2. WHAT'S IN THE BOX

Please verify that all items are present in the package:

- 1 x 9H Wireless Bluetooth Keyboard BKB-030
- 1 x USB-C Charging Cable

3. SETUP

3.1 Charging the Keyboard

The keyboard is equipped with a built-in 450mAh rechargeable Lithium-ion battery. Before initial use, or when the battery is low, charge the keyboard using the provided USB-C cable.

1. Locate the USB-C charging port on the keyboard.
2. Connect one end of the USB-C cable to the keyboard and the other end to a USB power source (e.g., computer USB port, USB wall adapter).
3. The charging indicator light will illuminate. Once fully charged, the indicator light will change or turn off. A full charge provides up to two months of usage or one year of standby time.

Rechargeable Keyboard

Built-in **450mAh** Li-ion Battery

Working time over **720 hours (30days)** after fully charged

3.2 Bluetooth Pairing

Follow these steps to connect your keyboard to your device via Bluetooth:

1. Ensure the keyboard is charged and powered on.
2. On the keyboard, press and hold the **Fn** key and the **B** key simultaneously. The Bluetooth indicator light on the keyboard will begin to flash, indicating it is in pairing mode.
3. On your device (Mac, iPad, etc.), navigate to the Bluetooth settings.
4. Search for available devices. You should see "keyboard" or "KB-420" appear in the list.
5. Select the keyboard from the list to complete the pairing process. The indicator light on the keyboard will stop flashing once successfully paired.

4. OPERATING THE KEYBOARD

4.1 Keyboard Layout and Features

This keyboard features a full-size layout with 110 keys, including a dedicated numeric keypad for enhanced productivity. It is designed with a standard US Qwerty layout.

Image 4.1: A clear top-down view of the keyboard, showing the full 110-key layout including the numeric keypad.

Image 4.2: A user actively typing on the keyboard, demonstrating its ergonomic design during use.

4.2 Shortcut Keys (Mac OS)

The keyboard includes dedicated function keys that provide quick access to various Mac OS features. These shortcuts are typically activated by pressing the function key (F1-F12) directly or in combination with the **Fn** key, depending on your system settings.

- **F1**: Brightness Decrease
- **F2**: Brightness Increase
- **F3**: Display Windows (Mission Control)
- **F4**: Mute
- **F5**: Computer Programs (Launchpad)
- **F6**: Volume Down
- **F7**: Previous Track
- **F8**: Play/Pause
- **F9**: Next Track
- **F10**: Volume Up

- **F11:** Lock Screen
- **F12:** (Functionality may vary based on OS settings)

4.3 Adjustable Kickstand

The keyboard features a built-in kickstand, allowing you to choose between a flat or a raised typing angle for improved comfort and ergonomics.

- To raise the keyboard, gently pull out the kickstand tabs located on the underside of the keyboard.
- To return to a flat position, fold the kickstand tabs back into their recessed slots.

Elevated or Flated Keyboard Option

5. MAINTENANCE

Proper care will extend the life of your keyboard.

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the keyboard surface. For stubborn dirt, slightly dampen the cloth with water or a mild electronics cleaner. Avoid excessive moisture.
- **Storage:** When not in use for extended periods, store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To maintain battery health, avoid fully discharging the battery frequently. Charge the keyboard regularly, even if not in constant use.
- **Avoid Liquids:** Keep the keyboard away from liquids to prevent damage to internal components.

6. TROUBLESHOOTING

If you encounter issues with your keyboard, please refer to the following common solutions:

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
Keyboard does not connect via Bluetooth.	<ul style="list-style-type: none"> ◦ Ensure the keyboard is charged. ◦ Make sure the keyboard is powered on. ◦ Re-initiate pairing mode by pressing Fn+B. ◦ On your device, turn Bluetooth off and then on again. ◦ Remove the keyboard from your device's Bluetooth list and attempt to pair again. ◦ Ensure your device's operating system is compatible (Mac OS 10.13 or later, or Windows OS).
Keys are not responding.	<ul style="list-style-type: none"> ◦ Check battery level and charge if necessary. ◦ Ensure the keyboard is properly connected via Bluetooth. ◦ Restart your device.
Keyboard frequently disconnects.	<ul style="list-style-type: none"> ◦ Ensure the keyboard is within the effective range of your device (typically 10 meters). ◦ Minimize interference from other wireless devices. ◦ Charge the keyboard fully.
