Joydeco No Tools No Drill Blackout Cellular Shades Instruction Manual

Model: SC0027-WH-56-64

INTRODUCTION

Thank you for choosing Joydeco No Tools No Drill Blackout Cellular Shades. This manual provides detailed instructions for the safe and efficient installation, operation, and maintenance of your new window blinds. Please read this manual thoroughly before installation and retain it for future reference.

SETUP

Measuring for Inside Mounts

Accurate measurement is crucial for a proper inside mount. The width of the cellular shade should be equal to or less than the inside width of the window frame, with a maximum reduction of 1/2 inch from the window size. The more accurately the blinds fit the window, the better the blackout performance will be. Ensure the window depth is at least 2.75 inches.

INSIDE

OUTSIDE

**100% Blackout
Noise Reduction**

**Block out UV Rays
Thermal Insulated**

What's in the Package

Verify that all components are present before beginning installation:

Figure 2: Contents of the product package, showing the cellular shades, installation manual, rubber pads, rubber stopper, hex screwdriver, and handle.

- Installation Manual (x1)
- Cellular Shades (x1)

- Rubber Pads (x2)
- Rubber Stopper (x1)
- Hex Screwdriver (x1)
- Handle (x1)

Installation Steps (No Drill)

Joydeco cellular shades feature a tension-mounted design for effortless, drill-free installation, typically taking only 30 seconds.

Figure 3: Visual guide for the 3-step quick installation process: 1. Attach rubber pads to both ends. 2. Position blinds using the tension system. 3. Tighten clockwise and cover with caps.

1. **Attach Rubber Pads:** Secure the provided rubber pads to both ends of the blinds.
2. **Position Blinds:** Insert the blinds into the window frame and press the tension mechanism to secure them in place.
3. **Tighten and Cover:** Use the hex screwdriver to tighten the mechanism clockwise. Once tightened, cover the holes with the provided caps.

This no-drill design prevents damage to walls, reduces installation time, and avoids difficult repairs.

Installation Video Guide

Video 1: Official Joydeco guide demonstrating the step-by-step installation process for the No Drill Window Blinds. This video shows how to install the rubber pads, insert the blinds into the window frame, tighten the tension system, and cover the holes for a complete setup.

OPERATING INSTRUCTIONS

Cordless Operation

Joydeco cellular shades feature a cordless design for a clean look and enhanced safety, especially in homes with children. To operate, simply use the easy-grip handle located at the bottom rail of the shade.

Cordless Child Safety

Figure 5: Cordless design ensures child safety by eliminating hanging cords, making it ideal for homes with young children.

Free Stop System

Our innovative honeycomb blinds can be stopped at any desired position. Raise them from the bottom to allow sunlight in, or fully pull them down to create a completely darkened environment. Effortlessly adjust both panels to curate the perfect ambiance, balancing brightness, comfort, and privacy.

Blackout Functionality

These shades are engineered to block 99% of light, transforming your bedroom into a serene space perfect for light-sensitive sleepers. They also filter UV rays and provide noise-reducing, energy-efficient insulation.

Figure 6: Visual demonstration of the 100% blackout capability of the shades, showing a room with natural light when open and complete darkness when closed.

Figure 7: Illustration of the honeycomb design with built-in aluminum foil, providing 100% blackout, noise reduction, UV blocking, and thermal insulation.

MAINTENANCE

Cleaning

To maintain the appearance and functionality of your cellular shades, regular cleaning is recommended.

- **Dusting:** Use a feather duster, soft cloth, or vacuum cleaner with a brush attachment to gently remove dust from the shades.
- **Spot Cleaning:** For minor stains, gently blot the affected area with a damp cloth and mild detergent. Avoid rubbing vigorously, as this may damage the fabric. Allow the shades to air dry completely before raising them.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can discolor or damage the fabric.

TROUBLESHOOTING

Common Issues and Solutions

- **Shade Not Staying Up/Down:** Ensure the tension mechanism is properly tightened. Refer to the installation steps for adjustment.
- **Uneven Movement:** Check that the shades are installed level within the window frame. Slight adjustments to the tension on either side may resolve uneven movement.
- **Light Leakage:** Confirm that the shade width is appropriate for your window, minimizing gaps. Re-measure if necessary to ensure the best fit for optimal blackout performance.

SPECIFICATIONS

Feature	Detail
Material	Polyester

Feature	Detail
Product Dimensions	64"L x 56"W
Brand	Joydeco
Color	White - No Drill Design
