## 1. INTRODUCTION

Thank you for choosing the Keter Quadra Outdoor Cabinet. This durable resin cabinet is designed for outdoor storage, offering a practical solution for organizing your garden tools, cleaning supplies, or other household items. Its robust construction ensures resistance to various weather conditions, making it suitable for long-term outdoor use. This manual provides essential information for the safe assembly, operation, maintenance, and troubleshooting of your new cabinet.

## 2. SAFETY INFORMATION

---

Please read all safety instructions carefully before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Assembly:** Always assemble the cabinet on a flat, stable surface. Ensure all components are present and undamaged before beginning assembly. Use appropriate personal protective equipment, such as gloves, if necessary.
- **Stability:** For optimal stability, place the cabinet on a level surface. If placed on uneven ground, the cabinet may become unstable.
- **Weight Capacity:** Do not overload shelves. Distribute weight evenly. Refer to the 'Specifications' section for maximum load capacity per shelf.
- **Children:** Keep children away from the assembly area. Do not allow children to climb on or play inside the cabinet.

- **Weather Conditions:** While designed for outdoor use, extreme weather conditions (e.g., strong winds) may require additional securing measures or temporary relocation.
- **Flammable Materials:** Do not store flammable, corrosive, or hazardous materials inside the cabinet.

## 3. SETUP AND ASSEMBLY

---

The Keter Quadra Outdoor Cabinet requires assembly. It is recommended that two people assemble the cabinet for ease and safety.

### 3.1. Before You Begin

- **Check Contents:** Unpack all components and verify against the parts list (usually found in the included assembly guide).
- **Tools Required:** Typically, a rubber mallet and a screwdriver (Phillips head) are sufficient for assembly.
- **Location:** Choose a flat, level surface for assembly and final placement.

### 3.2. Assembly Steps (General)

1. **Base Assembly:** Connect the side panels to the base unit, ensuring all tabs and slots align correctly. Use a rubber mallet to gently tap components into place if needed.
2. **Back Panel Installation:** Slide or snap the back panels into the designated grooves on the side panels.
3. **Shelf Installation:** Insert the adjustable shelves into the desired positions. The cabinet features multiple shelf supports for flexible storage configurations.
4. **Top Panel Attachment:** Secure the top panel to the assembled sides and back.
5. **Door Attachment:** Attach the doors to the cabinet frame using the provided hinges. Ensure the doors swing freely and close properly.
6. **Handle Installation:** Secure the handles to the doors.

For detailed, step-by-step visual instructions, please refer to the assembly manual included in the product packaging.

## 4. OPERATING THE CABINET

---

The Keter Quadra Outdoor Cabinet is designed for straightforward use.

- **Opening/Closing Doors:** Use the integrated handles to open and close the cabinet doors. Ensure doors are fully closed to protect contents from elements.
- **Adjusting Shelves:** The cabinet features adjustable shelves. To reposition a shelf, remove all items, lift the shelf, and reinsert it into the desired slot. Ensure the shelf is level and securely seated before placing items on it.
- **Loading Items:** Distribute weight evenly across shelves. Place heavier items on lower shelves to maintain stability. Do not exceed the maximum weight capacity per shelf.

## 5. CARE AND MAINTENANCE

---

Proper care will extend the life and appearance of your Keter Quadra Outdoor Cabinet.

- **Cleaning:** Clean the cabinet regularly with a mild soap and water solution. Use a soft cloth or sponge. Avoid abrasive cleaners, brushes, or scouring pads, as these can damage the resin surface. Rinse thoroughly with clean water.
- **Stains:** For stubborn stains, a non-abrasive household cleaner can be used, followed by thorough rinsing.
- **Weather Protection:** The cabinet is made of durable resin and is designed to be weather-resistant. However, during prolonged periods of extreme weather (e.g., heavy snow, ice, or intense heat), it is advisable to periodically check the cabinet's condition and clear any accumulated debris.
- **Lubrication:** If hinges become stiff over time, a silicone-based lubricant can be applied sparingly.

## 6. TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Cabinet is wobbly/unstable.	Uneven ground; components not fully engaged.	Ensure the cabinet is placed on a flat, level surface. Check all connections and gently tap components with a rubber mallet to ensure they are fully seated.
Doors do not close properly.	Cabinet not level; hinges misaligned; obstruction.	Verify the cabinet is level. Check hinge alignment and adjust if possible. Remove any items obstructing the door's path.
Missing parts during assembly.	Packaging error.	Contact Keter customer support with your product model number and a description of the missing part.

Problem	Possible Cause	Solution
Shelves sag or are not level.	Overloaded; improperly installed.	Reduce weight on the shelf. Ensure the shelf is correctly seated in all four support slots.
