

## VOJSALDR DS 26V -103

# VOJSALDR 26V Charger for 22.2V Cordless Stick Vacuum Cleaners

Model: DS 26V -103

## 1. INTRODUCTION

---

This manual provides essential instructions for the safe and effective use of your VOJSALDR 26V charger. This charger is specifically designed to power and recharge 22.2V Li-ion batteries found in compatible cordless stick vacuum cleaners. Please read this manual thoroughly before use and retain it for future reference.

## 2. COMPATIBILITY

---

The VOJSALDR 26V charger is compatible with the following 22.2V Li-ion battery cordless stick vacuum cleaner models:

- FABULETTA FSV005
- VersLife S7 Plus
- YONNDER E1

**Important:** This charger is **ONLY** for 22.2V battery vacuum cleaners. It is **NOT** compatible with 25.9V or 29.6V battery vacuum cleaners. Always verify your vacuum cleaner's model number and required charger voltage before connecting.

### 3. SPECIFICATIONS

Feature	Specification
Input Voltage	100-240V AC, 50/60Hz
Output Voltage	26V Max
Output Current	0.4 Amps
Cable Length	1.8 meters (5.9 feet)
Connector Type	2-Pin
Material	Plastic
Item Weight	2.89 ounces
Model Number	DS 26V -103

## 4. SETUP AND USAGE

---

1. **Connect to Power:** Plug the charger's AC plug into a standard 100-240V wall outlet.
2. **Connect to Vacuum:** Insert the charger's 2-pin DC connector into the charging port of your compatible 22.2V cordless stick vacuum cleaner.
3. **Charging Indicator:** A green light on the charger or vacuum (depending on model) typically indicates that the device is charging.
4. **Full Charge:** Once the vacuum's battery is fully charged, disconnect the charger from the vacuum and then from the wall outlet.

## 5. SAFETY INFORMATION

Your VOJSALDR 26V charger is designed with multiple safety features to ensure reliable operation and protect your devices:

- **Over-voltage Protection:** Prevents damage from excessive voltage.
- **Short-circuit Prevention:** Protects against electrical shorts.
- **Over-current Protection:** Safeguards against excessive current flow.
- **Over-temperature Protection:** Monitors and regulates internal temperature.
- **Overcharge Protection:** Prevents battery damage from prolonged charging.
- **Overpower Protection:** Manages power output to prevent overload.

This replacement charger conforms to CE, FCC, and RoHS standards, ensuring a safe and reliable charging experience.

# Reliable Portable Power Station

-  Over Temperature Protection
-  Overcurrent Protection
-  Short Circuit Protection
-  Overcharge Protection
-  Overpower Protection
-  Overvoltage Protection

- Verify that the charger's DC connector is fully inserted into the vacuum's charging port.
- Confirm that your vacuum cleaner is a compatible 22.2V model (refer to Section 2).
- Ensure the vacuum's battery is not completely depleted or damaged.

If the problem persists after attempting these steps, please contact customer support.

## **8. WARRANTY AND SUPPORT**

---

Your VOJSALDR 26V charger comes with a 30-day refund policy and a 12-month worry-free exchange for manufacturing defects. For any questions, concerns, or support needs, please contact our friendly after-sales service team through your purchase platform. Please have your order details and product model number (DS 26V -103) ready when contacting support.
