- For spills, clean immediately with a dry cloth to prevent moisture absorption.

Frame Care:

- The powder-coated metal frame can be cleaned with a damp cloth.

- Inspect all bolts and connections periodically and tighten if necessary to maintain stability.

TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following common solutions:

Desk Instability/Wobbling:

- **Check Assembly:** Ensure all screws and bolts are securely tightened according to the assembly instructions.
- **Level Surface:** Verify that the desk is placed on a flat, level surface. Uneven flooring can cause wobbling.
- **Foot Pads:** Confirm that the anti-slip foot pads are properly installed and making full contact with the floor. Adjust if necessary.
- **Weight Distribution:** Ensure weight is evenly distributed on the desktop and shelves. Avoid placing heavy items predominantly on one side.

Drawers Not Sliding Smoothly:

- **Check Alignment:** Ensure the drawer slides are correctly aligned and installed.
- **Obstructions:** Remove any debris or objects that might be obstructing the drawer's movement.

- Refer to the parts list in your assembly manual. If any parts are missing or damaged upon arrival, please contact customer service immediately.
