1. INTRODUCTION

The Graco EasyTurn 360 2-in-1 Convertible Car Seat is designed to provide safety and convenience for your child from infancy through toddlerhood. This car seat supports children from 4 to 65 lb, adapting to their growth with both rear-facing and forward-facing modes. Its key feature is the 360-degree rotation, allowing for easy placement and removal of your child.

This manual provides essential information for the correct installation, operation, and maintenance of your Graco EasyTurn 360 car seat. Please read all instructions carefully before use to ensure your child's safety and the proper function of the product.

2. SETUP AND INSTALLATION

Proper installation is crucial for your child's safety. Always refer to your vehicle's owner's manual for specific car seat installation instructions and locations.

2.1. Choosing the Correct Mode

The Graco EasyTurn 360 offers two modes of use:

- **Rear-Facing Harness:** For infants weighing 4-40 lb.
- **Forward-Facing Harness:** For toddlers weighing 26.5-65 lb.

Ensure the car seat is configured for the appropriate mode based on your child's weight and height. Always keep children rear-facing for as long as possible, up to the maximum weight and height limits of the car seat.

Safe rides at every turn 4–65 lb

**Rear-Facing
Harness**
4–40 lb

**Forward-Facing
Harness**
26.5–65 lb

2.2. Installation Methods

The car seat can be installed using either your vehicle's seat belt or the LATCH system.

- **SnugLock Technology:** This system facilitates quick and easy installation in less than one minute, whether using the vehicle seat belt or LATCH.
- **InRight LATCH:** Provides a secure, one-second attachment with an audible click to confirm proper connection. When not in use, store the InRight LATCH connectors in the designated storage compartment.

An easy-to-read level indicator is integrated to assist in eliminating guesswork during installation, ensuring the correct recline angle.

***Ace the install –
SnugLock® makes it easy!***

2.3. Harness and Headrest Adjustment

The 10-position No-Rethread Simply Safe Adjust Harness System allows you to adjust the height of both the headrest and harness simultaneously with one motion, ensuring a proper fit as your child grows.

3. OPERATING INSTRUCTIONS

3.1. 360-Degree Rotation

The EasyTurn 360 car seat features a one-hand 360-degree rotation mechanism. This allows you to turn the seat towards the car door for easy placement and removal of your child, whether in rear-facing or forward-facing mode. Always listen for a "click" to confirm the seat is securely locked back into a safe, forward or rear-facing position before driving.

Image 3.1: A parent utilizing the 360-degree rotation feature to comfortably place a child into the car seat.

3.2. Securing Your Child

- Place your child in the seat and pull the harness straps over their shoulders.
- Buckle the chest clip and crotch buckle.
- Tighten the harness until it is snug against your child's body, ensuring you cannot pinch any excess webbing at the shoulder.
- Position the chest clip at armpit level.

Fuss-free harness storage pockets are included to conveniently hold the harness straps out of the way when placing your child in or taking them out of the seat.

3.3. Recline Positions

The car seat offers a 4-position recline that smoothly adjusts. This feature aids in achieving proper installation angles and enhances your child's comfort during travel.

3.4. Cup Holders

Two easy-to-clean cup holders are integrated into the design, keeping drinks and snacks accessible for your child.

4. MAINTENANCE AND CARE

Regular cleaning and maintenance will help prolong the life of your car seat and ensure continued hygiene for your child.

4.1. Cleaning Instructions

- **Fabric Covers and Pads:** Refer to the care tag on the fabric for specific washing instructions. Most fabric covers are machine washable on a delicate cycle with cold water and mild detergent. Air dry only.
- **Harness Straps:** Wipe with a damp cloth. Do not machine wash, bleach, or iron harness straps, as this can weaken them.
- **Buckles:** Clean with a damp cloth. If the buckle is sticky, rinse it under warm water without using soaps or detergents.
- **Plastic and Metal Parts:** Wipe with a damp cloth and mild soap.
- **Cup Holders:** The cup holders are removable for easy cleaning.

4.2. Storage

Store the car seat in a cool, dry place away from direct sunlight when not in use for extended periods.

Image 4.1: An annotated view of the car seat, pointing out features like removable plush infant head and body supports, and easy-clean cup holders.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Graco EasyTurn 360 car seat.

Problem	Possible Cause	Solution
Car seat feels loose after installation.	Improper tightening of seat belt or LATCH strap.	Ensure the seat belt or LATCH strap is pulled tightly, removing all slack. The car seat should not move more than 1 inch side-to-side or front-to-back at the belt path. Re-check the level indicator.
Harness straps are difficult to loosen or tighten.	Strap webbing may be twisted or the release button is not fully depressed.	Ensure harness straps are not twisted. Fully depress the harness release button while pulling the straps to loosen. For tightening, pull the harness adjustment strap firmly.

Problem	Possible Cause	Solution
Seat does not rotate smoothly or locks in place.	Obstruction under the seat or rotation mechanism is not fully engaged/disengaged.	Check for any debris or obstructions around the base. Ensure the rotation lever is fully engaged or disengaged when attempting to rotate or lock the seat. Listen for the 'click' to confirm locking.
Chest clip slides down.	Improper chest clip positioning.	Always position the chest clip at armpit level to keep the shoulder straps correctly placed.

If you continue to experience issues, please refer to the full product manual or contact Graco customer support.

6. PRODUCT SPECIFICATIONS

Below are the technical specifications for the Graco EasyTurn 360 2-in-1 Convertible Car Seat:

Feature	Detail
Product Dimensions	21.85 x 18.15 x 26.5 inches
Item Weight	30.8 pounds
