SOBERNA T60-BK

SOBERNA Smart Watch User Manual

MODEL: T60-BK

Introduction

Thank you for choosing the SOBERNA T60-BK Smart Watch. This device is designed to enhance your daily life with its 1.91-inch HD screen, comprehensive health tracking, communication features, and extensive sports modes. This manual provides detailed instructions to help you set up, operate, and maintain your smartwatch, ensuring optimal performance and longevity.

What's in the Box

- SOBERNA T60-BK Smart Watch
- Charging Cable
- User Manual

Setup

1. Charging the Smart Watch

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a standard USB power adapter (not included) or a computer USB port. The watch screen will display the charging status.

2. App Installation and Pairing

To unlock the full functionality of your smartwatch, you need to install the companion app on your smartphone (Android or iOS).

1. Scan the QR code provided in the manual or on the watch screen (if available) to download the official app, or search for the app name (e.g., 'FitCloudPro' or similar, check packaging) in your smartphone's app store.
2. Install and open the app. Follow the on-screen instructions to create an account and set up your profile.
3. Enable Bluetooth on your smartphone.
4. In the app, navigate to the 'Device' or 'My Watch' section and select 'Add Device'.
5. The app will search for available devices. Select 'T60-BK' from the list to initiate pairing.
6. Confirm the pairing request on both your smartphone and the smartwatch.

Operating the Smart Watch

1. Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and watch faces. Tap to select an option.
- **Side Button:** Press the side button to wake up the screen, return to the main watch face, or access the app list (functionality may vary based on a short or long press).

2. Making and Answering Calls

The T60-BK Smart Watch supports Bluetooth calling, allowing you to make and answer calls directly from your wrist when connected to your smartphone.

- **To Make a Call:** From the main screen, swipe to find the 'Dial Pad' or 'Phone' icon. Tap to open the dial pad, enter the number, and press the call icon. Alternatively, access your contacts synced from the app.
- **To Answer a Call:** When an incoming call is received, the watch will display the caller ID. Tap the green phone icon to answer or the red icon to reject.

3. Sports Modes

The watch features over 110 sports modes to track various physical activities. Navigate to the 'Sports' or 'Workout' menu, select your desired activity (e.g., running, cycling, swimming), and start tracking. The watch will record data such as duration, calories burned, and heart rate.

4. Activity Tracking

The T60-BK continuously monitors your daily activity and health metrics:

- **Steps:** Tracks the number of steps taken throughout the day.
- **Calories:** Estimates calories burned based on your activity and profile data.
- **Heart Rate:** Monitors your heart rate in real-time. Ensure the watch is snug on your wrist for accurate readings.
- **Sleep Monitoring:** Tracks your sleep patterns, including deep sleep, light sleep, and awake times (viewable in the app).

5. Weather Display

Once connected to the app and your phone's location services are enabled, the watch can display real-time weather information for your current location.

Maintenance

1. Cleaning

Regularly clean your smartwatch and strap to prevent skin irritation and maintain device hygiene. Use a soft, lint-free cloth. If necessary, slightly dampen the cloth with water. Do not use harsh chemicals or abrasive materials.

2. Water Resistance (IP68)

The T60-BK Smart Watch is IP68 waterproof, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. It is suitable for daily use, hand washing, and light rain. However, it is not recommended for hot showers, saunas, or diving, as steam and high water pressure can compromise the seals.

3. Battery Care

To prolong battery life, avoid extreme temperatures. Charge the watch fully before long periods of inactivity. Do not leave the watch uncharged for extended periods.

Troubleshooting

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Unable to pair with phone:**
 - Ensure Bluetooth is enabled on your phone and the watch.
 - Make sure the watch is within the Bluetooth range of your phone.
 - Restart both the watch and your phone.
 - Check if the app is updated to the latest version.
- **Inaccurate heart rate/activity data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch.
- **Notifications not received:**
 - Check app notification permissions on your phone.
 - Ensure the watch is connected via Bluetooth.
 - Verify that notification settings are enabled within the companion app.

Specifications

Feature	Detail
