## VEVOR JH-502

# VEVOR Portable Pickleball Net System JH-502 Instruction Manual

Model: JH-502 | Brand: VEVOR

## 1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your VEVOR Portable Pickleball Net System, Model JH-502. Please read this manual thoroughly before initial use to ensure proper setup and safe operation. Retain this manual for future reference.

The VEVOR Portable Pickleball Net System is designed for both recreational and competitive pickleball play. Its portable design allows for easy setup and transport, making it suitable for various locations including driveways, outdoor courts, indoor courts, and stadiums.

## 2. SAFETY INFORMATION

Always prioritize safety during assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Ensure all components are securely connected before use.
- Do not allow children to assemble the net system unsupervised.
- Place the net system on a flat, stable surface to prevent tipping.
- Inspect the net and frame for any damage before each use. Do not use if damaged.
- Keep hands and fingers clear of pinch points during assembly and disassembly.

## 3. PACKAGE CONTENTS

Verify that all components are present and undamaged upon opening the package. If any parts are missing or damaged, contact VEVOR customer support.

- 1 x Pickleball Net System (comprising frame poles and net)
- 1 x Carrying Bag

**VEVOR**

**22-feet standard size pickleball net**

Basic set suitable for all age groups

No tools required

Easy  
assembly

Lightweight  
& portable

Durable  
quality

The image above displays the full VEVOR Portable Pickleball Net System, including the net, frame components, and the dedicated carrying bag for transport and storage.

## 4. SETUP INSTRUCTIONS

The VEVOR Portable Pickleball Net System is designed for quick and easy assembly. Follow these steps to set up your net.

## 4.1 Unpacking and Component Identification

1. Remove all components from the carrying bag.
2. Lay out all frame poles and the net on a clean, flat surface.
3. Familiarize yourself with the different frame sections: side tubes, square tubes, middle support pole, and base components.

# EASY TO SET UP, USER-FRIENDLY

Quickly assemble the metal frame in minutes

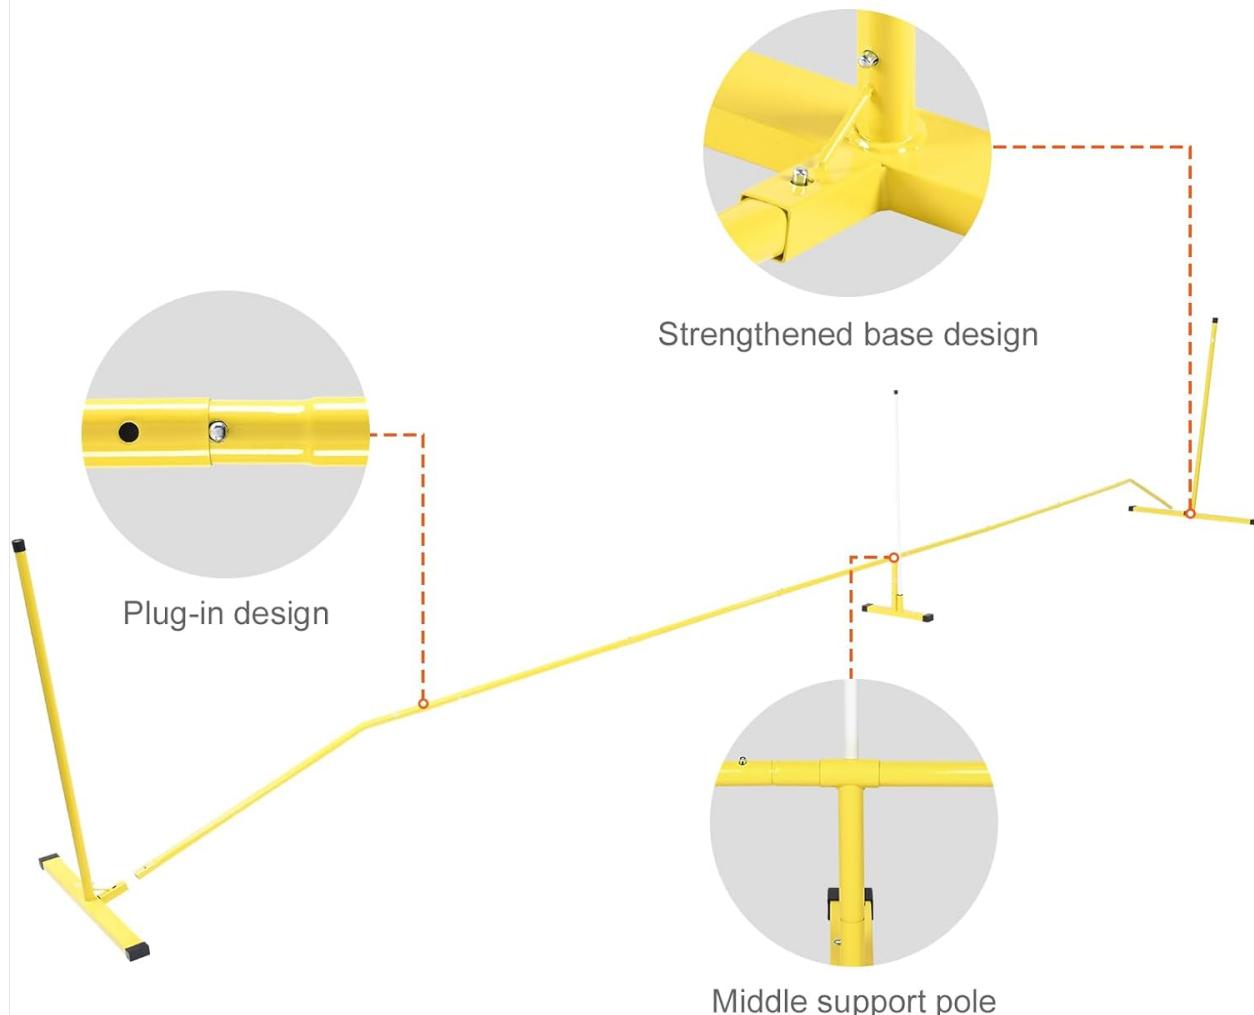

Figure 4.1: Individual components of the net system, including frame poles and net.

This image illustrates the various parts of the net system, including the yellow frame poles and the black net, before assembly.

## 4.2 Frame Assembly

1. Begin by connecting the base components. The frame utilizes a plug-in design for easy connection.
2. Assemble the main horizontal frame sections, ensuring all connections are secure.
3. Insert the vertical side tubes into the base.
4. Attach the middle support pole to the central horizontal section.

**5.66 kg/12.5 lbs**

Product Dimensions(LxWxH):  
**6726x605x928 mm**

We continue to be committed to provide you with cost-effective tools.  
"Save Half" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us.  
You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

Figure 4.2: Detailed view of the frame's plug-in design and strengthened base for stability during assembly.

The diagram highlights the plug-in connections for easy assembly and the reinforced base design that contributes to the net's overall stability.

### 4.3 Net Attachment

1. Drape the net over the assembled frame, ensuring the top edge is aligned with the top of the vertical poles.
2. Secure the net to the frame using the provided Velcro strips. Ensure the net is taut to prevent sagging.
3. Adjust the net tension as needed for optimal play.

The entire assembly process should take only a few minutes.

## 5. OPERATING INSTRUCTIONS

The VEVOR Portable Pickleball Net System is designed to meet regulation standards for pickleball play.

### 5.1 Standard Dimensions

This net system is a regulation 22-foot net, suitable for standard pickleball court dimensions. The net height at the posts is 36 inches, and the center support pole ensures a consistent net height of 34 inches in the middle, as per official rules.

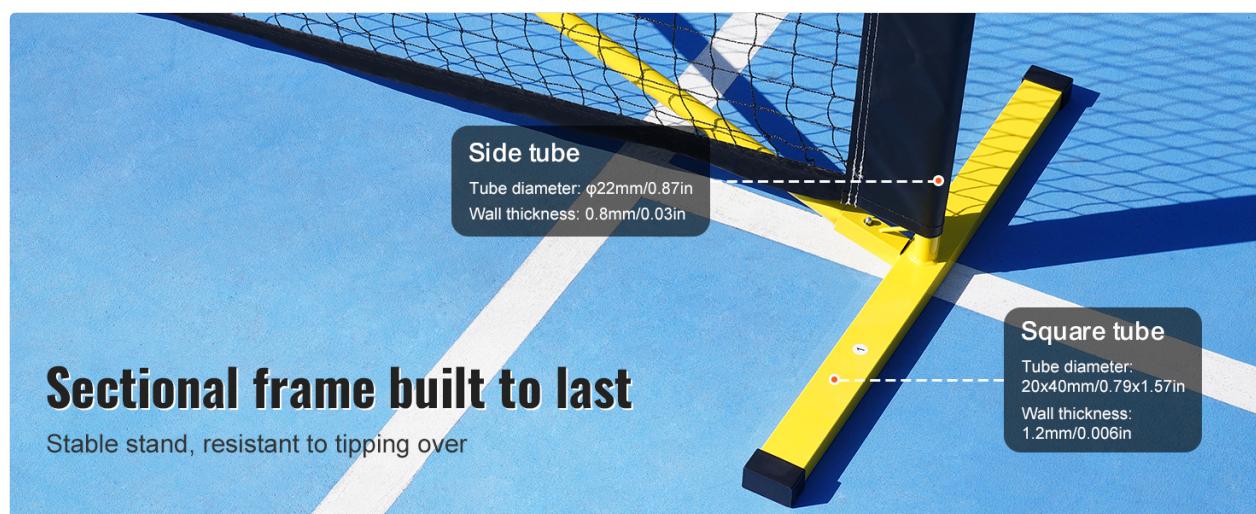

Figure 5.1: The pickleball net system with key dimensions: 22 ft length, 36 inches height at posts, and 34 inches center support pole height.

This image clearly labels the regulation dimensions of the net system, including its 22-foot length and 36-inch height at the posts, with a 34-inch center support.

## 5.2 Portability and Usage

The net system is highly portable and can be used in various settings. After use, disassemble the net and frame, and store all components in the provided carrying bag for easy transport.

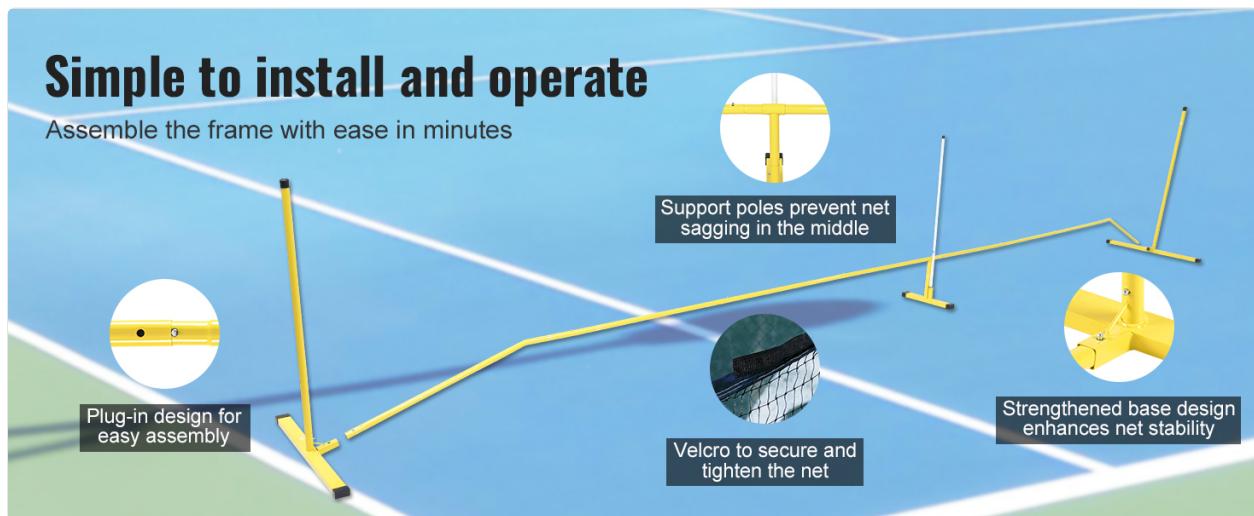

Figure 5.2: The portable net system in use, demonstrating its suitability for driveways, outdoor courts, indoor courts, and stadiums.

This image shows the versatility of the VEVOR net system, illustrating its use in different environments such as driveways, outdoor courts, indoor courts, and stadiums, emphasizing its portability.

## 6. MAINTENANCE

Regular maintenance will extend the lifespan of your VEVOR Portable Pickleball Net System.

- Cleaning:** Wipe down the frame poles with a damp cloth to remove dirt and debris. The net can be gently rinsed with water if needed.
- Inspection:** Periodically check all frame connections for tightness and inspect the net for any tears or damage.
- Storage:** When not in use, disassemble the net system and store it in the provided carrying bag in a dry, protected area to prevent exposure to extreme weather conditions.
- Durability:** The net is crafted from durable, wear-resistant material, designed to be wind and water-resistant. The netting features reinforced binding and a PE mesh design for tear resistance.

## Reinforced netting, tear-resistant

Easy to withstand intense impacts and outdoor elements

Rain-proof

Tear-free

Tightly braided

Figure 6.1: Close-up view detailing the robust construction of the net's reinforced fabric, fine mesh, and extended edging, designed for durability.

This image provides a detailed look at the net's construction, highlighting its strong fabric, fine mesh, and reinforced edging, which contribute to its tear-resistant and long-lasting qualities.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter with your pickleball net system.

Problem	Possible Cause	Solution
Net is sagging in the middle.	Net not taut enough; middle support pole not properly installed.	Ensure the middle support pole is correctly positioned and fully extended. Re-tension the net using the Velcro straps.
Frame feels unstable.	Connections are loose; not on a flat surface.	Check all plug-in connections to ensure they are fully engaged. Move the net system to a flat, level surface.
Difficulty disassembling.	Connections are tight.	Apply gentle, even pressure when pulling apart sections. Avoid twisting forcefully.

## 8. SPECIFICATIONS
