JOYMOR BST1

JOYMOR Baby Bassinet Bedside Sleeper Instruction Manual

Model: BST1

INTRODUCTION

Thank you for choosing the JOYMOR Baby Bassinet Bedside Sleeper. This manual provides essential information for the safe assembly, operation, and maintenance of your bassinet. Please read all instructions carefully before use and retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always ensure the bassinet is placed on a firm, horizontal surface.
- Do not use the bassinet if any parts are missing, damaged, or broken. Contact customer service for replacement parts.
- Never leave a child unattended in the bassinet.
- Discontinue use of the bassinet when the infant begins to push up on hands and knees, or has reached the weight limit of 20 lbs (9 kg), or is 5 months old, whichever comes first.
- Only use the mattress pad provided by the manufacturer. Do not add a second mattress, pillow, comforter, or other padding.
- Keep all small parts and plastic bags away from children.
- Ensure all locking mechanisms are engaged before placing a child in the bassinet.
- When used as a bedside sleeper, ensure the bassinet is securely attached to the adult bed with the provided straps and there is no gap between the bassinet and the adult mattress.

PACKAGE CONTENTS

Verify that all components are present before assembly:

- Bassinet Frame (Left and Right Supports)
- Bassinet Bed Unit
- Mattress Pad

- Mattress Covers (2)
- Mosquito Net
- Storage Basket
- Bed Attachment Straps
- Assembly Tool (Screwdriver)

SETUP AND ASSEMBLY

Follow these steps to assemble your JOYMOR Bassinet:

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Assemble Frame:** Connect the left and right support frames. Ensure they click securely into place.
3. **Attach Bassinet Bed Unit:** Align the bassinet bed unit with the frame and press down until it locks.
4. **Insert Mattress:** Place the mattress pad into the bassinet bed unit. Use one of the provided mattress covers.
5. **Attach Storage Basket:** Secure the storage basket to the designated hooks or clips on the lower frame.
6. **Install Mosquito Net:** If desired, attach the mosquito net to the top frame of the bassinet.

OPERATING INSTRUCTIONS

1. 4-in-1 Functionality

The bassinet offers four modes of use:

- **Standalone Bassinet:** Use as a traditional bassinet in any room.
- **Bedside Co-Sleeping Bassinet:** Attach to an adult bed for close proximity.
- **Rocking Bassinet:** Engage the rocking function for gentle motion.
- **Baby Bed with Mosquito Net:** Utilize the mosquito net for outdoor or insect-prone environments.

2. Height Adjustment

The bassinet features 7 height adjustable settings to align with various adult bed heights. To adjust the height:

1. Locate the height adjustment buttons on both sides of the bassinet frame.
2. Press and hold the buttons simultaneously.
3. Raise or lower the bassinet to the desired height setting (32" to 38").
4. Release the buttons and ensure both sides are locked into the same height setting.

Taller Height, Align Parent Bed from 18" -24"

3. Bedside Sleeper Attachment

To use as a bedside sleeper:

1. Adjust the bassinet height to match your adult bed mattress.
2. Lower the side panel of the bassinet closest to your bed by unzipping or releasing the latches.
3. Position the bassinet flush against your adult bed.
4. Use the provided attachment straps to secure the bassinet frame to your adult bed frame. Ensure there is no gap between the bassinet and the adult mattress.

4. Rocking Function

To engage the rocking function, rotate the wheels inward or adjust the base as per the mechanism on your specific model. Ensure the rocking motion is gentle and stable.

Image: Detail of the bassinet wheel mechanism, showing how it can be adjusted for rocking mode.

5. Mobility

The bassinet is equipped with 4 swivel wheels for easy movement. Each wheel has a brake. To move the bassinet, release the brakes. To secure it in place, engage the brakes on all four wheels.

Image: A person easily moving the bassinet from one room to another, highlighting the 360-degree swivel casters with brakes.

6. Incline Mode

The bassinet can be set to a slight incline (3-8 degrees) to help prevent reflux. To activate this mode, adjust one side of the bassinet to a higher setting than the other. Ensure the incline is gentle and safe for the infant.

Incline Mode to Prevent Refluxing

Image: A bassinet set in a slight incline mode, with an inset showing a baby being fed in an elevated position, illustrating its use for preventing reflux.

MAINTENANCE AND CARE

Cleaning Instructions

- **Fabric Components:** The bedding fabric and mattress covers are removable and machine washable. Use a gentle cycle with cold water and mild detergent. Air dry or tumble dry on low heat.
- **Frame:** Wipe the aluminum frame with a damp cloth and mild soap. Dry thoroughly.
- **Mattress Pad:** Spot clean the mattress pad with a damp cloth and mild soap. Do not machine wash or submerge in water.
- Regularly check all screws, bolts, and fasteners to ensure they are tight and secure.

Image: A close-up of the bassinet mattress and fabric, indicating that they are made from breathable, washable materials.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bassinet feels unstable	Loose connections or uneven surface	Ensure all frame connections are securely locked. Place on a flat, level surface.
Height adjustment not working	Buttons not fully pressed or mechanism jammed	Press both adjustment buttons firmly and simultaneously. Check for obstructions.
Wheels not moving freely	Brakes engaged or debris in wheels	Release all wheel brakes. Clean any debris from the wheel casters.
Bassinet not attaching securely to bed	Straps not correctly installed or adjusted	Re-read bedside attachment instructions. Ensure straps are tight and bassinet is flush against the bed.
