

VGR V-360 Professional

VGR V-360 Professional Blade Shaver

USER MANUAL

Product Overview

The VGR V-360 Professional Blade Shaver is a high-performance grooming tool designed for both wet and dry shaving. Featuring a dual-sided trimmer and an adjustable guide comb with 19 cutting lengths (0.1-9mm), it provides a precise and smooth shave every time. Its IPX6 waterproof design allows for easy use in the shower and quick cleaning under running water. With a powerful 500mAh lithium battery, the shaver offers up to 60 minutes of continuous use after just 1.5 hours of charging. The VGR V-360 is lightweight, durable, and comes with a USB charging cable, making it perfect for both home use and travel.

Key Features:

- **Dual-Sided Trimmer:** Provides efficient and precise trimming for a smoother shave.
- **19 Adjustable Lengths:** Customizable cutting length (0.1-9mm) for versatile grooming.
- **IPX6 Waterproof:** Safe for use in the shower and easy to clean under water.
- **500mAh Lithium Battery:** Offers up to 60 minutes of runtime after 1.5 hours of charging.
- **USB Charging:** Convenient charging with any USB port, perfect for on-the-go use.
- **Lightweight Design:** Compact and easy to handle for comfortable grooming.
- **Shaving in Wet or Dry Conditions:** Suitable for both dry and wet shaving with gel or foam.
- **Low Maintenance:** Simple cleaning and maintenance with a detachable guide comb.
- **User-Friendly LED Display:** Shows battery percentage and operational status for ease of use.

Safety Information

This product is suitable for use by individuals aged 8 and above, as well as those with reduced physical, sensory, or mental abilities, only if they are supervised or instructed on safe usage.

Package Contents

The package includes the VGR V-360 Professional Blade Shaver, an adjustable guide comb, USB charging cable, cleaning brush, and lubricating oil.

The VGR V-360 Professional Blade Shaver comes with essential accessories to ensure optimal performance and convenience. This includes the main shaver unit, an adjustable guide comb for varying cutting lengths, a USB charging cable for easy power replenishment, a cleaning brush to maintain hygiene, and lubricating oil for blade care.

Setup

- 1. Initial Charge:** Before first use, fully charge the shaver. Connect the USB charging cable to the shaver's charging port and plug the other end into a compatible USB power source (e.g., computer, wall adapter). The LED display will indicate charging status. A full charge takes approximately 1.5 hours.
- 2. Check Battery Level:** The user-friendly LED display shows the battery percentage. Ensure sufficient charge before use to avoid interruptions.
- 3. Attach Guide Comb (Optional):** For trimming or maintaining specific hair lengths, attach the adjustable guide comb. Align the comb with the shaver head and slide it into place until it clicks.

The LED display clearly shows the battery percentage and operational status.

Operating Instructions

To use the VGR V-360 Professional Blade Shaver, ensure it is clean and fully charged. Turn on the device by pressing the power button. This shaver can be used on both wet and dry skin, with or without shaving gel or foam, and is waterproof for easy use in the shower.

- 1. Shaving:** Place the blade flat against your skin, moving it in smooth strokes against the grain for a close shave. The dual-sided trimmer allows for precise edging and contouring.
- 2. Trimming:** For trimming, adjust the comb to your desired length setting (0.1-9mm) using the dial on the guide comb. Move the shaver slowly and evenly over the area to be trimmed.
- 3. Wet/Dry Use:** The IPX6 waterproof rating allows for comfortable use in the shower or with shaving cream/gel for a smoother experience. Always rinse the shaver head thoroughly after wet use.

The shaver features a dual-sided trimmer and is IPX6 waterproof for versatile use.

The adjustable guide comb allows for precise length settings from 0.1mm to 9mm.

Maintenance and Cleaning

Regular cleaning ensures optimal performance and extends the lifespan of your VGR V-360 shaver. The IPX6 waterproof design makes cleaning simple and efficient.

1. After Each Use:

- Turn off the shaver.
- Remove the guide comb (if attached).
- Rinse the shaver head and blades under running water. The IPX6 rating allows for thorough rinsing.
- Use the provided cleaning brush to remove any trapped hair from the blades and shaver body.
- Shake off excess water and allow the shaver to air dry completely before storing or recharging.

2. **Lubrication (Periodically):** Apply a small drop of the provided lubricating oil to the blades periodically (e.g., once a month or after every few uses) to maintain smooth operation and prevent wear. Turn on the shaver for a few seconds to distribute the oil.

3. **Storage:** Store the shaver in a cool, dry place, away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Shaver not turning on.	Low battery or no charge.	Charge the shaver for 1.5 hours. Check the LED display for battery status.

Problem	Possible Cause	Solution
Reduced cutting performance.	Blades are dirty or not lubricated.	Clean the blades thoroughly and apply lubricating oil.
Shaver feels hot during use.	Prolonged continuous use.	Turn off the shaver and allow it to cool down before resuming use.
Water entering the shaver body.	Improper sealing or damage.	Ensure all parts are properly assembled. If damage is suspected, discontinue use and contact customer support.
