Jestonten QQ001

Jestonten Baby Bassinet Bedside Sleeper (Model QQ001) Instruction Manual

Your guide to safe and proper use of your Jestonten Bassinet.

1. INTRODUCTION

Thank you for choosing the Jestonten Baby Bassinet Bedside Sleeper. This product is designed to provide a safe and comfortable sleeping environment for your infant, offering versatility with its 3-in-1 convertible modes. Please read this manual thoroughly before assembly and use to ensure proper operation and the safety of your child. Keep this manual for future reference.

2. SAFETY INFORMATION

Your child's safety is paramount. This bassinet meets USA CPSC baby safety standards and is ASTM/CPSC certified. Always adhere to the following safety guidelines:

- **Age and Weight Limits:** This bassinet is intended for infants from birth until they begin to push up on their hands and knees, or reach a weight of 20 lbs (9 kg), whichever comes first.
- **Mattress Safety:** Always use the provided mattress. Ensure it is firm and fits snugly without gaps. Do not add extra padding, pillows, or blankets under the infant, as this can create a suffocation hazard.
- **Breathable Mesh:** The bassinet features breathable mesh sides to ensure proper airflow and visibility. Ensure these mesh panels are always clear and unobstructed.
- **Secure Placement:** When used as a bedside sleeper, always secure the bassinet to the adult bed using the provided straps. Ensure there are no gaps between the bassinet and the adult mattress.
- **Stable Surface:** Always place the bassinet on a firm, flat, and level surface.
- **Regular Inspection:** Periodically check all fasteners, straps, and components to ensure they are securely tightened and in good working order. Discontinue use if any part is damaged or missing.
- **Hazard Prevention:** Keep cords, blinds, and other potential strangulation hazards away from the bassinet. Do not place the bassinet near windows where cords could be accessible.
- **Supervision:** Never leave your infant unattended in the bassinet.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- Bassinet Frame (with pre-attached mesh and fabric)
- Mattress (33x19 inches)
- Waterproof Fitted Sheet
- Storage Basket
- Wheels (4 units, with 1 spare wheel)
- Bedside Attachment Straps
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly of the Jestonten Bassinet is designed to be straightforward and typically takes about 10 minutes with no tools required. Follow these steps:

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Assemble Frame:** Extend the bassinet frame until it locks into place. Ensure all joints are secure.
3. **Attach Wheels:** Insert the wheels into the designated slots on the bassinet legs. Ensure they click securely into place.
4. **Install Storage Basket:** Attach the storage basket to the bottom frame supports.
5. **Insert Mattress:** Place the mattress into the bassinet, ensuring it lies flat and fits snugly. Cover with the waterproof fitted sheet.

5. OPERATING INSTRUCTIONS

5.1. 3-in-1 Convertible Modes

The Jestonten Bassinet offers three versatile modes to adapt to your needs:

- **Standalone Bassinet:** Use the bassinet independently in any room. Ensure all four wheels are locked for stability.
- **Bedside Sleeper:** Lower one side of the bassinet and position it adjacent to your adult bed. Secure it using the provided attachment straps. This allows for easy access to your baby during the night.
- **Rocking Bassinet:** Flip the wheels upwards to engage the curved base, transforming the bassinet into a gentle rocking cradle.

5.2. Height Adjustment

The bassinet features 6 levels of height adjustment to match various bed heights or to suit different environments around your home.

1. Locate the height adjustment buttons on both sides of the bassinet frame.

2. Press the buttons simultaneously and slide the bassinet frame up or down to your desired height level.
3. Ensure both sides are adjusted to the same level and lock securely into place before placing your baby in the bassinet.

6 ADJUSTABLE HEIGHTS

Adapts to different adult beds

5.3. Securing to Adult Bed (Bedside Sleeper Mode)

To use the bassinet as a bedside sleeper, it must be securely attached to the adult bed.

1. Adjust the bassinet height so that the lowered side is level with your adult mattress.
2. Position the bassinet flush against your adult bed.
3. Thread the provided attachment straps under your adult mattress and secure them to the bassinet frame as instructed.
4. Ensure there are no gaps between the bassinet and the adult mattress.

5.4. Wheel Locks

The bassinet is equipped with wheels for easy mobility. Each wheel has a lock mechanism.

1. To lock a wheel, press down on the lever located on the wheel.
2. To unlock a wheel, lift the lever up.
3. Always ensure all wheels are locked when the bassinet is stationary, especially when used as a standalone bassinet or bedside sleeper.

6. MAINTENANCE AND CARE

Proper care will extend the life of your Jestonten Bassinet.

- **Fabric Components:** The bassinet's fabric components, including the waterproof sheet, are machine washable. Refer to the care label for specific washing instructions. Typically, use cold water on a gentle cycle and air dry.

- **Frame Cleaning:** Wipe the metal and wood frame parts with a damp cloth and mild soap. Dry thoroughly. Do not use abrasive cleaners.
- **Mattress Care:** The mattress can be spot cleaned with a damp cloth and mild soap. Ensure it is completely dry before re-inserting into the bassinet.
- **Mesh Panels:** The breathable mesh panels can be wiped clean with a damp cloth.

7. TROUBLESHOOTING

If you encounter any issues with your Jestonten Bassinet, please refer to the following common solutions:

- **Difficulty with Assembly:** Ensure all frame components are fully extended and locked into place. Review the assembly steps carefully. If a part appears damaged, do not force it.
- **Bassinet Not Stable:** Check that all wheels are locked when stationary. If in rocking mode, ensure the wheels are properly flipped up and the bassinet is on a level surface.
- **Rocking Motion is Minimal:** The rocking feature is designed for gentle motion. Ensure the wheels are fully flipped up and the bassinet is on a smooth, level surface for optimal rocking.
- **Mattress Firmness:** The mattress is designed to be firm for infant safety, as recommended by pediatric guidelines. Do not attempt to soften it with additional padding.
- **Damaged Components:** If any part of the bassinet arrives damaged or becomes damaged during use, discontinue use immediately and contact customer support for assistance.

8. SPECIFICATIONS

Feature	Detail
