HOMYEDAMIC 9012-BLUE-18

HOMYEDAMIC Recliner Chair User Manual

Model: 9012-BLUE-18

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use of the recliner chair. Keep this manual for future reference.

- Ensure all parts are present and undamaged before beginning assembly. Do not use if any parts are missing or broken.
- Assembly requires careful attention. It is recommended to have two people for assembly, though one person can complete it in approximately 20 minutes.
- When operating the reclining function, ensure there are no obstructions or persons (especially children or pets) in the path of the footrest or backrest.
- The footrest may encounter some resistance when closing. Apply firm, steady pressure. This chair is not recommended for post-surgical recovery due to the manual closing mechanism.
- Do not stand on the chair or use it as a step stool.
- Do not allow children to play on or around the recliner unsupervised.
- The chair is designed for indoor use only.
- Maximum weight capacity: 330 lbs.

⚠ Easy to tip over without supportive feet

Figure 1: Anti-tip-over support feet for enhanced stability. Ensure these are properly engaged.

2. PACKAGE CONTENTS

Before assembly, verify that all components are included in your package. The recliner is typically shipped in one box.

- Recliner Backrest
- Recliner Seat Base (with armrests and footrest mechanism attached)
- Power Adapter (if applicable, for any potential future powered versions -*Note: This model is manually operated*)
- Instruction Manual (this document)

Note: Some smaller components or parts may be tucked inside the chair's base or backrest for shipping. Please check thoroughly before discarding packaging.

3. ASSEMBLY INSTRUCTIONS

Assembly is straightforward and typically takes about 20 minutes for one person. No special tools are required.

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent scratches.
2. **Locate Hidden Parts:** Check inside the seat base and backrest for any components that may be stored there for shipping, such as the backrest attachment brackets or any small accessories.
3. **Attach Backrest:** Align the metal brackets on the backrest with the corresponding slots on the seat base. Slide the backrest down firmly until it clicks securely into place. You may need to apply gentle pressure to ensure a snug fit.
4. **Verify Stability:** Once the backrest is attached, gently rock the chair to ensure it is stable and all connections are secure.
5. **Position Chair:** Move the assembled recliner to its desired location. Ensure there is enough space behind the chair for it to recline fully without hitting a wall or other furniture.

4. OPERATING INSTRUCTIONS

4.1 Reclining Function

The recliner features a manual reclining mechanism. To recline:

1. Locate the pull ring on the side of the recliner, typically on the right-hand side when seated.
2. Pull the ring firmly to release the footrest. The footrest will extend forward.
3. Lean back gently to recline the backrest to your desired position (up to 145 degrees). The chair offers multiple reclining positions for reading (90°), watching TV (120°), or napping (145°).
4. To return to the upright position, push down on the footrest with your legs while simultaneously leaning forward. The footrest will retract, and the backrest will return to its upright position. Note that closing the footrest may require some effort.

ADJUSTABLE RECLINE FUNCTION

Figure 3: The recliner offers various positions for different activities, from upright reading to fully reclined napping.

Figure 4: The recliner in a partially reclined state, demonstrating the extended footrest.

4.2 Swivel and Rocking Function

This recliner is equipped with a 360-degree swivel and a rocking function for added comfort and versatility.

- **Swivel:** The chair base allows for a full 360-degree rotation. Simply push off the floor with your feet to turn the chair in any direction.
- **Rocking:** When not reclined, the chair can gently rock back and forth. This function is ideal for relaxation or soothing.

SWIVEL & ROCKING DESIGN

360 ° SWIVEL

360 ° rotation function facilitates you to adjust direction and provides a comfortable experience.

ROCKING FUNCTION

You can sway back and forth while watching TV or resting to relax.

4.3 Additional Features

- **Cup Holders:** The armrests include integrated cup holders for convenience.
- **Side Pockets:** Storage pockets are located on the side of the chair, suitable for remote controls, magazines, or other small items.

5. CARE AND MAINTENANCE

Proper care will extend the life and appearance of your recliner chair.

- **Cleaning Fabric:** For general cleaning, gently vacuum the fabric to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner following the product's instructions, testing on an inconspicuous area first. Avoid harsh chemicals.
- **Mechanism Care:** The metal reclining mechanism is designed for durability. Avoid forcing the mechanism. If it becomes stiff, a silicone-based lubricant can be applied to moving parts, but consult a professional if issues persist.
- **Frame Inspection:** Periodically check all bolts and connections to ensure they are tight. Retighten if necessary.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fabric fading.
- **Moving the Chair:** When moving the chair, lift it rather than dragging it to prevent damage to the base or flooring.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Footrest is difficult to close.	This is a characteristic of the manual mechanism; it requires firm pressure.	Apply firm, steady downward pressure with your legs on the footrest while leaning forward. Ensure no obstructions are present.
Chair feels unstable or wobbly.	Backrest not fully engaged; loose connections.	Ensure the backrest is fully seated and clicked into its brackets. Check and tighten any visible bolts or connections.
Reclining mechanism makes noise.	Lack of lubrication; minor friction.	Apply a small amount of silicone-based lubricant to the pivot points of the metal mechanism. Avoid oil-based lubricants.
Chair does not swivel smoothly.	Debris in swivel base; uneven floor.	Check the swivel base for any obstructions. Ensure the chair is on a flat, even surface.

7. SPECIFICATIONS
