4. Operating Instructions

The track set features two distinct paths for the included vehicles, Spidey and Spin, allowing for varied play scenarios.

4.1 Dual Track Operation

- **Combining Vehicles:** The exclusive 3-inch Amazing Metals vehicles, Spidey and Spin, can be combined. Place Spidey on top of Spin before launching them from the starting point.
- **Launch:** Position the combined or individual vehicles at the top of the track.
- **Spidey's Zip Line:** As the vehicles launch, Spidey will hook onto the zip line, separating from Spin. Spidey will then ride the zip line, interacting with elements like the Green Goblin Pole and Pumpkin Smash before rejoining the track below.
- **Spin's Raceway:** Spin's vehicle will continue on the wheeled track, navigating obstacles such as Doc Ock’s Bridge and a sheet of Green Goblin Goo.
- **Web Cage Finish:** The first vehicle to blast through the barricade at the bottom will trigger a Web Cage to capture Green Goblin.
