MAF 14 Inch Queen Metal Platform Bed Frame

MAF 14 Inch Queen Metal Platform Bed Frame

Model: B0DM5LJ635

Introduction

This manual provides detailed instructions for the assembly, use, and maintenance of your MAF 14 Inch Queen Metal Platform Bed Frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

The MAF 14 Inch Queen Metal Platform Bed Frame, designed for use without a box spring.

Safety Information

WARNING: Do not load more than 3000 pounds on this bed frame. Always follow the assembly instructions carefully to prevent instability or collapse. Be cautious when handling tools during assembly.

- Ensure all bolts are securely tightened before use.
- Periodically check all connections to ensure they remain tight.
- Do not allow children to play on or under the bed frame.
- Use only the mattress size specified for this frame (80"L x 60"W for Queen).

Package Contents

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

Assembly Instructions

Assembly of the MAF 14 Inch Queen Metal Platform Bed Frame is designed to be straightforward and can typically be completed by one person in approximately 20 minutes. All necessary tools are included.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (like a rug or blanket) to prevent scratches. Identify each part using the provided diagram.
2. **Assemble Side Rails:** Connect the long side rails to the head and foot sections using the provided screws and wrench. Ensure all connections are snug but do not overtighten initially.

3. **Attach Center Support:** Secure the center support beam(s) to the pre-drilled holes in the side rails.
4. **Install Slats:** Place the metal slats across the frame. The slats are designed to fit into U-shaped grooves for stability. Ensure they are evenly spaced and securely seated.
5. **Tighten All Connections:** Once all parts are assembled, go back and firmly tighten all screws. Do not overtighten to avoid stripping.
6. **Attach Anti-Slip Baffles:** Install the plastic anti-slip baffles on the frame to prevent the mattress from shifting.
7. **Place Mattress:** Carefully place your mattress onto the assembled bed frame. No box spring is required.

The bed frame fully assembled, ready for a mattress.

Product Features

- **Heavy Duty Steel Construction:** The frame is constructed from heavy-duty steel, capable of supporting up to 3000 pounds, ensuring durability and stability.
- **No Box Spring Needed:** Dependable metal slats provide optimal support for your mattress, eliminating the need for a box spring.
- **Generous Under-Bed Storage:** With 12.4 inches of clearance, the 14-inch high frame offers ample space for storage underneath, helping to maximize bedroom organization.

Illustration of the 12.4-inch under-bed storage capacity.

- **Safety-Focused Design:** Rounded corners on the legs prevent accidental injuries from bumps, enhancing user safety.
- **Anti-Slip Features:** Equipped with plastic anti-skid baffles on all four sides to prevent mattress movement and rubber foot cushions to protect floors and reduce noise.

Key features: rounded corners, rubber mats for floor protection, and anti-slip baffles.

- **Noise-Free Operation:** Designed to be noiseless, providing a quiet and undisturbed sleep environment.

Specifications

Feature	Detail
Size	Queen

Slat Distance	5.5 inches
Included Components	Bed Frame, Instruction, Screws, Wrench
Special Features	Rounded Corners, Heavy Duty Metal, Steel Slat Support, No Box Spring Needed, Easy Assembly, Storage Space, Squeak Resistant

Dimensional specifications for the Queen size bed frame.

Care and Maintenance

- **Cleaning:** Wipe the metal frame with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Inspection:** Periodically inspect all bolts and connections to ensure they are tight. Retighten if necessary to

maintain stability and prevent squeaking.

- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the frame or your flooring.

Troubleshooting

- **Squeaking Noises:** If the bed frame develops squeaking noises, check all bolts and ensure they are securely tightened. Loose connections are the most common cause of squeaking.
- **Mattress Sliding:** Ensure the plastic anti-slip baffles are correctly installed. If the mattress still slides, consider using a non-slip mattress pad between the mattress and the frame.
- **Instability:** If the frame feels unstable, re-check all assembly steps to ensure every component is correctly installed and all fasteners are tightened.

Warranty and Support

This MAF bed frame comes with a **5-year after-sale service**. If you encounter any issues or have questions regarding your product, please contact MAF customer support for assistance. We are committed to providing a satisfactory solution as soon as possible.
