PRODUCT OVERVIEW

The Mornwell Cordless Water Dental Flosser is designed for effective oral hygiene, featuring multiple modes and interchangeable tips to suit various needs.

Image: A detailed view of the flosser's control panel, indicating Soft, Normal, Shoot, Pulse, and Custom modes, along with the detachable 300ml water tank.

SETUP

1. Charging the Device

1. Connect the USB charging cable to the charging port on the device.

2. Plug the other end of the USB cable into a compatible USB power adapter (not included) or a USB port.

3. The battery indicator lights will illuminate during charging. A full charge typically takes 3 hours and provides up to 40 days of use.

EASY TO CARRY FOR CRUISE SHIP AND BUSINESS TRIP

Travel Carry

110V–220V Wide Voltage

Image: The water flosser can be charged using a USB cable from various power sources, including laptops, power banks, wall adapters, and car chargers.

2. Attaching a Nozzle

1. Select the desired jet tip for your cleaning needs.

2. Insert the stem of the jet tip into the opening at the top of the flosser handle until it clicks into place.

3. To remove, press the release button on the side of the handle and pull the tip out.
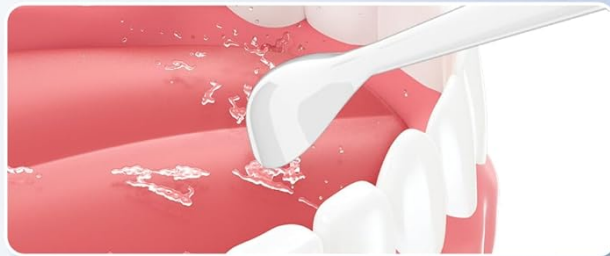

5 Jet Tips for Different Needs

2 Standard Tips
Ultra-fine jet stream
For daily cleaning teeth and gumline

1 Ultrasonic Tip
Ultrasonic vibrations with water flow
For plaque removal and deep gum care

1 Tongue Cleaner Tip
Gentle water flow
For cleaning tongue surface and fresh breath

1 U-sharped Tip
Curved water stream
For cleaning around braces and wires

3. Filling the Water Tank

1. Open the water tank cover located on the side of the device.

2. Fill the 300ml tank with lukewarm water. Distilled water is recommended to prevent mineral buildup.

3. Close the water tank cover securely to prevent leaks.

4. Alternatively, the entire bottom of the tank can be detached for easier filling and cleaning.

OPERATING INSTRUCTIONS

1. Powering On and Off

1. Press the power button to turn the device on.
2. Press the power button again to turn the device off.

2. Selecting a Mode

1. With the device on, press the mode button to cycle through the available cleaning modes:
   - **Soft:** For beginners and sensitive teeth.
   - **Normal:** For daily cleaning.
   - **Shoot:** For stubborn debris and deep cleaning.
   - **Pulse:** For gum massage.

- **Custom:** Allows for personalized water pressure adjustment.

2. The selected mode will be indicated by an illuminated light on the control panel.

3. The device features a memory function that saves your last used setting.

Image: The flosser offers five distinct modes: Soft, Normal, Shoot, Pulse, and a Custom mode for personalized pressure settings.

3. Using the Water Flosser

1. Lean over a sink and place the jet tip into your mouth, aiming it at the gumline at a 90-degree angle.

2. Turn on the device.

3. Guide the water stream along your gumline, pausing briefly between teeth.

4. Allow the water to flow into the sink.

5. Continue until all areas have been cleaned or the water tank is empty.

MAINTENANCE

1. Cleaning the Water Tank

1. After each use, empty any remaining water from the tank.
2. Detach the bottom of the water tank and rinse it thoroughly with water.
3. Allow the tank to air dry before reassembling.

2. Cleaning the Jet Tips

1. Remove the jet tip from the device.
2. Rinse the tip under running water.
3. Replace jet tips every 3-6 months, or sooner if they become worn.

3. Cleaning the Main Unit

1. Wipe the exterior of the device with a soft, damp cloth.
2. Do not use abrasive cleaners or harsh chemicals.
3. The device is IPX7 waterproof, allowing for safe rinsing under a faucet, but ensure the charging port cover is sealed.
