4.3.1 2.4GHz Wireless Connection (Recommended for Gaming)

This method provides ultra-low latency for an optimal gaming experience.

1. Power on your Tatybo WT5 headset by long-pressing the ON/OFF button.
2. Insert the 2.4GHz USB-A wireless dongle into an available USB port on your PC, PS4, PS5, or Laptop.
3. For devices with a USB-C port (e.g., Nintendo Switch, some Laptops/Mobile devices), attach the USB-C adapter to the USB-A dongle before inserting it.
4. The headset and dongle should automatically pair. A solid LED indicator on the headset confirms a successful connection.

5. On your device, ensure the Tatybo WT5 headset is selected as the audio input and output device in your sound settings.

4.3.2 Bluetooth Connection

Use Bluetooth for general audio listening with compatible devices.

1. Ensure the headset is powered on.
2. Activate Bluetooth pairing mode on the headset (refer to device-specific instructions if needed, usually a long press on the power button or a dedicated Bluetooth button). The LED indicator will flash rapidly.
3. On your mobile device, laptop, or Switch, go to Bluetooth settings and search for available devices.

4. Select "Tatybo WT5" from the list to pair. The LED indicator will become solid once connected.

4.3.3 3.5mm Wired Connection

For devices without wireless capabilities or when battery is low.

1. Connect one end of the 3.5mm audio cable to the headset's 3.5mm interface.
2. Connect the other end to the 3.5mm audio port on your device.
3. Note: Some headset functions (e.g., RGB lighting, 7.1 surround sound button) may not be available in wired mode, depending on the device.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Long press the ON/OFF button for approximately 3 seconds to power the headset on or off.

5.2 Volume Adjustment

Use the volume control slider on the headset to increase or decrease the audio volume.

5.3 Microphone Usage

To use the microphone, ensure it is attached and positioned correctly near your mouth. Press the Microphone Mute Button to toggle between muted and unmuted states. The LED on the microphone tip may indicate its status (e.g., red for muted).

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place, away from direct sunlight and extreme temperatures. Use the provided storage bag to protect it from dust and scratches.
- **Battery Care:** To prolong battery life, avoid fully discharging the headset frequently. Charge it regularly, even if not in use for extended periods.
- **Avoid Water:** This headset is not waterproof. Keep it away from liquids.

7. TROUBLESHOOTING

- **No Sound/Low Volume:**

- Ensure the headset is powered on and fully charged.
- Check the volume control on the headset and your connected device.
- Verify the correct audio output device is selected in your device's sound settings.
- If using 2.4GHz wireless, ensure the dongle is properly inserted and paired. Try re-pairing.
- If using Bluetooth, ensure it's paired and connected. Try re-pairing.
- If using 3.5mm wired, ensure the cable is securely connected at both ends.

- **Microphone Not Working:**

- Ensure the microphone is securely attached to the headset.
- Check if the microphone is muted using the mute button on the headset.
- Verify the correct audio input device is selected in your device's sound settings.
- Test the microphone with another application or device.

- **Connection Issues (Wireless):**

- Ensure the headset is within the specified Bluetooth or 2.4GHz range (30 meters for Bluetooth).
- Avoid strong electromagnetic interference from other devices.
- Try restarting both the headset and the connected device.
- If using the 2.4GHz dongle, try a different USB port.

- **RGB Lights Not Working:**

- Ensure the headset is powered on.
- Double-click the 7.1 Channel button to toggle the RGB lights.
- Ensure the headset has sufficient battery charge.
