- Camera Holder
- M8 Hexagon Screw (2 pcs)
- 1/4 Camera Screw (1 pc)

- Camera Box Key
- M8 Hexagon (various sizes, total 5 pcs)
- Mask
- Ring Light Holder

### 3. SETUP INSTRUCTIONS

---

Follow these steps to assemble and prepare your photo booth for use.

#### 3.1 Unpacking and Initial Placement

1. Carefully remove all components from the reinforced flight case and wooden box packaging.
2. Place the main photo booth unit on a stable, level surface. Ensure adequate space around the unit for operation and guest interaction.
3. Refer to the detailed text and image instructions provided in the included manual for specific assembly steps.

#### 3.2 Component Assembly

- **Attach the Printer Stand:** Secure the printer stand to the main unit using the appropriate screws (M6 Flat Head Screws) and the hexagonal wrench.
- **Install the Camera Holder:** Mount your DSLR camera onto the camera holder using the 1/4 camera screw. Then, attach the camera holder to the photo booth unit.
- **Connect the Ring Light Holder:** If using an external ring light, attach its holder to the designated point on the photo booth.
- **Connect Power:** Plug the power supply cord into the photo booth and then into a standard electrical outlet.
- **Attach Antennas:** Screw the two antennas into their respective ports on the photo booth unit for optimal wireless connectivity.

## 4. OPERATING INSTRUCTIONS

This section covers the basic operation of your Pikiu Mirror Photo Booth.

### 4.1 Powering On and Software Access

1. Ensure the photo booth is securely plugged into a power source.
2. Press the power button to turn on the unit. The 15.6-inch interactive touchscreen will display the startup sequence.
3. Once the system has booted, double-click the pre-installed photo software icon on the desktop to launch the application.

### 4.2 Taking Photos and Printing

- Follow the on-screen prompts to select photo templates or start a session.
- Position yourself in front of the mirror. The screen will provide a live view.

- Touch the screen to initiate the photo countdown.
- After the photo is taken, you will have options to review, apply digital props/stickers, and print.
- If a printer is connected, select the print option to get instant physical copies of your photos.

## Share Anytime And Anywhere

## 6. MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your photo booth.

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and exterior surfaces. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates to ensure you have the latest features and security patches.
- **Storage:** When not in use, store the photo booth in its flight case to protect it from dust, moisture, and physical damage.
- **Cable Management:** Ensure all cables are neatly organized and not pinched or strained.

## 7. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your photo booth.

Problem	Possible Cause	Solution
Photo booth does not power on.	Power cable disconnected; power outlet malfunction.	Check power cable connection. Try a different power outlet.
Touchscreen is unresponsive.	Software crash; screen calibration issue.	Restart the photo booth. If issue persists, contact support for remote guidance.
Photos are not printing.	Printer not connected; out of paper/ink; printer driver issue.	Ensure printer is connected and powered on. Check paper and ink levels. Verify printer drivers are installed correctly.
RGB lights are not working.	Remote control battery low; app connection issue; light strip malfunction.	Replace remote battery. Reconnect app. If issue persists, contact support.
Cannot share photos to social media.	No internet connection; incorrect social media login.	Ensure the photo booth is connected to the internet. Verify social media account credentials within the software.

For issues not covered here, or if troubleshooting steps do not resolve the problem, please refer to the "Warranty and Support" section for assistance.
