an 8.95-inch IPS display that supports both portrait and landscape orientations, offering flexibility for various uses like GPS navigation and media playback. Key functionalities include wireless Apple CarPlay and Android Auto, 1080P backup camera support, and multiple audio output options. This manual provides detailed instructions for setup, operation, and maintenance of your EONON P5 device.

Image: The EONON P5 portable car stereo screen shown in portrait mode, with a backup camera accessory. The screen displays various app icons for music, CarPlay, Android Auto, Airplay, Super Link, Audio Output, and Settings. A faint landscape view of the screen is visible in the background.

- AUX Cable x1 (1.5 meters)
- Pry Bar x1
- Cable Clip x4
- Instruction Manual x1
- Disk for Suction Cup x1
- Screws x4
- Fixing Adhesive x2

SETUP AND INSTALLATION

Wiring Diagram

Proper connection of the power and camera cables is essential for the device's functionality.

Image: A diagram illustrating the wiring connections for the EONON P5. It shows the main unit mounted on a suction cup bracket, with three numbered cables: 1. Cigarette Lighter Power Cable, 2. AUX Adapter Cable, and 3. Backup Camera (7m).

1. Connect the Cigarette Lighter Power Cable to your vehicle's 12V power outlet.
2. Connect the AUX Adapter Cable to the AUX input of your vehicle's audio system for sound output.
3. Connect the Backup Camera cable to the designated input on the P5 unit and route it to the rear of your vehicle for installation.

Installation Methods

The EONON P5 offers two primary installation methods: magnetic and suction cup. Choose the method that best suits your vehicle and preference.

Method 1: Magnetic Installation

Image: A five-step visual guide for magnetic installation. Steps include cleaning the car surface, bringing the device close to the magnetic bracket for automatic installation, adjusting the support arm angle, tearing off adhesive film and sticking the bracket, and finally adjusting the screen angle.

1. Clean the car surface where the magnetic bracket will be attached.
2. Bring the device close to the magnetic bracket; it will automatically attach.

3. Adjust the support arm angle according to your desired installation location.
4. Tear off the adhesive film from the magnetic bracket and firmly stick the bracket to the cleaned car surface.
5. Adjust the screen angle for optimal viewing.

Method 2: Suction Cup Installation

Image: A five-step visual guide for suction cup installation. Steps include cleaning the car surface, aligning the bracket with the unit, pressing the suction cup part onto the car surface to remove air bubbles, pressing the lock switch to fix the suction cup, and adjusting the screen to the best viewing angle.

1. Clean the car surface (e.g., dashboard, windshield) where the suction cup will be attached.
2. Align the bracket with the hole on the unit and install it.
3. Press the suction cup part of the bracket onto the car surface, ensuring no air bubbles are present for a secure seal.
4. Press the lock switch to firmly fix the suction cup in place.
5. Adjust the screen to the best viewing angle.

OPERATING INSTRUCTIONS

Wireless CarPlay & Android Auto

Connect your smartphone wirelessly via Bluetooth to access Apple CarPlay or Android Auto. This allows for hands-free control of navigation, music, calls, and messages using voice commands (Siri or Google Assistant).

Wireless CarPlay & Android Auto

Experience hands-free convenience with P5 car screen, allowing you to use your phone more safely in driving.

Hey Siri, Call Amy.

Hi Google, Navigate Home.

Image: The EONON P5 screen displaying the Apple CarPlay interface within a car dashboard. Voice command prompts like "Hey Siri, Call Amy." and "Hi Google, Navigate Home." are shown, indicating voice control functionality.

Landscape & Portrait Mode

The 8.95-inch IPS display can be rotated to switch between portrait and landscape orientations. Portrait mode is ideal for navigation, providing a clearer view of routes, while landscape mode is better suited for media consumption.

8.95-inch Rotating Display

Supports portrait and landscape modes for more intuitive navigation routes. Also, the screen angle is adjustable.

Audio Output Modes

The P5 offers multiple ways to output audio to your vehicle's sound system:

- **Built-in Speakers:** For direct audio output from the unit.
- **AUX Out:** Connect via the provided AUX cable to your car's AUX input.

- **FM Transmitter:** Transmit audio wirelessly to your car's FM radio by tuning to a specific frequency.
- **Bluetooth:** Stream audio directly to your car's Bluetooth-enabled audio system.

Wireless Screen Mirroring (Airplay & SuperLink)

Mirror your smartphone's screen onto the P5 display for enhanced functionality.

- **Airplay Connect:** For iOS devices, mirror your iPhone screen to the P5.
- **Super Link:** For Android devices, connect via Super Link to display content while allowing your phone to perform other tasks.

MAINTENANCE

Online Software Update (OTA)

The EONON P5 supports Over-The-Air (OTA) software updates. This allows for convenient updates to the device's firmware, fixing issues, and enhancing security without manual downloads.

General Care

- Keep the screen clean using a soft, lint-free cloth. Avoid abrasive cleaners.
- Ensure all cables are securely connected to prevent signal loss or damage.
- Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.

TROUBLESHOOTING

This section addresses common issues you might encounter with your EONON P5 unit. For more complex problems, please refer to the support section.

Problem	Possible Cause	Solution
No power to the unit.	Cigarette lighter power cable not connected or vehicle's power outlet is faulty.	Ensure the cigarette lighter power cable is fully inserted. Test the vehicle's power outlet with another device.
No audio output.	Incorrect audio output mode selected or AUX cable not connected properly.	Verify the selected audio output mode (Bluetooth, AUX, FM Transmitter). Check AUX cable connection. Ensure car stereo is on the correct input.
CarPlay/Android Auto not connecting.	Bluetooth not enabled on phone/unit, or phone not paired.	Ensure Bluetooth is active on both the P5 and your smartphone. Re-pair the devices if necessary. Check phone settings for CarPlay/Android Auto permissions.
Backup camera not displaying.	Camera cable loose or improperly connected.	Check the connection of the backup camera cable to the P5 unit. Ensure the camera is receiving power (if applicable).

SPECIFICATIONS

Feature	Detail
