ZMYUXME zmy655

ZMYUXME Capsule Collection Tray Instruction Manual

For Delonghi Nespresso Pixie EN125 and EN125.R Coffee Machines

1. INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your ZMYUXME Capsule Collection Tray. This accessory is designed to collect used Nespresso capsules, ensuring a tidy coffee preparation area.

Compatibility: This capsule collection tray is compatible with Delonghi Nespresso Pixie models EN125 and EN125.R, including variants such as EN125.L, EN125.S, EN126, EN124 S, EN124 SAE, EN124.R, EN124.RAE, EN124.S, EN124.SAE, EN125.A, EN125.M, EN125.MAE, EN125.RAE, EN125.SAE, EN125S, EN125SAE, and EN126.AE.

2. PRODUCT OVERVIEW

The ZMYUXME Capsule Collection Tray is a clear, compact, and durable accessory designed to seamlessly integrate with your compatible Nespresso Pixie machine. It features a ribbed interior to guide and store used capsules efficiently.

Image 2.2: Angled view of the capsule collection tray, highlighting its compact design and the internal structure for capsule retention.

3. SETUP

Follow these steps to properly install the capsule collection tray with your Nespresso Pixie machine:

1. **Unpack:** Carefully remove the capsule collection tray from its packaging. Inspect for any damage.
2. **Locate Slot:** Identify the designated slot or area on your Delonghi Nespresso Pixie machine where the original capsule collection tray is typically inserted. This is usually located behind the brewing unit.
3. **Insert Tray:** Gently slide the ZMYUXME Capsule Collection Tray into the slot until it is securely in place. Ensure it sits flush and does not obstruct any other machine functions.
4. **Verify Fit:** Confirm that the tray is stable and properly aligned to receive used capsules.

4. OPERATING INSTRUCTIONS

Once installed, the capsule collection tray operates automatically with your Nespresso machine:

1. **Brew Coffee:** Insert a fresh Nespresso capsule into your machine and brew your coffee as usual.
2. **Capsule Ejection:** After brewing, when the machine ejects the used capsule, it will fall directly into the ZMYUXME collection tray.
3. **Monitor Capacity:** Periodically check the tray to see how many capsules have accumulated. The transparent design allows for easy visual inspection.
4. **Empty Tray:** When the tray is full, or as desired, carefully pull it out from the machine. Dispose of the used capsules responsibly.
5. **Reinsert:** Slide the empty tray back into its position in the machine.

5. MAINTENANCE AND CLEANING

Regular cleaning will ensure hygiene and prolong the life of your capsule collection tray:

1. **Remove Tray:** Pull the collection tray out from the Nespresso machine.
2. **Empty Contents:** Dispose of all used coffee capsules.
3. **Rinse:** Rinse the tray under warm running water.
4. **Clean:** Use a mild dish soap and a soft sponge or cloth to clean the interior and exterior surfaces. Pay attention to any coffee residue.
5. **Rinse Thoroughly:** Ensure all soap residue is removed by rinsing thoroughly with clean water.
6. **Dry:** Allow the tray to air dry completely or wipe it with a clean, dry cloth before reinserting it into the machine.

Note: Do not use abrasive cleaners or scouring pads, as these can scratch the surface of the tray.

Image 5.1: Top-down view of the capsule collection tray, showing the opening where capsules are deposited and the internal ridges.

6. TROUBLESHOOTING

If you encounter any issues with your capsule collection tray, refer to the following common problems and solutions:

- **Tray does not fit:**

- Ensure your Nespresso machine model is listed as compatible (Delonghi Nespresso Pixie EN125 or EN125.R series).
- Verify the tray is oriented correctly before insertion.

- **Capsules are not falling into the tray:**

- Check if the tray is fully inserted and properly aligned with the capsule ejection mechanism of your machine.
- Ensure there are no obstructions preventing capsules from falling freely.

- **Tray is difficult to remove or insert:**

- Ensure the tray is empty before attempting to remove it, as a full tray can be heavier and more difficult to handle.
- Clean the tray and the machine's slot to remove any sticky residue that might be causing friction.

7. SPECIFICATIONS

Feature	Detail
Model Number	zmy655
Compatibility	Delonghi Nespresso Pixie EN125, EN125.R (and variants)
Material	Clear Plastic
Package Dimensions	1.18 x 0.79 x 0.39 inches
Item Weight	1.76 ounces (50 Grams)
