*Video 1: Demonstrates the AI Noise Cancellation feature of the headset, highlighting its effectiveness in noisy environments.*

## 4. SETUP

### 4.1 Charging the Headset

1. Connect the USB-C charging cable to the charging port on the base.
2. Plug the other end of the cable into a USB power source (e.g., computer, wall adapter).
3. Place the headset onto the charging base. The indicator light on the base will illuminate to show

charging status.

4. A full charge takes approximately 2 hours. The indicator light will change color or turn off when fully charged.

*Image 4: The headset placed on its charging base, illustrating the charging process and the integrated storage for the USB dongle.*

## **4.2 Connecting via Bluetooth**

1. Ensure the headset is powered on.
2. Activate Bluetooth on your device (e.g., smartphone, laptop).
3. Search for "LEVN CT001" in the list of available Bluetooth devices.
4. Select the headset to pair. A voice prompt will confirm successful connection.

## **4.3 Connecting via USB Dongle**

1. Retrieve the USB dongle from its storage slot on the charging base.
2. Plug the USB dongle into an available USB port on your computer.
3. Power on the headset. The headset and dongle will automatically pair.
4. Once paired, the headset will be ready for use.

support for Bluetooth and USB dongle

## 2 CONNECTION OPTIONS

*Image 5: The headset positioned on a desk, showcasing its compatibility with both laptops (via USB dongle) and smartphones (via Bluetooth).*

### Bluetooth Connection Demonstration:

Your browser does not support the video tag.

*Video 2: A user demonstrates the Bluetooth connection process and highlights the headset's features.*

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off

- To Power On: Slide the power switch to the "ON" position.
- To Power Off: Slide the power switch to the "OFF" position.

### 5.2 Mute Function

- To Mute: Press the dedicated mute button on the microphone boom.
- To Unmute: Press the mute button again.

### 5.3 Volume Control

- Volume Up: Rotate the volume dial clockwise.
- Volume Down: Rotate the volume dial counter-clockwise.

## 5.4 Answering/Ending Calls

- To Answer a Call: Press the Multi-Function Button (MFB).
- To End a Call: Press the MFB again.
- To Reject a Call: Press and hold the MFB for 2 seconds.

## 5.5 Microphone Adjustment

- The microphone boom can be rotated 270 degrees to position it on either the left or right side for user preference.

## Headset Usage Overview:

*Video 3: A user provides a review and demonstrates how to use the LEVN Wireless Headset, including its various functions.*

## 6. MAINTENANCE

---

- Clean the headset regularly with a soft, dry cloth.
- Avoid exposing the headset to extreme temperatures, moisture, or corrosive substances.
- Store the headset on its charging base or in a safe place when not in use to prevent damage.

## 7. TROUBLESHOOTING

---

### 7.1 No Power

- Ensure the headset is fully charged. Connect it to the charging base and verify the charging indicator.
- Check the power switch position.

### 7.2 Cannot Pair/Connect

- For Bluetooth: Ensure Bluetooth is enabled on your device and the headset is in pairing mode. Try restarting both devices.
- For USB Dongle: Ensure the dongle is securely plugged into a working USB port. Try unplugging and re-plugging the dongle.
- Verify the headset is within the effective connection range (up to 49 feet).

### 7.3 Poor Audio Quality

- Check the volume settings on both the headset and your connected device.
- Ensure the microphone is properly positioned near your mouth.
- Move closer to your connected device to improve signal strength.
- Minimize background noise in your environment to optimize AI Noise Cancellation performance.

## 8. SPECIFICATIONS

---

Feature	Specification
Model Name	CT001
Connectivity Technology	Wireless (Bluetooth 5.2)
