

Brightup EN7282

Brightup Beard Trimmer User Manual

Model: EN7282

Your comprehensive guide to precision grooming.

1. INTRODUCTION

Thank you for choosing the Brightup All-in-One Multi-functional Beard Grooming Kit. This versatile electric razor is designed for precise trimming and shaving across various body areas, including face, mustache, body, ear, and nose. With its advanced features and comprehensive set of accessories, you can achieve professional grooming results at home. Please read this manual carefully before first use to ensure proper operation and maintenance.

2. SAFETY INFORMATION

WARNING: To reduce the risk of electric shock, injury, or damage, always follow these basic safety precautions:

- Do not immerse the charging adapter in water or other liquids.
- Keep the appliance away from water when charging.
- Do not use the appliance with a damaged cord or plug.
- This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Keep out of reach of children.
- Only use attachments supplied by the manufacturer.
- Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

3. PACKAGE CONTENTS

Your Brightup grooming kit comes with a comprehensive set of tools for all your grooming needs. Please verify all items are present upon unboxing.

5. SETUP AND ASSEMBLY

Attaching and Detaching Trimmer Heads

The Brightup trimmer features easily interchangeable heads for different grooming tasks.

DISASSEMBLY OF CUTTER HEAD: Hold the machine with one hand and open the cutter head outwards with the other hand.			INSTALLATION OF CUTTER HEAD: The cutter head buckle should be aligned with the clamping position on the machine body and slide in it. Then, the cutter head should be fastened to the machine body downwards.		

Image: Visual guide demonstrating how to disassemble a cutter head by holding the machine and pushing the head outwards, and how to install a new cutter head by aligning the buckle and sliding it into place until fastened.

1. **Disassembly of Cutter Head:** Hold the machine with one hand and gently push the cutter head outwards with the other hand until it detaches.
2. **Installation of Cutter Head:** Align the cutter head buckle with the clamping position on the machine body and slide it in. Ensure the cutter head is securely fastened to the machine body by pushing it downwards until it clicks into place.

Attaching Guide Combs

To achieve desired hair lengths, attach the appropriate guide comb to the trimmer head. Simply snap the comb onto the blade of the chosen trimmer head.

6. OPERATING INSTRUCTIONS

The Brightup grooming kit offers various heads for different grooming tasks. Ensure the trimmer is charged before use.

Image: A collage showing six different uses of the Brightup grooming kit: using the full-size trimmer for hair, precision trimmer for necklines, design trimmer for intricate patterns, micro foil shaver for a clean shave, nose/ear trimmer for

unwanted hair, and body hair trimmer for body grooming.

- **Power On/Off:** Press the power button on the handle to turn the trimmer on or off. The LED display will illuminate.
- **Full Size Trimmer:** Use for general hair cutting and trimming. Attach desired guide comb for specific lengths (e.g., 15mm, 12mm, 9mm, 6mm, 3mm).
- **Precision Trimmer:** Ideal for detailing, creating sharp lines, and precise edging around beards, mustaches, and sideburns.
- **Design Trimmer:** For intricate designs and patterns in hair or beard.
- **Micro Foil Shaver:** Provides a close, smooth shave for facial hair or small body areas.
- **Nose/Ear Trimmer:** Gently insert into nostrils or ear canal to trim unwanted hair.
- **Body Hair Trimmer:** Designed for grooming body hair.

Trimming Beard Length

To trim your beard to a specific length, attach one of the limited-combs (guide combs) to the full-size trimmer head. Select the comb length that corresponds to your desired beard length.

Image: A split image showing a man's beard before and after trimming with a limited-comb, demonstrating the effectiveness of the trimmer in achieving a desired beard length.

7. CHARGING

The Brightup trimmer is equipped with a 2000mAh rechargeable lithium-ion battery. The LED display will show the current battery percentage, reminding you when to charge.

- Connect the provided USB charging cable to the trimmer's charging port.
- Plug the other end of the USB cable into a compatible USB power source (e.g., computer, wall adapter, power bank).
- The LED display will indicate charging progress.
- A full charge takes approximately 3 hours and provides up to 4 hours of cordless running time.

8. MAINTENANCE AND CLEANING

To ensure optimal performance and hygiene, regular cleaning of your Brightup trimmer is essential. The trimmer is IPX7 waterproof, allowing for easy cleaning.

- After each use, turn off the trimmer and detach the trimmer head.
- Use the included cleaning brush to remove any loose hairs from the blades and the trimmer body.
- Rinse the detached trimmer head and the main body (if necessary) under running water. Ensure the charging port cover is securely closed if rinsing the main body.
- Allow all parts to air dry completely before reattaching the head or storing the trimmer.
- No oil is needed for blade maintenance as the blades are non-corrosive.

9. TROUBLESHOOTING

If you encounter any issues with your Brightup trimmer, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Trimmer does not turn on.	Battery is low or depleted.	Charge the trimmer for at least 3 hours.
Trimmer pulls hair or cuts unevenly.	Blades are clogged with hair or dull.	Clean the trimmer head thoroughly. Ensure blades are free of debris.
Trimmer makes unusual noise.	Trimmer head not properly attached.	Reattach the trimmer head, ensuring it clicks securely into place.
Battery life is shorter than expected.	Battery not fully charged or aging.	Ensure a full 3-hour charge. If issue persists, contact customer service.
