PACKAGE CONTENTS

Upon opening the package, please verify that all items are present:

- ZIYOU LANG FREEWOLF M68 TKL Wireless Gaming Keyboard
- USB-C Charging Cable
- USB 2.4G Wireless Receiver (located in the back of the keyboard)
- Keycap Puller
- User Manual (in 8 languages)

SETUP

1. Charging the Keyboard

Before initial use, fully charge the keyboard using the provided USB-C cable. Connect the USB-C end to the keyboard's charging port and the USB-A end to a power source (e.g., computer USB port, USB wall adapter). Avoid using fast chargers to protect the battery life.

Image: Detailed view of the keyboard's connectivity options, including the Type-C charging port, 2.4G wireless connection switch, wired connection, and Bluetooth connection switch.

2. Connecting the Keyboard

The M68 TKL keyboard supports three connection modes:

- **2.4GHz Wireless Mode:**

1. Locate the USB 2.4G receiver stored in the back compartment of the keyboard.
2. Plug the receiver into an available USB port on your computer.
3. Switch the keyboard's mode selector to 2.4G. The keyboard should connect automatically.

- **Bluetooth 5.1 Mode:**

1. Switch the keyboard's mode selector to Bluetooth (BT).
2. On your device (computer, tablet, smartphone), enable Bluetooth and search for new devices.
3. Press and hold the **FN + E**, **FN + R**, or **FN + T** keys for 10 seconds to enter pairing mode for device 1, 2, or 3 respectively. The indicator light will flash.
4. Select "M68 Keyboard" (or similar) from the list of available Bluetooth devices on your device to pair.

- **USB-C Wired Mode:**

1. Connect the USB-C cable to the keyboard and the USB-A end to your computer.
2. The keyboard will automatically switch to wired mode.

Image: Illustration of the three smart connection modes: Wired for stable and reliable connection, 2.4GHz for wireless freedom, and BT 5.0 for effortless connection.

The keyboard is compatible with Windows, Mac, and Linux operating systems.

OPERATING INSTRUCTIONS

FN Key Functions

The keyboard features various multimedia and control functions accessible via the FN key combinations:

- **FN + ESC:** Switch to F1-F12 function keys.
- **FN + \:** Switch backlight effects.
- **FN + ↑:** Increase backlight brightness.
- **FN + ↓:** Decrease backlight brightness.
- **FN + ←:** Slow down light effect speed.
- **FN + →:** Speed up light effect speed.
- **FN + Backspace (long press):** Restore factory settings.
- **FN + E/R/T (long press for 10s):** Bluetooth pairing for device 1/2/3.

Image: Visual guide for FN key combinations to switch light modes, adjust brightness, and control the speed of lighting effects.

Ergonomic Adjustment

The keyboard features a two-level adjustable stand, allowing you to choose between three different typing angles (5° and 8°) for improved comfort and reduced wrist strain during extended use.

DISEÑO PORTÁTIL

Ajuste de altura en modo dual

Image: Portable design with dual-mode height adjustment, showing the keyboard at 5° and 8° angles for ergonomic comfort.

Long Battery Keyboard

Image: Double-layered tripod design, allowing users to choose between 5 and 8-degree tilt angles for personalized ergonomic comfort.

MAINTENANCE

Cleaning

To clean the keyboard, power it off and disconnect it from any devices. Use a soft, dry cloth to wipe the surface. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the keyboard. The included keycap puller can be used to remove keycaps for deeper cleaning.

Battery Care

The keyboard is equipped with a 2000mAh rechargeable battery. To prolong battery life:

- Avoid using fast charging adapters.
- Do not expose the keyboard to extreme temperatures.
- If storing for a long period, charge the battery to about 50% and store in a cool, dry place.

TROUBLESHOOTING

• Keyboard not responding:

- Ensure the keyboard is charged.
- Check the connection mode (2.4G, BT, Wired) and ensure it matches your device.
- For 2.4G, ensure the USB receiver is properly plugged in.
- For Bluetooth, ensure the keyboard is paired and selected on your device. Try re-pairing if necessary.
- Try connecting via USB-C cable to rule out wireless issues.

• Lag or disconnection in wireless mode:

- Ensure the keyboard is within range of the receiver/device.
- Reduce interference from other wireless devices.
- Ensure the keyboard battery is sufficiently charged.

• Backlight not working or incorrect:

- Use FN key combinations to adjust brightness and switch lighting effects (refer to "Operating Instructions").
- Ensure the keyboard battery is charged, as low battery can affect backlight performance.

• Keys not registering or ghosting:

- Clean under the keycaps for any debris.
- Try restoring factory settings by long-pressing **FN + Backspace**.
