

CAXIMSY 61006

CAXIMSY Peach Blossom Pond Micro Building Block Set

Model: 61006

Brand: CAXIMSY

IMPORTANT SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not suitable for children under 3 years.

- Keep all small parts away from young children and pets.
- Adult supervision is recommended during assembly for younger users.
- Dispose of packaging materials properly.

PRODUCT OVERVIEW

The CAXIMSY Peach Blossom Pond Micro Building Block Set (Model 61006) allows you to construct an intricate Chinese architectural scene featuring a suspended structure, a waterfall, pavilions, and a peach blossom tree. This set includes micro-sized building blocks for a detailed and challenging assembly experience, along with an acrylic display case to protect and showcase your completed model.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- Approximately 3300 micro building blocks (various shapes and colors)
- Instruction Manual (this document)
- Acrylic Display Case components
- Any additional decorative elements (e.g., small lights if included)

If any parts are missing or damaged, please contact CAXIMSY customer support.

SETUP AND ASSEMBLY INSTRUCTIONS

This building block set features micro-sized particles, which require careful attention and patience during assembly. The delicate structure ensures a highly detailed final model.

General Assembly Tips:

1. **Organize Parts:** Before starting, sort the micro blocks by color, shape, or size. This will significantly aid in locating the correct pieces during assembly.
2. **Follow Instructions Carefully:** Refer to the included pictorial instructions step-by-step. Pay close attention to the orientation and placement of each block.
3. **Patience is Key:** Due to the small size of the blocks, assembly can be challenging. Take breaks if needed to maintain focus.
4. **Secure Connections:** Ensure each block is firmly connected to create a stable structure.

Building the Peach Blossom Pond Model:

The instruction manual provided in the box contains detailed, step-by-step diagrams for assembling the Peach Blossom Pond model. Follow these diagrams sequentially.

- Begin with the base structure as indicated in the first steps.
- Construct the suspended architectural elements, including the pavilions and bridges, ensuring they are securely attached.
- Integrate the waterfall and landscape elements, such as the peach blossom tree and other foliage.
- Verify all connections are stable as you progress through the build.

OPERATING AND DISPLAYING YOUR MODEL

Once assembled, the CAXIMSY Peach Blossom Pond model is designed for display. The included acrylic case provides protection and enhances its presentation.

Assembling the Acrylic Display Case:

The acrylic display case components are typically designed for easy interlocking assembly. Carefully remove the protective film from all acrylic panels before assembly.

1. Place the base panel on a flat, stable surface.
2. Insert the side panels into the grooves of the base.
3. Carefully place the assembled building block model inside the case.
4. Attach the top panel to complete the enclosure.

Display Recommendations:

- Place the display case on a stable, level surface away from direct sunlight to prevent potential fading or

material degradation.

- Avoid placing the model in high-traffic areas where it might be accidentally knocked over.
- The acrylic case offers high transparency and dust protection, allowing for clear viewing of your model.

MAINTENANCE

Proper care will help maintain the appearance and longevity of your CAXIMSY building block model and its display case.

Cleaning the Model:

- Use a soft, dry brush or a can of compressed air to gently remove dust from the building blocks.
- Avoid using water or chemical cleaners directly on the blocks, as this may damage the plastic or cause discoloration.

Cleaning the Acrylic Display Case:

- Wipe the acrylic panels with a soft, lint-free cloth.

- For smudges or fingerprints, use a mild soap solution or a specialized acrylic cleaner. Avoid ammonia-based cleaners, which can damage acrylic.
- Do not use abrasive materials or harsh chemicals, as they can scratch or cloud the acrylic.

Storage:

- If disassembling for storage, keep all blocks in a sealed container to prevent loss.
- Store the model and case in a cool, dry place away from extreme temperatures and humidity.

TROUBLESHOOTING

Here are solutions to common issues you might encounter during assembly or display:

Issue	Possible Cause	Solution
Difficulty connecting micro blocks	Incorrect alignment; insufficient pressure; block defect.	Ensure blocks are perfectly aligned before applying firm, even pressure. If a block consistently fails to connect, try a similar piece or contact support.
Model feels unstable	Blocks not fully pressed together; incorrect assembly step.	Review recent assembly steps to ensure all blocks are securely connected. Apply additional pressure to all joints.
Missing pieces	Overlooked during sorting; fell off work surface.	Carefully re-check your work area and sorted piles. If a piece is genuinely missing, contact CAXIMSY customer support with the part number from the instruction manual.
Acrylic case panels scratched or cloudy	Protective film not removed; improper cleaning.	Ensure all protective films are removed. Clean with a soft cloth and acrylic-safe cleaner. Avoid abrasive materials.
