## SETUP

### Initial Power On

To power on your Eilik robot, gently press and hold the belly button until its screen lights up and displays initial animations. Ensure the protective film is removed from the screen before first use for optimal visual clarity.

## OPERATING YOUR EILIK

### Interaction Points

Eilik responds to touch at various points on its body, each triggering different emotions and animations:

- **Head:** Petting Eilik's head often elicits happy or content expressions.
- **Belly:** Tickling Eilik's belly can result in playful or surprised reactions.

- **Back:** Rubbing Eilik's back may trigger a range of emotions, including irritation or anger if done excessively.
- **Lifting:** Lifting Eilik can also trigger unique responses.

This image captures Eilik Silver with a wide, happy smile on its screen, indicating a positive emotional state.

Figure 4: Eilik Silver showing an angry expression

Eilik Silver is shown with an angry expression, characterized by furrowed brows and a downturned mouth on its screen.

## Mini-Games

Eilik comes with several engaging mini-games:

- **Left or Right Game:** Gently touch Eilik's left or right hand to interact.
- **Shooting Game:** Touch Eilik's head to shoot monsters.
- **Fishing Game:** Twist Eilik's body according to on-screen instructions.

## Other Functions

Eilik also includes utility modes:

- **Countdown Timer:** Set a timer for various activities.
- **Pomodoro Timer:** Utilize for focused work sessions.

- **Festivals:** Eilik performs holiday-themed shows.

### Multi-Eilik Interaction

When multiple Eilik robots are together, they can interact with each other, chatting, playing, and even engaging in playful quarrels. A group of Eiliks can also have a "party time."

### Puppet Toy Mode & DIY

The unique Puppet Toy mode allows you to choose specific expressions and actions for Eilik. You can also dress him up and use idle animations for creating funny videos and photos.

## MAINTENANCE AND CARE

### General Care

Keep your Eilik clean and free from dust. Use a soft, dry cloth for cleaning. Avoid exposing Eilik to extreme

temperatures or moisture.

## Power Management

To protect the robot's hardware and conserve battery life, Eilik will automatically power down after an extended period of inactivity. Recharge Eilik using the provided USB-C cable when the battery is low.

## Noise Level

The hardware used for the robot's joints is fully certified and compliant. It may produce a certain level of noise during operation, which is a normal occurrence for robotic toys and does not indicate a malfunction.
