

## LIGHTAILING 10335

# LIGHTAILING LED Lighting Kit for Lego 10335 The Endurance

Model: 10335

Brand: LIGHTAILING

## INTRODUCTION

This manual provides comprehensive instructions for the installation and use of the LIGHTAILING LED lighting kit designed specifically for the Lego 10335 The Endurance model. This kit enhances the visual appeal of your Lego model by adding integrated lighting. Please note that the Lego model itself is not included with this lighting kit.

The LIGHTAILING LED lighting kit is engineered for easy installation, featuring a specific wire layout and pre-measured wire distances. This design ensures hidden wiring, preserving the original aesthetic integrity of your Lego model. Comprehensive guidance is available through step-by-step online videos and detailed paper instructions, making the installation process smooth and accessible for all experience levels.

## PACKAGE CONTENTS

Before beginning installation, please verify that all components are present in your package. The kit includes:

- All-in-one USB LED light kit
- Customized wires for precise fitting
- USB power cable (Note: Batteries for optional battery box are not included)
- Detailed paper instruction manual

## ► Package List

## SETUP AND INSTALLATION

The LIGHTAILING LED lighting kit is designed for straightforward installation with a specific wire layout and pre-measured wire distances to integrate seamlessly with your Lego 10335 The Endurance model.

For detailed, step-by-step instructions, refer to the included paper manual. Additionally, comprehensive online video guides are available. Scan the QR code provided in the package or visit the official LIGHTAILING website for access to these video tutorials. Installation may require partial disassembly of your Lego model to properly route and secure the wiring. Ensure wires are hidden to maintain the aesthetic integrity of the model.

## OPERATING INSTRUCTIONS

To power the lighting kit, connect the USB cable to a compatible USB power source. This can be a USB wall adapter, a power bank, or a computer USB port. Alternatively, if your kit includes a battery box, insert the required batteries (not included) into the battery box and then connect the battery box to the lighting kit.

Once properly connected to a power source, the LED lights will automatically illuminate, bringing your Lego model to life with enhanced visual appeal.

## CARE AND MAINTENANCE

- **Cleaning:** Keep the lighting components clean and free of dust. Use a soft, dry cloth for gentle cleaning. Avoid using liquid cleaners directly on the LED components or wiring.
- **Environmental Conditions:** Avoid exposing the kit to excessive moisture, humidity, or extreme temperatures, as these can damage the electronic components.
- **Wiring Care:** Ensure that wires are not pinched, pulled, or strained during handling, moving, or displaying your Lego model. Proper wire management helps prevent damage and ensures longevity.
- **Battery Replacement:** If using a battery box, replace batteries as needed to maintain optimal light brightness and performance. Always use the recommended battery type.

## TROUBLESHOOTING

### Lights not illuminating:

Check the power connection. Ensure the USB cable is securely connected to both the lighting kit and a working USB power source. If using a battery box, verify that batteries are correctly inserted and charged. Inspect all wire connections to ensure they are firm and not disconnected.

### Flickering lights:

This may indicate a loose connection or insufficient power. Re-check all connections within the kit and try connecting to a different USB power source to rule out power supply issues.

### Some lights not working:

Carefully inspect the specific light unit and its connection point. Ensure no wires are broken or bent. If a single LED appears faulty, contact customer support for assistance.

For further assistance, please refer to the 'Warranty and Support' section or contact LIGHTAILING customer service directly.

## SPECIFICATIONS

Product Dimensions	6.5 x 4.72 x 1.57 inches
Item Weight	6 ounces
Country of Origin	China
Item Model Number	10335
Manufacturer	LIGHTAILING
Power Source	USB (Batteries not included)

## WARRANTY AND SUPPORT

LIGHTAILING is committed to providing dependable support for its products. For any questions, installation assistance, or

issues encountered with your LED lighting kit, please do not hesitate to contact LIGHTAILING customer service. Contact information can typically be found on the product packaging or on the official LIGHTAILING website.

Please retain your proof of purchase, such as your order number or receipt, as it may be required for warranty claims or support inquiries.
