ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults and can be completed in approximately one hour. Refer to the included assembly manual for step-by-step diagrams and detailed instructions.

1. **Unpack and Identify Parts:** Lay out all components and hardware. Compare them against the parts list in your manual.
2. **Assemble the Metal Frame:** Connect the main metal frame sections. Ensure all bolts are securely tightened for stability.
3. **Attach Headboard Components:** Secure the headboard panels and the top shelf with the charging station.
4. **Install Slats:** Place and secure the bed slats onto the frame. The design supports a mattress directly, eliminating the need for a box spring.
5. **Insert Storage Drawers:** Slide the four wheeled drawers into their designated positions under the bed frame.
6. **Connect Charging Station:** Plug the charging station's power cord into a wall outlet.

Integrated Charging Station

The headboard includes a built-in charging station with two USB ports and one Type C port. Connect your devices to these ports for convenient charging. Ensure the bed frame's main power cord is plugged into a functional wall outlet for the charging station to operate. The charging station is ETL certified for safety.

MAINTENANCE

Regular maintenance will help prolong the life of your bed frame.

- **Cleaning:** Wipe down wooden and metal surfaces with a soft, damp cloth. Avoid harsh chemicals that may damage the finish. For upholstered parts, spot clean with a mild fabric cleaner as needed.
- **Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent noise.
- **Drawer Care:** Keep the drawer wheels free of debris to ensure smooth operation.

TROUBLESHOOTING

If you encounter any issues, refer to the following common solutions:

- **Bed Frame Squeaks/Noise:** Ensure all assembly bolts are fully tightened. Over time, bolts can loosen, causing noise. Re-tighten all connections.
- **Charging Station Not Working:** Verify that the bed frame's power cord is securely plugged into a functional wall outlet. Check if the device you are trying to charge is properly connected to the USB/Type C port.
- **Drawers Sticking/Not Rolling Smoothly:** Check for any obstructions under the bed or in the drawer tracks. Clean the wheels and ensure they are free of hair or debris.
- **Headboard Panels Not Closing Properly:** Ensure nothing is obstructing the closing mechanism of the hidden storage compartments.
