

Vente-unique MASERU

Vente-unique MASERU Reversible Double-Leaf Aluminum and Frosted Glass Door Block Instruction Manual

Model: MASERU

1. PRODUCT OVERVIEW

The Vente-unique MASERU Reversible Double-Leaf Aluminum and Frosted Glass Door Block is designed to enhance natural light within your living space while providing robust interior separation. This model features a durable aluminum frame and 5mm frosted tempered glass, offering both privacy and brightness.

The MASERU door block is reversible, allowing for flexible installation with either a left-hand or right-hand push opening direction, adapting to your specific needs and room layout. It is suitable for interior use and comes with all necessary hardware for self-assembly.

Image 1.2: The MASERU door block installed in an interior setting, demonstrating its aesthetic and functional integration.

2. SAFETY INFORMATION

Please read all instructions carefully before assembly and installation. Failure to follow these instructions may result in injury or damage to the product.

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety glasses during assembly.
- Ensure the installation area is clear of obstructions and provides sufficient space for safe assembly.
- Handle glass components with extreme care to prevent breakage and injury.
- Verify that the wall structure is capable of supporting the weight of the door block (approximately 66.56 kg).
- Keep small parts and hardware out of reach of children.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, please contact customer support.

- 2 x Door leaves (Aluminum frame with 5mm frosted tempered glass)
- 1 x Double door frame (Plywood, Black)
- 1 x Double-leaf door accessory (Black)
- 2 x Door handles

- Complete set of screws and mounting hardware

4. SPECIFICATIONS

Feature	Detail
Brand	Vente-unique
Model	MASERU

5. SETUP AND INSTALLATION

This door block requires self-assembly and is designed for in-tunnel (or in-frame) installation. Ensure you have all necessary tools, including a drill, screwdriver, level, and measuring tape.

5.1. Pre-Installation Checks

- Measure your door opening to ensure it matches the dimensions of the door block and frame.
- Inspect all components for any manufacturing defects or shipping damage.

- Determine the desired opening direction (left-hand push or right-hand push) as the door is reversible.

5.2. Frame Assembly

1. Assemble the plywood door frame according to the included diagrams, using the provided screws.
2. Ensure the frame is square and level before proceeding.

5.3. Frame Installation

1. Carefully position the assembled frame into the door opening.
2. Use shims to ensure the frame is perfectly plumb and level within the opening.
3. Secure the frame to the wall structure using appropriate fasteners (not included, depending on wall material) through the pre-drilled holes in the frame.
4. Verify the frame's stability and alignment before proceeding.

5.4. Door Leaf Installation

1. Attach the hinges to the door leaves and the frame, ensuring correct orientation for your chosen opening direction.
2. Carefully lift and attach each door leaf to the installed frame using the hinges. It is recommended to have assistance due to the weight of the doors.
3. Adjust hinges as necessary to ensure smooth operation and proper alignment of the door leaves within the frame.

5.5. Handle and Latch Installation

1. Install the provided handles and latch mechanisms onto the door leaves according to the included instructions.
2. Ensure all screws are tightened securely.
3. Test the latch and handles for proper function.

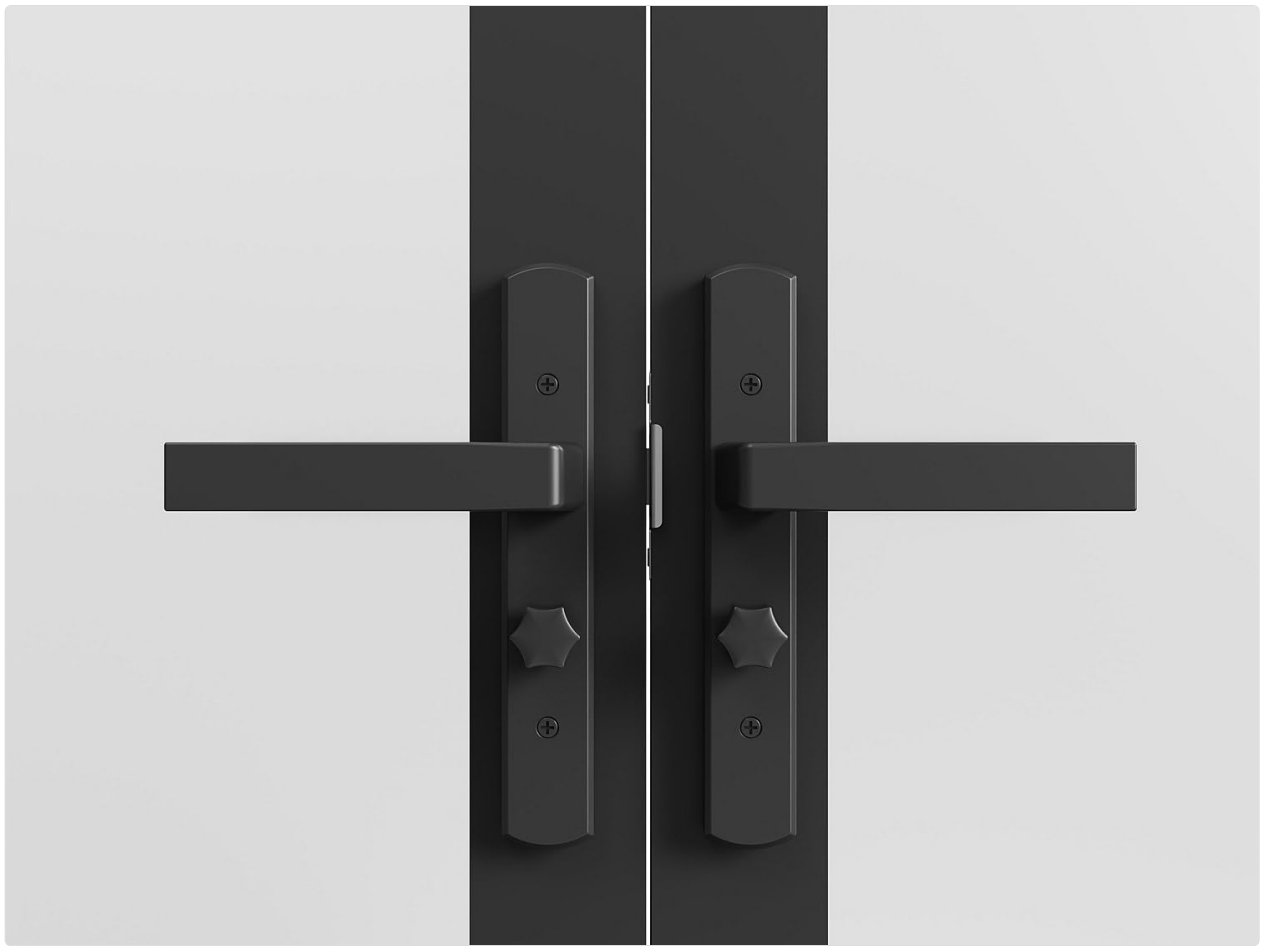

Image 5.1: Detail of the included door handles.

Image 5.2: Close-up view of the door handle and latch mechanism, showing the locking knob.

6. OPERATING INSTRUCTIONS

The Vente-unique MASERU door block operates manually. To open or close the doors:

- Grasp the handle firmly.
- Turn the handle to disengage the latch.
- Gently push or pull the door leaf in the desired direction. The maximum opening angle is 90 degrees.
- To close, push the door leaf until the latch engages with the strike plate.
- To lock, use the knob on the handle to engage the internal locking mechanism.

7. MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your door block.

- **Cleaning the Glass:** Use a soft, lint-free cloth and a non-abrasive glass cleaner to clean the frosted tempered glass. Avoid harsh chemicals that may damage the frosted finish.
- **Cleaning the Frame:** Wipe the aluminum and plywood frame with a soft, damp cloth. For stubborn marks, a mild soap solution can be used, followed by drying with a clean cloth.
- **Hardware Check:** Periodically check all screws and fasteners for tightness. Tighten any loose hardware to prevent sagging or misalignment.
- **Hinge Lubrication:** If the hinges begin to squeak or become stiff, apply a small amount of silicone-based lubricant to the hinge pins.

8. TROUBLESHOOTING

If you encounter any issues with your door block, refer to the following common troubleshooting steps:

- **Door not closing properly:** Check for obstructions in the door frame or on the floor. Verify that the frame is still plumb and level. Adjust hinges if necessary.
- **Handles are loose:** Tighten the screws securing the handles to the door leaves.
- **Squeaking hinges:** Lubricate the hinges as described in the Maintenance section.
- **Latching mechanism not engaging:** Ensure the strike plate is correctly aligned with the latch bolt. Adjust the strike plate position if needed.

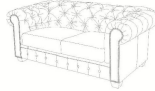

For issues not resolved by these steps, please contact Vente-unique customer support.

9. WARRANTY AND SUPPORT

Vente-unique offers a return policy for this product. Please refer to your purchase documentation for specific warranty terms and conditions.

For product support, missing parts, or warranty claims, please contact Vente-unique customer service through your original point of purchase or visit the official Vente-unique website.

Return Policy: This product is eligible for a refund or replacement within 30 days of purchase, subject to the seller's terms and conditions.
