## TIQLAB TIQLAB-SD-55x24-Maple

# TIQLAB 55x24 Inch Electric Standing Desk with Two Drawers (Maple)

Model: TIQLAB-SD-55x24-Maple | Brand: TIQLAB

## INTRODUCTION

Thank you for choosing the TIQLAB Electric Standing Desk. This manual provides comprehensive instructions for the safe assembly, operation, and maintenance of your new desk. Designed for ergonomic comfort and productivity, this adjustable height desk allows you to seamlessly switch between sitting and standing positions throughout your workday. Please read this manual thoroughly before beginning assembly or operation.

## SAFETY INFORMATION

- Always follow the assembly instructions carefully.
- Ensure the desk is placed on a level surface.
- Keep children and pets away from the desk during operation to prevent injury.
- Do not overload the desk. Refer to specifications for maximum weight capacity.
- Keep all cables organized and away from moving parts to prevent damage or entanglement.
- Disconnect power before cleaning or performing maintenance.

## PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

All components of the TIQLAB standing desk laid out for assembly, including desktop panels, legs, motor, control panel, and hardware.

- Desktop Panels (Splice Board)
- Adjustable Height Legs (2)
- Motor and Control Box
- Control Panel with LED Display
- Two Fabric Drawers with Leather Pulls
- Monitor Stand/Storage Shelf
- Adjustable Foot Pads (4)
- Desk Hooks (2)
- Assembly Hardware (screws, allen wrench)

---

## SETUP & ASSEMBLY

Assembly typically takes approximately 45 minutes. Follow the step-by-step instructions provided in the included assembly guide. A specialized L-shaped allen wrench is provided.

### Assembly Overview

## **OPERATING INSTRUCTIONS**

Your TIQLAB Electric Standing Desk features an intuitive control panel for easy height adjustment and personalized settings.

### **Height Adjustment & Memory Presets**

Close-up of the TIQLAB standing desk's multifunctional controller with LED screen display, up/down movement buttons, three memorable height presets, and anti-collision technology.

1. **Adjusting Height:** Use the **Up** (↑) and **Down** (↓) arrow buttons on the control panel to raise or lower the desk to your desired height. The current height is displayed on the LED screen.
2. **Setting Memory Presets:** The desk features three programmable memory presets. Adjust the desk to your preferred sitting or standing height. Press the **M** button, then press one of the numbered preset buttons (1, 2, or 3) to save the current height.
3. **Using Memory Presets:** To move the desk to a saved height, simply press the corresponding preset button (1, 2, or 3). The desk will automatically adjust to the programmed position.
4. **Anti-Collision Technology:** The desk is equipped with anti-collision technology. If the desk encounters an obstacle during adjustment, it will automatically stop and reverse slightly to prevent damage.

## MAINTENANCE & CARE

- Regularly check all screws and bolts to ensure they are tight.
- Clean the desktop surface with a soft, damp cloth. Avoid harsh chemicals.
- Keep the motor and electrical components free from dust and moisture.
- Do not place hot items directly on the desktop without protection.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Desk not adjusting height	Power cable disconnected; Overload; Motor error	Check power connection; Reduce weight on desk; Reset the motor (refer to full manual for specific reset procedures).

Problem	Possible Cause	Solution
Uneven height adjustment	Uneven load; Obstruction; Sensor issue	Distribute weight evenly; Check for obstructions; Contact customer support if issue persists.
Noise during operation	Loose screws; Normal operation sound	Tighten all assembly screws; Minor motor sound is normal (below 50dB).
