WHAT'S IN THE BOX

Verify that all items are present in the package:

- Tecno Phantom V Fold 2 Smartphone
- Power Adapter
- USB Cable
- SIM Tray Ejector
- Phone Case

Note: The Stylus Pen is sold separately.

SETUP

1. Inserting SIM Card

Locate the SIM tray on the side of the device. Use the provided SIM tray ejector tool to open the tray. Insert your Nano-SIM cards into the designated slots. Ensure the SIM cards are correctly oriented. Close the tray securely.

2. Initial Charge

Before first use, fully charge the device using the provided Power Adapter and USB Cable. Connect the USB cable to the phone's charging port and the adapter to a power outlet. The device supports 70W fast charging and 15W wireless charging.

3. Powering On/Off

To power on, press and hold the Power button until the Tecno logo appears. To power off, press and hold the Power button, then select "Power off" from the options.

OPERATING INSTRUCTIONS

Folding and Unfolding

The Tecno Phantom V Fold 2 features an aerospace-grade hinge designed for durability. Gently fold or unfold the device to switch between the cover screen and the main flexible AMOLED display. Avoid applying excessive force.

Connectivity

The Phantom V Fold 2 supports Wi-Fi 6 for faster wireless internet, NFC for seamless payments, and advanced GNSS for precise positioning.

MAINTENANCE

- Keep the device clean using a soft, dry cloth. Avoid abrasive materials.
- Protect the screen from scratches and impacts. The device features Corning Gorilla Glass Victus 2, but additional screen protection is recommended.
- Avoid exposing the device to extreme temperatures, direct sunlight, or liquids.
- Do not attempt to disassemble or repair the device yourself. Refer to authorized service centers for any repairs.
- Regularly back up your data to prevent loss.

TROUBLESHOOTING

Device Not Powering On

Ensure the battery is sufficiently charged. Connect the device to the charger for at least 30 minutes before attempting to power on again. If the issue persists, contact customer support.

Screen Flickering or Unresponsive

Restart the device. If the issue occurs after physical impact or repeated folding/unfolding, it may indicate hardware damage. Contact customer support for assistance.

Poor Battery Life

Close unused applications running in the background. Reduce screen brightness. Disable Wi-Fi, Bluetooth, or GPS when not in use. Check for software updates.

Connectivity Issues

For Wi-Fi, ensure you are within range of a known network and the password is correct. For mobile data, check your SIM card insertion and network settings. Restarting the device can often resolve minor connectivity problems.
