Bestbase TREE01

Bestbase Advent Calendar 2025 Christmas Tree Building Toy Set with LED Light Instruction Manual

Model: TREE01

1. INTRODUCTION

This manual provides detailed instructions for the assembly and use of your Bestbase Advent Calendar 2025 Christmas Tree Building Toy Set with LED Light. This set offers a unique 24-day building experience, culminating in a festive Christmas tree display.

Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building process.

2. PRODUCT COMPONENTS

Your Advent Calendar set includes the following:

- 24 individually numbered boxes, each containing building blocks for a specific day's assembly.
- Building blocks for constructing the Christmas tree structure and various decorative elements.
- An LED light set to illuminate your completed Christmas tree.
- Detailed instruction manual for daily assembly.

3. SETUP INSTRUCTIONS

The Bestbase Advent Calendar is designed for a daily building experience from December 1st to December 24th.

1. **Unpacking:** Carefully open the main Advent Calendar box. You will find 24 smaller, numbered boxes inside.
2. **Daily Assembly:** Starting on December 1st, open the box corresponding to the current date. Each box contains a portion of the building blocks and specific instructions for that day's segment.
3. **Follow Instructions:** Refer to the included detailed instructions for each day's build. Pay close attention to the diagrams and step-by-step guidance to correctly assemble each part.
4. **Progressive Building:** Each day's build contributes to the overall Christmas tree structure and its decorations. By December 24th, all segments will combine to form the complete Christmas tree.

❄️ Advent Calendar Countdown to Christmas ❄️

Start from December 1st

Half done! Keep going!

Complete a part per day

Form a complete Christmas tree

4. OPERATING INSTRUCTIONS (LED LIGHT)

The Bestbase Christmas Tree Building Toy Set includes an LED light string to enhance its festive appearance.

1. **Installation:** Integrate the LED light string into the Christmas tree structure as indicated in the daily assembly instructions. Ensure the wiring is neatly tucked away and does not interfere with the stability of the tree.
2. **Power Source:** The LED light set typically operates on small batteries (not included). Locate the battery compartment, usually on the base or a designated section of the light string. Insert the required batteries, ensuring correct polarity.
3. **Activation:** Once batteries are installed, locate the ON/OFF switch on the LED light string. Toggle the switch to the 'ON' position to illuminate the Christmas tree.
4. **Deactivation:** To turn off the lights, toggle the switch to the 'OFF' position. Remove batteries if the set will not be used for an extended period to prevent leakage.

5. MAINTENANCE

- **Cleaning:** To clean the assembled Christmas tree, gently wipe it with a dry, soft cloth. Avoid using harsh chemicals or abrasive materials, as these may damage the plastic blocks or LED components.
- **Storage:** When not in use, store the building set in a cool, dry place, away from direct sunlight and extreme temperatures. Disassemble the tree if desired for compact storage, or store it fully assembled as a decorative piece.
- **Battery Care:** For the LED lights, regularly check the batteries. Replace them when the light dims. If storing the set for an extended period, remove the batteries to prevent corrosion.

6. TROUBLESHOOTING

Issue	Possible Cause	Solution
Missing building pieces or instructions.	Packaging error or oversight during manufacturing.	Contact Bestbase customer support immediately for free replacements. Refer to the "Warranty and Support" section.
Difficulty assembling a specific section.	Instructions may be condensed or require careful interpretation.	Review the daily instructions carefully, paying close attention to the visual diagrams. Ensure all pieces are oriented correctly. If difficulty persists, try re-examining previous steps.
LED lights are not turning on.	Incorrect battery installation, dead batteries, or switch is off.	Check that batteries are inserted with correct polarity. Replace with fresh batteries. Ensure the ON/OFF switch is in the 'ON' position.
Assembled tree is unstable.	Pieces not fully connected or incorrect assembly step.	Ensure all building blocks are firmly pressed together. Review the assembly steps for the base and lower sections to confirm correct construction.

7. SPECIFICATIONS

Brand: Bestbase

Model Number: TREE01

Material: Plastic (Durable ABS recycled material)

Number of Items: 24 (daily building segments)

Item Weight: Approximately 2.51 pounds

Package Dimensions: Approximately 15 x 9.96 x 3.46 inches

Assembled Tree Height: Approximately 10.7 inches

Assembled Tree Base Diameter: Approximately 5.7 inches

Features: LED light set included

Christmas Building Set Size
