TROUBLESHOOTING

- **Missing Parts:** If any parts or hardware are missing, do not attempt to substitute them. Contact FAMAPY customer service immediately for replacements.
- **Parts Not Aligning:** Carefully review the assembly instructions for the specific step. Ensure that you are using the correct parts and that they are oriented correctly. Sometimes, a slight adjustment or loosening of adjacent screws can help align components.
- **Hanging Rod Holes Missing/Incorrect:** If you find that holes for hanging rods are missing or incorrectly drilled, or if a critical part like a support bracket is not securely held, this may indicate a manufacturing defect. Stop assembly and contact FAMAPY customer service with details and photos of the issue.
- **Back Panels Not Aligning:** Ensure the main frame of the wardrobe is square and level before attaching the back panels. Gently adjust the frame if needed. The back panels may require careful alignment and gentle pressure to fit correctly.
- **Wobbly Wardrobe:** Ensure all screws and fasteners are fully tightened. Check that the wardrobe is placed on a level surface. If necessary, use furniture levelers (not included) under the base to stabilize it.
